Medieval Europe Chris Wickham:

Medieval Europe Chris Wickham, 2016-10-15 A spirited history of the changes that transformed Europe during the 1 000 year span of the Middle Ages A dazzling race through a complex millennium Publishers Weekly The millennium between the breakup of the western Roman Empire and the Reformation was a long and hugely transformative period one not easily chronicled within the scope of a few hundred pages Yet distinguished historian Chris Wickham has taken up the challenge in this landmark book and he succeeds in producing the most riveting account of medieval Europe in a generation Tracking the entire sweep of the Middle Ages across Europe Wickham focuses on important changes century by century including such pivotal crises and moments as the fall of the western Roman Empire Charlemagne's reforms the feudal revolution the challenge of heresy the destruction of the Byzantine Empire the rebuilding of late medieval states and the appalling devastation of the Black Death He provides illuminating vignettes that underscore how shifting social economic and political circumstances affected individual lives and international events and offers both a new conception of Europe's medieval period and a provocative revision of exactly how and why the Middle Ages matter Far ranging fluent and thoughtful of considerable interest to students of history writ large and not just of Europe Kirkus Reviews starred review Includes maps and illustrations

Framing the Early Middle Ages Chris Wickham, 2005-09-22 The Roman empire tends to be seen as a whole whereas the early middle ages tends to be seen as a collection of regional histories roughly corresponding to the land areas of modern nation states As a result early medieval history is much more fragmented and there have been few convincing syntheses of socio economic change in the post Roman world since the 1930s In recent decades the rise of early medieval archaeology has also transformed our source base but this has not been adequately integrated into analyses of documentary history in almost any country In *Framing the Early Middle Ages* Chris Wickham combines documentary and archaeological evidence to create a comparative history of the period 400 800 His analysis embraces each of the regions of the late Roman and immediately post Roman world from Denmark to Egypt The book concentrates on classic socio economic themes state finance the wealth and identity of the aristocracy estate management peasant society rural settlement cities and exchange These give only a partial picture of the period but they frame and explain other developments Earlier syntheses have taken the development of a single region as typical with divergent developments presented as exceptions This book takes all different developments as typical and aims to construct a synthesis based on a better understanding of difference and the reasons for it

Medieval Rome Chris Wickham, 2014-11-06 *Medieval Rome* analyses the history of the city of Rome between 900 and 1150 a period of major change in the city This volume doesn't merely seek to tell the story of the city from the traditional Church standpoint instead it engages in studies of the city's processions material culture legal transformations and sense of the past seeking to unravel the complexities of Roman cultural identity including its urban economy social history as seen across the different strata of society and the articulation between the city's regions This new

approach serves to underpin a major reinterpretation of Rome's political history in the era of the reform papacy one of the greatest crises in Rome's history which had a resonance across the entire continent Medieval Rome is the most systematic analysis ever made of two and a half centuries of Rome's history one which saw centuries of stability undermined by external crisis and the long period of reconstruction which followed **The Long Morning of Medieval Europe** Jennifer R.

Davis, 2016-12-05 Recent advances in research show that the distinctive features of high medieval civilization began developing centuries earlier than previously thought The era once dismissed as a Dark Age now turns out to have been the long morning of the medieval millennium the centuries from AD 500 to 1000 witnessed the dawn of developments that were to shape Europe for centuries to come In 2004 historians art historians archaeologists and literary specialists from Europe and North America convened at Harvard University for an interdisciplinary conference exploring new directions in the study of that long morning of medieval Europe the early Middle Ages Invited to think about what seemed to each the most exciting new ways of investigating the early development of western European civilization this impressive group of international scholars produced a wide ranging discussion of innovative types of research that define tomorrow's field today The contributors many of whom rarely publish in English test approaches extending from using ancient DNA to deducing cultural patterns signified by thousands of medieval manuscripts of saints' lives They examine the archaeology of slave labor economic systems disease history transformations of piety the experience of power and property exquisite literary sophistication and the construction of the meaning of palace spaces or images of the divinity The book illustrates in an approachable style the vitality of research into the early Middle Ages and the signal contributions of that era to the future development of western civilization The chapters cluster around new approaches to five key themes the early medieval economy early medieval holiness representation and reality in early medieval literary art practices of power in an early medieval empire and the intellectuality of early medieval art and architecture Michael McCormick's brief introductions open each part of the volume synthetic essays by accomplished specialists conclude them The editors summarize the whole in a synoptic introduction All Latin terms and citations and other foreign language quotations are translated making this work accessible even to undergraduates **The Long Morning of Medieval Europe** New Directions in Early Medieval Studies presents innovative research across the wide spectrum of study of the early Middle Ages It exemplifies the promising questions and methodologies at play in the field today and the directions that beckon tomorrow **The Inheritance of Rome** Chris

Wickham, 2009-01-29 The idea that with the decline of the Roman Empire Europe entered into some immense dark age has long been viewed as inadequate by many historians How could a world still so profoundly shaped by Rome and which encompassed such remarkable societies as the Byzantine Carolingian and Ottonian empires be anything other than central to the development of European history How could a world of so many peoples whether expanding moving or stable of Goths Franks Vandals Byzantines Arabs Anglo Saxons Vikings whose genetic and linguistic inheritors we all are not lie at the heart

of how we understand ourselves The Inheritance of Rome is a work of remarkable scope and ambition Drawing on a wealth of new material it is a book which will transform its many readers ideas about the crucible in which Europe would in the end be created From the collapse of the Roman imperial system to the establishment of the new European dynastic states perhaps this book s most striking achievement is to make sense of an immensely long period of time experienced by many generations of Europeans and which while it certainly included catastrophic invasions and turbulence also contained long periods of continuity and achievement From Ireland to Constantinople from the Baltic to the Mediterranean this is a genuinely Europe wide history of a new kind with something surprising or arresting on every page Gegenwart schreiben im 10. Barbara Schlieben,2024-09-02 Zeiten in denen vielfältige Umbrüche wahrgenommen werden fordern und ermöglichen neue Formen der Darstellung und Deutung von Gegenwart Die Studie handelt von den damit verbundenen Herausforderungen Gefragt wird nach Darstellungsmodi und Deutungsmodellen von Gegenwart gesucht wird nach Merkmalen die Gegenwartsbetrachtungen ausmachen Welche kognitiven Muster bringen welche Gegenwart hervor Welche Gegenwart evoziert welche Darstellung Im Mittelpunkt der Untersuchung stehen die Werke zweier Bischöfe des regnum Italiae in der Mitte des 10 Jahrhunderts einer Zeit die geprägt war von Machtwechseln an der Spitze und Loyalitätskonflikten der Frage danach was soziale Bindungen konstituiert und der Konkurrenz zwischen Alteingesessenen und homines novi sowie den Effekten sozialer Mobilität der intensiven Neulektüre dialektischer Werke und Bischöfen die zur Ordnung mahnten Dass unterschiedliche Wege beschritten werden können um die Vielschichtigkeit der eigenen Zeit zu bezeichnen zeigt die vergleichende Untersuchung der Werke Rathers von Verona und Attos von Vercelli Annäherungen an Gegenwart sind nicht alternativlos Human Trafficking in Medieval Europe Christopher Paoletta,2020-08-25 Human trafficking has become a global concern over the last 20 years but its violence has terrorized and traumatized its victims and survivors for millennia This study examines the deep history of human trafficking from Late Antiquity to the Early Modern Period It traces the evolution of trafficking patterns the growth and decline of trafficking routes the ever changing relationships between traffickers and authorities and it examines the underlying causes that lead to vulnerability and thus to exploitation As the reader will discover the conditions that lead to human trafficking in the modern world such as poverty attitudes of entitlement corruption and violence have a long and storied past When we understand that past we can better anticipate human trafficking s future and then we are better able to fight it *How Medieval Europe was Ruled* Christian Raffensperger,2023-09-06 The vast majority of studies on rulership in medieval Europe focus on one kingdom one type of rule or one type of ruler This volume attempts to break that mold and demonstrate the breadth of medieval Europe and the various kinds of rulership within it How Medieval Europe was Ruled aims to demonstrate the multiplicity of types of rulers and polities that existed in medieval Europe The contributors discuss not just kings or queens but countesses dukes and town leadership We see that rulers worked collaboratively with one another both across political boundaries and within their own

borders in ways that are not evident in most current studies of kingship inhibited by too narrow a focus The volume also covers the breadth of medieval Europe from Scandinavia in the north to the Italian peninsula in the south Iberia and the Anglo Normans in the west to Rus Byzantium and the Khazars in the east This book is geared towards a wide audience and thus provides a broad base of understanding via a clear explanation of concepts of rule in each of the areas that is covered The book can be utilized in the classroom to enhance the presentation of a medieval Europe survey or to discuss rulership more specifically for a region or all of Europe Beyond the classroom the book is accessible to all scholars who are interested in continuing to learn and expand their horizons

Medieval Europe 250-1450 Christian Raffensperger, Florin Curta, 2025-09-30 Providing an inclusive history of the entire territory and people of medieval Europe from 250 to 1450 this volume examines not just the political history but the rich social and cultural history too European history has functioned as a defining force in the modern worldview of many countries and their citizens Whether viewed positively or negatively that history has shaped the world in many ways To understand Europe it is essential to have a clear view of its medieval history Proceeding from the decline of the Roman Empire with the arrival of Germanic and Turkic peoples through the development of polities in medieval Europe from Iberia to Ireland Scandinavia to Sicily and all the way to the taiga European history grows and changes over the medieval period which we bring to a close with the final fall of Rome the capture of Constantinople by the Ottomans in 1453 Traditional histories of medieval Europe focus primarily on the West This history attempts to include the breadth of the continent from Scandinavia to the Mediterranean and from the Atlantic to the Urals from the nomads of the steppe to the Sami herders in the north and from the vernacular literacies of Alfred the Great of Wessex to Boris's kingdom in Bulgaria The chapters pair eastern and western elements to help make the

point that all of Europe was undergoing changes not only the west who then pushed those changes onto the east which has been the common narrative Medieval Europe 250 1450 is essential reading for all students of Medieval Europe and in particular those who wish to understand the interactions and parallels between east and west north and south

Gallien in Spätantike und Frühmittelalter Steffen Diefenbach, Gernot Michael Müller, 2013-10-14 Zwischen dem 5 und 7 Jh n Chr erfasste den Westen des Imperium Romanum ein tiefgreifender Strukturwandel der in der lteren Forschung weitgehend als durch die Einf lle barbarischer V lker induzierter Aufl sungsprozess der r mischen Ordnung angesehen wurde In aktuellen Diskussionen wird hingegen betont dass das R mische Reich der sp ten Kaiserzeit selbst starke Transformationstendenzen generierte die einen langfristigen Prozess der Umstrukturierung in Gang setzten Unter der vermeintlich einheitlichen Oberfl che eines umfassenden politischen und kulturellen Ordnungsrahmens kam es auch von innen heraus zu Ver nderungen durch die insbesondere auf regionaler Ebene Gruppenzugeh rigkeiten und kulturelle Muster der kollektiven Identit tsbildung neu definiert wurden Die Beitr ge des kulturwissenschaftlich ausgerichteten Bandes wollen diesen Strukturwandel anhand der Region Gallien verdeutlichen die ein quellenm ig besonders gut bezeugtes Beispiel f r diesen Transformationsprozess darstellt Ihr Anliegen ist es dabei historische und literaturwissenschaftliche Ans tze miteinander zu verbinden um praxeologische wie diskursiv vermittelte Formen kollektiver Identit tsstiftung in ihrer wechselseitigen Bedingtheit zu analysieren

Rulers and Rulership in the Arc of Medieval Europe, 1000-1200 Christian Raffensperger, 2023-08-24 *Rulers and Rulership in the Arc of Medieval Europe* challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other's books or engage with each other's work This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it

Streit am Hof im frühen Mittelalter Matthias Becher, Alheydis Plassmann, 2011-10-06 Im frühen Mittelalter war der Hof ein zentraler Ort der Begegnung geistlicher und weltlicher Fürsten Kaiser Könige und Päpste vereinten die Fürsten der verschiedenen Reiche und wurden daher auch zu Kristallisationspunkten des Streits Der Hof als Zentrum der Herrschaft tritt für uns vor allem dann als Phänomen hervor wenn das Mit und Zueinander am Hof durch eskalierende Auseinandersetzungen infrage gestellt wird An der Streitsituation lassen sich die Vorstellungen der Beteiligten die impliziten Ansprüche die an König und Große herangetragen werden sowie die Wirkungsweise des Hofes besonders deutlich machen Zudem können Mechanismen frühmittelalterlicher Streitkultur an dem besonders exponierten Ort des Hofes zutage kommen Die verschiedenen Aspekte des Streits am frühmittelalterlichen Hof werden in diesem Band betrachtet und analysiert In the early middle ages the court was a centre for meetings of secular and clerical princes At the court of emperors kings and popes the princes of different lordships met and the court was therefore at the centre of conflict The court as centre of rule is especially important at the moment when the cooperation at the court is questioned by escalating quarrels In the situation of conflict the notions of the princes emerge more clearly the implicit demands the princes were subordinated to as well as the political mode of functioning at the court In situations of conflict the mechanism of culture of debate in the early middle ages can be observed Different aspects of conflict at court in the early middle ages were discussed

at this international congress **Tax Law, Religion, and Justice** Allen Calhoun, 2021-03-08 This book asks why tax policy is both attracted to and repelled by the idea of justice Accepting the invitation of economist Henry Simons to acknowledge that tax justice is a theological concept the work explores theological doctrines of taxation to answer the presenting question The overall message of the book is that taxation is an instrument of justice but only when taxes take into account multiple goods in society the requirements of the government the property rights of society's members and the material needs of the poor It is argued that this answer to the presenting question is a theological and ethical answer in that it derives from the insistence of Christian thinkers that tax policy take into account material human need *necessitas* Without the *necessitas* component of the tax balance tax systems end up honoring only one of the three components of the tax equation and cease to reflect a coherent idea of justice The book will be of interest to academics and researchers working in the areas of tax law economics theology and history *Where Heaven and Earth Meet: Essays on Medieval Europe in Honor of Daniel F.*
