Media Bias, Perspective, and State Repression Christian Davenport, 2014-05-14 This book examines information reported within the media regarding the interaction between the Black Panther Party and government agents in the Bay Area of California 1967 1973 Christian Davenport argues that the geographic locale and political orientation of the newspaper influences how specific details are reported including who starts and ends the conflict who the Black Panthers target government or non government actors and which part of the government responds the police or court Specifically proximate and government oriented sources provide one assessment of events whereas proximate and dissident oriented sources have another both converge on specific aspects of the conflict The methodological implications of the study are clear Davenport s findings prove that in order to understand contentious events it is crucial to understand who collects or distributes the information in order to comprehend who reportedly does what to whom as well as why **Media Bias, Perspective, and State Repression** Christian Davenport, 2010 This book examines information reported within the media regarding the interaction between the Black Panther Party and government agents in the Bay Area of California 1967 1973 Christian Davenport argues that the geographic locale and political orientation of the newspaper influences how specific details are reported including who starts and ends the conflict who the Black Panthers target government or non government actors and which part of the government responds the police or court Specifically proximate and government oriented sources provide one assessment of events whereas proximate and dissident oriented sources have another both converge on specific aspects of the conflict The methodological implications of the study are clear Davenport s findings prove that in order to understand contentious events it is crucial to understand who collects or distributes the information in order to comprehend who reportedly does what to whom as well as why **Racialized Protest and the State** Hank Johnston, Pamela Oliver, 2020-07-07 Bringing together leading scholars of social movements and protest this volume offers an up to date overview of several of the key ethnic and racial movements in the contemporary United States The organizations strategies and challenges of the Black Lives movement mainstream Black organizations the Mexican American Dreamer groups immigrant rights mobilizations Arab American resistance and White nationalism are all examined by situating them in a rapidly evolving and in many ways increasingly unfavorable state context With empirical studies linked by their dialogue with theories of social movement and protest and in particular recent trends that emphasize the dynamic relations among social movement groups and organizations **Racialized Protest and the State** also considers the multiplicity of state players and the roles of hostile civic actors who oppose the movements challenges A cutting edge analysis of an increasingly important dimension of contentious politics in complex and diverse Western societies this book will appeal to scholars of sociology and politics with interests in social movements nonviolent resistance protest campaigns and ethnic mobilization **How Social**

Movements Die Christian Davenport, 2014-12-22 How do social movements die Some explanations highlight internal factors like factionalization whereas others stress external factors like repression Christian Davenport offers an alternative explanation where both factors interact Drawing on organizational as well as individual level explanations Davenport argues that social movement death is the outgrowth of a coevolutionary dynamic whereby challengers influenced by their understanding of what states will do to oppose them attempt to recruit motivate calm and prepare constituents while governments attempt to hinder all of these processes at the same time Davenport employs a previously unavailable database that contains information on a black nationalist secessionist organization the Republic of New Africa and the activities of authorities in the US city of Detroit and state and federal authorities *Politics, Identity, and Mexico's Indigenous Rights Movements* Todd A. Eisenstadt, 2011-03-21 Drawing on an original survey of more than 5 000 respondents this book argues that contrary to claims by the 1994 Zapatista insurgency indigenous and non indigenous respondents in southern Mexico have been united by socioeconomic conditions and land tenure institutions as well as by ethnic identity It concludes that contrary to many analyses of Chiapas s 1994 indigenous rebellion external influences can trump ideology in framing social movements Rural Chiapas s prevalent communitarian attitudes resulted partly from external land tenure institutions rather than from indigenous identities alone The book further points to recent indigenous rights movements in neighboring Oaxaca Mexico as examples of bottom up multicultural institutions that might be emulated in Mexico and elsewhere in Latin America

American Review of Politics, 2010 **Methodological Advances in Research on Social Movements, Conflict, and Change** Thomas V. Maher, Eric W. Schoon, 2023-07-12 Now that we are almost a quarter of the way into the 21st century the field of sociology is in need of research like this which explores methods for studying contentious politics in the context of broader social changes to peacebuilding armed conflicts and social movements The SAGE Handbook of Human Rights Anja Mihr, Mark Gibney, 2014-07-21 The SAGE Handbook of Human Rights will comprise a two volume set consisting of more than 50 original chapters that clarify and analyze human rights issues of both contemporary and future importance The Handbook will take an inter disciplinary approach combining work in such traditional fields as law political science and philosophy with such non traditional subjects as climate change demography economics geography urban studies mass communication and business and marketing In addition one of the aspects of mainstreaming is the manner in which human rights has come to play a prominent role in popular culture and there will be a section on human rights in art film music and literature Not only will the Handbook provide a state of the art analysis of the discipline that addresses the history and development of human rights standards and its movements mechanisms and institutions but it will seek to go beyond this and produce a book that will help lead to prospective thinking 2010 Massimo Mastrogregori, 2014-12-12 Every year the Bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the

Impediments to the Prevention and Intervention of Genocide Samuel Totten,2013-01-23 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction s prestigious Genocide Studies series

Building Transnational Networks Marisa von Bülow,2010-09-13 Building Transnational Networks tells the story of how a broad group of civil society organizations came together to contest free trade negotiations in the Americas Based on research in Brazil Chile Mexico the United States and Canada it offers a full hemispheric analysis of the creation of civil society networks as they engaged in the politics of trade The author demonstrates that most effective transnational actors are the ones with strong domestic roots and that southern organizations occupy key nodes in trade networks The fragility of activist networks stems from changes in the domestic political context as well as from characteristics of the organizations the networks or the actions they undertake These findings advance and suggest new understandings of transnational collective action

How Social Movements Die Christian Davenport,2015 This book argues that social movement death is the outgrowth of a coevolutionary dynamic whereby challengers influenced by their understanding of what states will do to oppose them attempt to recruit motivate calm and prepare constituents while governments attempt to hinder all of these processes at the same time **In Search of the Black Panther Party** Jama Lazerow,Yohuru Williams,2006-10-31
