**Swing Trading** Michael Branson,2020-02-08 Swing trading can be a fun and very lucrative way to make a living off the stock market While it s slower paced than day trading it does require that you have some tolerance for risk that you re willing to do technical analysis of the stock market and understand what you re doing and that you use sound judgment and don t risk it all for the sake of a single trade If you follow the principles outlined in this book you are on your way to becoming a successful swing trader and I hope that you have found the presentation in this book to be helpful practical and useful While doing all of these things may not seem appealing for those who are anxious to jump in the more preparation that you put in the more likely that you are going to earn profits and do well over the long term Think of swing trading as a

business and that will help ensure your success Owning a business means you take reasonable risks and guard your capital We have discussed ways to do that in the book and I hope that you don't give in to all the common mistakes made by beginners It can be too easy to give into emotion when trading on the stock market and large amounts of money are on the line Don't fall prey to that temptation What are you waiting for Download your copy today **Position Trading** Alpha Bull Traders ,2019-08-12 Finally an investing book which isn't an infomercial When you are learning to trade there are 2 types of books that you don't need There are the dry as dust academic books that require a PhD in math to read And then there are the books about a trader who turned 5 000 into 100 million but with no details about how he did it but he'll let you pay thousands of dollars to learn how Here's the deal Position trading is how men like Warren Buffett and Ray Dalio amassed a net worth of tens of billions of dollars By trading a few times per year rather than a few times per day Which is why people who have followed their advice to the letter Have literally made millions of dollars just from doing exactly as the advice suggests No more and no less And many of these people started off as small part time traders like you and I Over the years the team at Alpha Bull Traders has continually refined a position trading strategy which has resulted in untold amounts of profit Using a combination of western technical and fundamental analysis and ancient Japanese candlestick charting techniques we are able to note which days you should and more importantly which days you shouldn't be trading Because here's the big secret which people don't want you to know You only need to trade between 5-15 times a year to make huge profits in the stock market In fact some years have seen huge gains in our portfolio with as little as 3 trades Here's just a fraction of what you'll learn inside How to easily profit from the bear market with one simple fund 95% of beginner investors and trader don't know about it and yet you can easily net 10-12% a year in a bear market The 1 thing new traders miss about aftermarket trading Get this right and you'll have a huge advantage How to set a proper stop loss so you don't get stopped out prematurely One of the biggest mistakes new traders make is having a stop loss which is too tight Do this instead and you'll profit when the market moves in your favor The zen trader strategy which makes you immune to losses which although rare will occur with any trading plan A useful yet barely known website which breaks company news faster than relying on mainstream news services How to use the other 80-20 rule to profit from short term price movements 3 profit securing lessons to learn from the DOTCOM bubble How to beat the market without spending hours each day monitoring stocks Why a new trader should never trade cryptocurrency and what to trade instead How one trader made 1.4 million in a single day with 1 options trade and why you shouldn't try to replicate their strategy Money management for absolute beginners How to profit from legal marijuana all the upside of cannabis growing companies but without the red tape and volatility and much much more You may have experienced various obnoxious and even misleading advertisements of easy get rich trading strategies This is not one of those You won't have to spend thousands on expensive trading software or magic bullet systems In fact you can get started using an online trading account and use free websites for your information you'll find the best two
