Journalism Tim P. Vos, 2018-05-22 This volume sets out the state of the art in the discipline of journalism at a time in which the practice and profession of journalism is in serious flux While journalism is still anchored to its history change is infecting the field The profession and the scholars who study it are reconceptualizing what journalism is in a time when journalists no longer monopolize the means for spreading the news Here journalism is explored as a social practice as an institution and as memory The roles epistemologies and ethics of the field are evolving With this in mind the volume revisits classic theories of journalism such as gatekeeping and agenda setting but also opens up new avenues of theorizing by broadening the scope of inquiry into an expanded journalism ecology which now includes citizen journalism documentaries and lifestyle journalism and by tapping the insights of other disciplines such as geography economics and psychology The volume is a go to map of the field for students and scholars highlighting emerging issues enduring themes revitalized theories and fresh conceptualizations of journalism

Identity Excellence Perry L. Glanzer, 2022-07-18 American higher education historically and inherently is a morally formative endeavor Yet in

order to respond to America's moral pluralism higher education has increasingly taken a reductionistic approach to moral formation. Consequently it abandoned the effort to supply students with moral expertise. Current approaches help students learn how to be excellent professionals and citizens but they fail to provide the necessary tools for living the good life in college and beyond.

Identity Excellence: A Theory of Moral Expertise for Higher Education addresses this problem by setting forth a multi-disciplinary theory of moral expertise for fostering moral excellence in an array of important identities. To this end it teases apart the essential elements of what it means to be excellent in an identity before discussing the philosophical, sociological, psychological, and educational processes necessary for students to internalize traditions of identity excellence as part of their own moral identities. Overall the emergent theory exposes the shortcomings in contemporary general education, professional ethics, and co-curricular education. Finally this book sets forth a bold but compelling vision for a more hopeful future for American higher education. As outlined within such education involves teaching students excellence in the Great Identities as well as how to prioritize and integrate their pursuit of identity excellence.

Teaching Media Ethics The AEJMC Media Ethics Division, 2023-12-11 Teaching Media Ethics gives journalism and mass communication instructors the ideas and tools they need to effectively incorporate media ethics into courses across the curriculum. It covers ethics intensive courses from the undergraduate to the graduate level as well as how to incorporate ethics into other classes related to reporting and strategic communication. The volume also includes nine chapters focused on key specializations such as sports and social media and critical issues such as reporting on mental health. It offers thought-provoking chapters on diversifying the ethics curriculum, inclusive teaching practices, and challenges to traditional notions of media ethics. The only book of its kind in the realm of media ethics, this volume aims not to teach students directly but instead to teach teachers how to address ethics in their own classrooms and engage students effectively. It emphasizes practical advice and suggestions for activities and resources. Teaching Media Ethics has something for instructors at all stages of their careers and should be particularly useful to graduate students and faculty who are developing their approaches to journalism and mass communication classes. The authors, leading ethicists and award-winning teachers, approached their chapters with an emphasis on making it as easy as possible to deliver teaching in ethics.
