the regime's two track response which was based on a careful analysis of the lessons of the recent velvet or coloured revolutions in Georgia and Ukraine. The first track was repressive: the imposition of controls on NGOs, restrictions on electoral competition and a crackdown on opposition demonstrations. The second was the mobilisation of supporters in patriotic youth organisations that employed both gang violence and velvet revolutionary techniques. Drawing on a wide range of Russian language sources including opposition activists' blogs, this book charts the end of Russia's experiment with liberal democracy and the emergence of a new type of authoritarian order. *Field & Stream*, 1971-09.
