

Abstracts: Asset Measurement Chemistry 1127-166
Abstracts:

Students' work today should not involve a narrative about environmental sustainability or ethical concerns. Rather, it is about identifying a place, people, or an issue that is important to them and then using that as a starting point for a narrative that is both personal and meaningful. The narrative can be about anything that is important to them, and it can be about anything that is important to the world.

Library and manuscript numbers are indicated in parentheses. Printed editions, where available, are indicated in parentheses at the end of the text. For manuscript numbers, see the list of manuscripts.
