Mind The Gap Study Guide Grade 1:

International Perspectives on Teaching and Learning for Mathematical Literacy, 2024-10-02 Mathematics plays an important role in today's world and is used in daily life more than is often appreciated. Mathematical literacy denotes the competence to deal with the mathematical issues of life in modern society. The underlying purpose of this book is to support the development of rich understandings and practices of how an education for mathematical literacy can be realised. The collected works emerging from several educational systems offer a fresh perspective on mathematical literacy and the chapters include practical examples that teachers, pre-service teachers and teacher educators might adapt to their own needs.

Annual Report South Africa. Department of Basic Education, 2016 **Self-directed learning research and its impact on educational practice** Elsa Mentz, Roxanne Bailey, 2021-05-17 This scholarly book is the third volume in an NWU book series on self-directed learning and is devoted to self-directed learning research and its impact on educational practice. The importance of self-directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over-emphasised. The target audience does not only consist of scholars in the field of self-directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors.
