**Short WordPress Guide for Beginners** Nicolae Sfetcu, 2015-06-21. WordPress is a publishing software whose main qualities are simplicity, speed, and ease of use. WordPress is favored by an active community, real core of free software. WordPress is a powerful personal publishing platform with many features designed to make publishing your Internet experience as simple, pleasant, and enjoyable as possible. It offers a freely distributable publishing platform, standards-compliant, fast, light, and free, with parameters and features, and a thoughtful, extraordinarily adaptable core. WordPress is a blogging software that has all the usual features of this type of software. It allows multiple authors to publish posts which are ordered by date and by category. Multiple categories can be assigned to a given post. WordPress is popular mainly with users around free software and with knowledge of software programming. The public interface is customizable through templates; files and plugins can be developed. The WordPress community is very active and has a growing number of resources such as ready-made themes, documentation, and translation software.
