Salt and Light, Volume 2 Carol Lee Hamrin, Stacey Bieler, 2010-02-11. The hidden seeds of the Christian renewal in China today include the outstanding Chinese Christians in *Salt and Light 2*: a dozen new life stories with lively anecdotes and photographs. These reformers made lasting contributions that shaped modern China. Working out of the limelight in their professions, they had quiet but powerful influence on early twentieth-century civil society. Motivated by their faith, they modeled essential virtues. This series helps recover a lost Christian heritage linked closely to a legacy of East-West cooperation in an earlier global era.

Handbook of Research on Writing Charles Bazerman, 2009-03-04. The Handbook of Research on Writing ventures to sum up inquiry over the last few decades on what we know about writing and the many ways we know it. How do people write? How do they learn to write and develop as writers? Under what conditions and for what purposes do people write? What resources and technologies do we use to write? How did our current forms and practices of writing emerge within social history? What impacts has writing had on society and the individual? What does it mean to be and to learn to be an active participant in contemporary systems of meaning? This cornerstone volume advances the field by aggregating the broad-ranging interdisciplinary multidimensional strands of writing research and bringing them together into a common intellectual space. Endeavoring to synthesize what has been learned about writing in all nations in recent decades, it reflects a wide scope of international research activity with attention to writing at all levels of schooling and in all life situations. Chapter authors: all eminent researchers come from disciplines as diverse as anthropology, archeology, typography, communication studies, linguistics, journalism, sociology, rhetoric, composition, law, medicine, education, history, and literacy studies. The Handbook's 37 chapters are organized in five sections: The History of Writing; Writing in Society; Writing in Schooling; Writing and the Individual; Writing as Text. This volume, in summing up what is known about writing, deepens our experience and appreciation of writing in ways that will make teachers better at teaching writing and all of its readers better as individual writers. It will be interesting and useful to scholars and researchers of writing to anyone who teaches writing in any context at any level and to all those who are just curious about writing. **A**
