Mis Laudon 11th Edition:

Modernizing Academic Teaching and Research in Business and Economics Jorge Marx Gómez, Marie K. Aboujaoude, Khalil Feghali, Tariq Mahmoud, 2017-04-25 This proceedings volume brings together the results of a corporate discussion on research academic teaching and education in the field of business and economics in the context of globalization The contributions examine leadership and sustainability quality and governance and the internationalization of higher education With a particular focus on business education and business schools the book discusses the labor market and modernization as well as contemporary trends and challenges By including both academic papers and contributions from industry it forges research links between academia business and industry Challenging the Chain N. Bharosa, R. van Wijk, N. de Winne, 2015-04 What is digital business reporting Why do we need it And how can we improve it This book aims to address these questions by illustrating the rise of system to system information exchange and the opportunities for improving transparency and accountability Governments around the world are looking for ways to strengthen transparency and accountability without introducing more red tape which is a source of growing frustration and costs for businesses In 2004 the Ministry of Finance and the Ministry of Justice in the Netherlands started to investigate the potential of XBRL eXtensible Business Reporting Language as a uniform data standard for business to government information exchange In 2006 there was a comprehensive architecture for Standard Business Reporting SBR including the requirements for the information infrastructure One year later the first reports in XBRL were successfully delivered to the Tax and Customs Administration and the Chamber of Commerce via a secure infrastructure Today millions of business reports are being exchanged using SBR As a solution SBR empowers organisations to present a cohesive explanation of their business operations and helps them engage with internal and external stakeholders including regulators shareholders and creditors Challenging the chain describes the journey of SBR from challenge to solution Specialists in the field flanked by academics provide detailed insights on the challenges actors faced and the solutions they achieved In its versatility this book exemplifies the necessary paradigm shifts when it comes to such large scale public private transformations Policy makers managers IT specialists and architects looking to engage in such transformations will find guidance in this book **Encyclopedia of Information Science and Technology, Fourth Edition** Khosrow-Pour, D.B.A., Mehdi, 2017-06-20 In recent years our world has experienced a profound shift and progression in available computing and knowledge sharing innovations These emerging advancements have developed at a rapid pace disseminating into and affecting numerous aspects of contemporary society This has created a pivotal need for an innovative compendium encompassing the latest trends concepts and issues surrounding this relevant discipline area During the past 15 years the Encyclopedia of Information Science and Technology has become recognized as one of the landmark sources of the latest knowledge and discoveries in this discipline The Encyclopedia of Information Science and Technology Fourth Edition is a 10 volume set which includes 705 original and previously unpublished research

articles covering a full range of perspectives applications and techniques contributed by thousands of experts and researchers from around the globe This authoritative encyclopedia is an all encompassing well established reference source that is ideally designed to disseminate the most forward thinking and diverse research findings With critical perspectives on the impact of information science management and new technologies in modern settings including but not limited to computer science education healthcare government engineering business and natural and physical sciences it is a pivotal and relevant source of knowledge that will benefit every professional within the field of information science and technology and is an invaluable addition to every academic and corporate library

Information Systems and Technology for Organizational Agility, Intelligence, and Resilience Rahman, Hakikur, de Sousa, Rui Dinis, 2014-04-30 Knowledge of scientific and technological developments and the flexible communication and decision making knowledge sharing and collaboration that stem from them can enable organizations and individuals to be successful and viable competitors in today's global economy Information Systems and Technology for Organizational Agility Intelligence and Resilience aims to advise and support organizational agents who want ensure success in terms of financial social and environmental aspects as well as in the aspect of human development in a more sustainable way The premier reference work provides examples of conceptual research methodologies empirical cases and success cases for academics researchers intermediaries and organizations looking to use information systems and technology to boost their agility intelligence and resilience

Information Systems: The Connection Of People And Resources For Innovation - A Textbook Cheng K Hsu, 2013-01-25 This unique new textbook on Information Systems IS provides an answer to a few basic questions in the field What is the scientific nature of IS How do we design IS in today's connected world What is the relationship between IS and innovation in knowledge economies Whereas mainframe corporate computers tended to dominate the thinking in the 1980s the dominating factor today is personal digital devices that connect the world as one whole IS Network science is emerging to describe these digital connections e.g. social networking and service science is similarly emerging to describe service value networks This book therefore synthesizes the emerging network science and service science with the classic IS theory resulting in a new set of principles for IS strategic planning It also reviews the standard IS topics of system analysis and database design covering the whole spectrum of databases and all the major methods and techniques of database design The role of IS as a technological innovation in the knowledge economy is also analyzed In doing so new concepts such as basic values of IS systems of IS sustainability of IS IS as a service system IS as a human value network and the hyper network model for innovation by IS are developed

Information Technology Investment: Decision-making Methodology (2nd Edition) Marc J Schniederjans, Jamie L Hamaker, Ashlyn M Schniederjans, 2010-03-24 From the individual to the largest organization everyone today has to make investments in IT Making a smart investment that will best satisfy all the necessary decision making criteria requires careful and inclusive analysis This textbook provides an up to date in depth understanding of the methodologies available to aid in

this complex process of multi criteria decision making It guides readers on the process of technology acquisition what methods to use to make IT investment decisions how to choose the technology and justify its selection and how the decision will impact the organization Unique to this textbook are both financial investment models and more complex decision making models from the field of management science so that readers can extend the analysis benefits to enhance and confirm their IT investment choices The wide range of methodologies featured in the book gives readers the opportunity to customize their best fit solutions for their unique IT decision situation This textbook is especially ideal for educators and students involved in programs dealing with technology management operations management applied finance operations research and industrial engineering A complimentary copy of the Instructor s Manual and Test Bank and the PowerPoint presentations of the text materials are available for all instructors who adopt this book as a course text Please send your request to sales wspc com

Program Planning and Evaluation for the Public Manager Ronald D. Sylvia,Kathleen M. Sylvia,2012-03-21 In an era of rapidly shrinking resources efficient utilization of public resources is of paramount importance Health care social services education law enforcement and other fields have established their own standards against which program operations are assessed National accrediting bodies have implemented systems of rigorous peer review to ensure the quality of program processes and outcomes Nongovernmental organizations must demonstrate success in achieving their stated goals in order to sustain or expand program funding In the 21st century process how programs are organized and how work is conducted has become as important as outcomes in determining program effectiveness Responding to these dynamic challenges the authors utilize concrete case studies to immerse students in the techniques of program evaluation They effectively examine systems theory project planning queuing theory cost benefit analysis and organization processes including standards based program accreditation providing practical examples in an easy to comprehend style In addition comprehensive discussions explain how process intervention is utilized to achieve program adaptations and strategic change Like its highly regarded predecessors the latest edition features evaluation exercises designed to facilitate student development of indicators and measures when dealing with real world programs An Instructors Manual provides solutions to the case studies in the appendix of the text further clarifying the program planning and evaluation process
