Instructed Language Learning Peter Robinson,2002 Second language learners differ in how successfully they adapt to and profit from instruction This book aims to show that adaptation to L2 instruction and subsequent L2 learning is a result of the interaction between learner characteristics and learning contexts Describing and explaining these interactions is fundamentally important to theories of instructed SLA and for effective L2 pedagogy This collection is the first to explore this important issue in contemporary task based immersion and communicative pedagogic settings In the first section leading experts in individual differences research describe recent advances in theories of intelligence L2 aptitude motivation anxiety and emotion and the relationship of native language abilities to L2 learning In the second section these theoretical insights are applied to empirical studies of individual differences treatment interactions in classroom learning experimental studies of the effects of focus on form and incidental learning and studies of naturalistic versus instructed SLA The Routledge Handbook of Language Testing Glenn Fulcher,Luke Harding,2021-12-15 This second edition of The Routledge Handbook of

Language Testing provides an updated and comprehensive account of the area of language testing and assessment. The volume brings together 35 authoritative articles divided into ten sections written by 51 leading specialists from around the world. There are five entirely new chapters covering the four skills: reading, writing, listening and speaking, as well as a new entry on corpus linguistics and language testing. The remaining 30 chapters have been revised, often extensively or entirely rewritten, with new authorship teams at the helm, reflecting new generations of expertise in the field. With a dedicated section on technology in language testing reflecting current trends in the field, the Handbook also includes an extended epilogue written by Harding and Fulcher, contemplating what has changed between the first and second editions and charting a trajectory for the field of language testing and assessment. Providing a basis for discussion, project work and the design of both language tests themselves and related validation research, this Handbook represents an invaluable resource for students, researchers and practitioners working in language testing and assessment and the wider field of language education.

Language Aptitude Zhisheng (Edward) Wen, Peter Skehan, Adriana Biedroń, Shaofeng Li, Richard L. Sparks, 2019-05-02. Language Aptitude: Advancing Theory, Testing, Research and Practice brings together cutting-edge global perspectives on foreign language aptitude. Drawing from educational psychology, cognitive science and neuroscience, the editors have assembled interdisciplinary authors writing for an applied linguistics and education audience. The book is broken into five major themes: revisiting and updating current language aptitude theories and models; emerging insights from contemporary research into language aptitude and the age factor or the critical period hypothesis; redefining constructs and broadening territories of foreign language aptitude; exploring language aptitude from a neurocognitive perspective; and exploring future directions of foreign language aptitude research. Focused on critical issues in foreign language aptitude and second language learning and teaching, this book will be an important research resource and supplemental reading in both applied linguistics and cognitive psychology.
