ASP.NET 2.0: A Developer's Notebook Wei-Meng

Lee,2005-06-07 When ASP NET hit the street a couple of years ago it was a real eye opener Microsoft s tool for creating dynamic server side web applications introduced Web Forms a feature with the same rapid drag and drop convenience enjoyed by Visual Basic developers along with a method for creating XML based web services ASP NET was more than an upgrade of Active Server Pages it was a quantum leap ahead Now Microsoft has a new version of ASP NET as part of its upcoming next generation release of the Visual Studio NET development platform ASP NET 2 0 is already available in beta release and web developers are anxious to get a good look at it That s exactly what our new Developer s Notebook allows you to do More than just an introduction to ASP NET 2 0 this practical guide acquaints you with all of the new features through nearly 50 hands on projects Each one places emphasis on changes in the new release that can increase productivity simplify programming tasks and help you add functionality to your applications For example ASP NET 2 0 includes master pages themes and skins so you can build applications with a consistent page layout and design Other changes allow for the automatic creation of web pages for use on mobile devices while wizards and controls allow you to perform frequent tasks like data access without having to write a single line of code ASP NET 2 0 A Developer s Notebook also includes suggestions for further experimentation links to on line documentation and practical notes and warnings from the author regarding changes to the new version The new Developer s Notebooks series from O Reilly offers an in depth first look at important new tools for software developers Emphasizing example over explanation and practice over theory they focus on learning by doing you ll get the goods straight from the masters in an informal and code intensive style If you want to get up to speed on ASP NET 2 0 before its official release this all lab no lecture book will get you there **Macromedia ColdFusion MX**

Development Eric Ladd,2002 Macromedia s ColdFusion is a popular choice for making dynamic Web pages coupled to easy to maintain databases From his teaching experience the author has found that students learn best by seeing several sample CF scripts and the output those scripts produce The author offers lots of example code that is well commented is discussed thoroughly prior to its introduction and is associated with a screen capture that shows the code s output
