 Befreiungsschlag f r die Deutschen und die ganze Welt sein k nnte French Queer Cinema Nick Rees-Roberts,2008-10-27
 French Queer Cinema examines the representation of queer identities and sexualities in contemporary French filmmaking
 This groundbreaking volume is the first comprehensive study of the cultural formation and critical reception of contemporary
 queer film and video in France French Queer Cinema addresses the emergence of a gay cinema in the French context since
 the late 1990s including critical coverage of films by important contemporary directors such as Francois Ozon Sebastien
 Lifshitz Patrice Chereau Andre Techine and Christophe Honore Nick Rees Roberts transposes contemporary Anglo American
 Queer Theory to the study of French screen culture drawing particular attention to issues of race and migration such as
 problematic fantasies of Arab masculinities in queer cinematic production This theoretically informed book engages with a
 number of fault lines running through queer cultural representation in France including transgender dissent and the effects
 of AIDS and loss on the formation of queer identities and sexualities Constitutional Courts, Media and Public Opinion
 Angioletta Sperti,2023-11-16 This book explores how constitutional courts have transformed communication and overcome
 their reluctance to engage in direct dialogue with citizens How has the information revolution affected the relationship of
 constitutional courts with the public and the media The book looks in detail at the communication strategies of the US
 Supreme Court the Supreme Court of Canada and in Europe the German Federal Constitutional Tribunal the French Conseil
 Constitutionnel and the Italian Constitutional Court arguing that when it comes to the relationship between courts and the
 media different jurisdictions share many similarities It focuses on the consequences of the communication revolution of
 courts both in terms of their relationship with public opinion and of the legitimacy of judicial review of legislation Some
 constitutional courts have attracted criticism by engaging in proactive communication and therefore arguably yielding to the
 temptation of public support The book argues that objections to the developing institutional communications employed by
 courts come from a preconceived notion of public opinion It considers the burden the communication revolution has placed
 on constitutional courts to achieve a balance between transparency and seclusion proximity and distance from public opinion

It puts forward important arguments for how this balance can be achieved The book will interest scholars in constitutional law and public comparative law sociologists historians political scientists and scholars of media law and communication studies
