## **Barings Lost Nick Leeson And The Collapse Of Barings Plc:**

**Barings Lost** Luke Hunt, Karen Heinrich, 1996 Barings Lost is the story of the collapse of Barings Bank How and why unmonitored trading by a single dealer brought a venerable institution to its knees is revealed through careful analyses of a long series of events Nick Leeson's role in bringing down the bank is central to the story The exciting early days of his life in Singapore his rise within the bank his dealing wins and losses and his eventual flight all make fascinating reading

**Kontrolle als Lernprozess** Utz Schäffer, 2013-03-08 Utz Schäffer entwickelt allgemeine Leitlinien an der Maximierung des Kontrollerfolgs orientierte Leitlinien für die Gestaltung und Entwicklung von Akteurskonstellationen und Aufgaben der Kontrolle

**Die Gestaltung der Budgetkontrolle** Julia Künkele, 2007-11-10 Geleitwort Das von Künkele gewählte Thema ist in hohem Maße relevant Die zu Grunde liegende Budgetierung gilt als das Instrument zur Prognose Koordination und Motivation in plankoordinierten Unternehmen und wird vielfach auch als Rückgrat der Unternehmenssteuerung bezeichnet Entsprechend nimmt sie einen zentralen Platz in der Arbeit von Managern und Controllern ein Dennoch oder gerade deshalb ist die Budgetierung in den letzten Jahren vielfach kritisiert oder gar für obsolet erklärt wendet während diese Kritik und die sich daran anschließende Diskussion durchaus fruchtend wirken können erscheint bedauerlich dass beides bislang ausschließlich auf konzeptionellen Vorschlägen und anecdotal evidence beruht Empirische Arbeiten jüngeren Datums die den Status Quo der Budgetkontrolle in der Unternehmenspraxis aufzeigen und oder zur Falsifizierung der in der aktuellen Diskussion explizit oder implizit aufgestellten Thesen beitragen könnten liegen nicht vor Die letzte empirische Bestandsaufnahme zur Budgetkontrolle in deutschen Unternehmen liegt fast 20 Jahre zurück und beschränkt sich auf das verarbeitende Gewerbe Dies mag auch daran liegen dass das Konzept in Wissenschaft und Praxis vielfach gemieden und durch scheinbar weniger problematische Begriffe ersetzt wird ja in kaum mehr zu zählenden Controllingpublikationen betont wird dass Controlling doch mit Kontrolle wenig am Hut habe Allein Die Empirie spricht eine andere Sprache Vor diesem Hintergrund setzt Künkele die noch junge Tradition von Arbeiten am Lehrstuhl Controlling der EUROPEAN BUSINESS SCHOOL fort die der Kontrolle die Bedeutung einräumen die ihr in der Unternehmenspraxis auch zukommt

**The Economics of Financial Markets** Roy E. Bailey, 2005-05-26 The Economics of Financial Markets presents a concise overview of capital markets suitable for advanced undergraduates and for beginning graduate students in financial economics Following a brief overview of financial markets their microstructure and the randomness of stock market prices this textbook explores how the economics of uncertainty can be applied to financial decision making The mean variance model of portfolio selection is discussed with analysis extended to the capital asset pricing model CAPM Arbitrage plays a pivotal role in finance and is studied in a variety of contexts including the APT model of asset prices Methods for the empirical evaluation of CAPM and APT are also discussed together with the volatility of asset prices the intertemporal CAPM and the equity premium puzzle An analysis of bond contracts leads into an assessment of theories of the term structure of interest rates Finally financial derivatives are explored focusing on futures

and options contracts      *The Routledge Handbook of International Crime and Justice Studies* Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective      **Research in Organizational Change and Development** Richard W. Woodman, William A. Pasmore, Abraham B. (Rami) Shani, 2009-05-21 An annual publication featuring studies and theoretical work dealing with the topic of change in organizational settings Showcasing the approaches to organizational research whether they be quantitative or qualitative in nature it includes papers that bring fresh perspectives to classic issues in the field such as resistance and communication      **The Truth About Markets** John Kay, 2004-04-29 Capitalism faltered at the end of the 1990s as corporations were rocked by fraud the stock market bubble burst and the American business model unfettered self interest privatization and low tax faced a storm of protest But what are the alternatives to the mantras of market fundamentalism Leading economist John Kay unravels the truth about markets from Wall Street to Switzerland from Russia to Mumbai examining why some nations are rich and some poor why one size fits all globalization hurts developing countries and why markets can work but only in a humane social and cultural context His answers offer a radical new blueprint for the future      *Don't Tell the Boss!* Dmitry Chernov, Didier Sornette, Giovanni Sansavini, Ali Ayoub, 2023-01-20 After a major disaster when investigators are piecing together the story of what happened a striking fact often emerges before disaster struck some people in the organization involved were aware of dangerous conditions that had the potential to escalate to a critical level But for a variety of reasons this crucial information did not reach decision makers So the organization moved ever closer to catastrophe effectively unaware of the possible threat despite the fact that some of its employees could see it coming What is the problem with communication about risk in an organization and why does this problem exist What stops people in organizations or project teams from freely reporting and discussing critical risks This book seeks to answer these questions starting from a deep analysis of 20 disasters where the concealment of risks played a major part These case studies are drawn from around the world and span a range of industries civil nuclear power coal oil and gas production hydropower energy metals and mining space exploration transport finance retail manufacturing and even the response of governments to wars famines and epidemics Together case studies give an insight into why people hesitate to report risks and even when they do why their superiors often prefer to ignore the news The book reviews existing research on the challenges of voice and silence in organizations This helps to explain more generally why people dread passing on bad news to others and why in the workplace they prefer to keep quiet about unpleasant facts or potential risks when they are talking to superiors and colleagues The discussion section of the book includes important examples of concealment within the Chinese state hierarchy as well as by leading epidemiologists and governments in the West during the novel coronavirus outbreak in Wuhan in 2019 2020 The full picture of the very early stage of the COVID 19 pandemic remains unclear and further research is obviously needed to better understand what motivated some municipal provincial and national officials in

China as well as Western counterparts to obfuscate facts in their internal communications about many issues associated with the outbreak

**Games of Greed** Torsten Dennin, 2023-01-31 Examining the consequences of greed in today's society Fear and greed are among the strongest motivators They influence all our decisions Every day we see the lives of the fabulous and famous in the press on TV and on social media and we envy them for their luxurious lifestyle We want it all too Games of Greed reveals how some of these people let greed get the better of them This book connects the dots between the Panama Papers Bernie Madoff famous rough traders and con artists like Nick Leeson Jérôme Kerviel Billy McFarland and Jordan Belfort the real Wolf of Wall Street It reveals the excesses of Main Street and Wall Street and Silicon Valley and even loafing Las Vegas art heists stock markets bitcoins and festival fraud In this insightful book Torsten Dennin demonstrates the pitfalls of greed through many examples of people who like Icarus flew too high and fell with catastrophic consequences In the current day and age of increasing financial tensions and fewer planetary resources his analysis of greed is both relevant and timely

**The Economist Guide to Decision-Making** Helga Drummond, 2012-07-26 We make decisions and these decisions make us and our organisations And in theory decision making should be easy a problem is identified the decision makers generate solutions and choose the optimal one and powerful mathematical tools are available to facilitate the task Yet if it is all so simple why do organisations both private and public sector keep making mistakes the results of which are borne by shareholders employees taxpayers and ultimately society at large This guide to decision making by leading decision science academic Helga Drummond aims to improve decision making in organisations It explores how and why decisions go awry in the first place and offers practical advice on what decision makers can do to counter the psychological social and other forces that can undermine individual judgment and pull organisations off course Full of examples of good and bad decision making from around the world it will make readers think more clearly about decisions big and small

*We are Millions* Marcela López Levy, 2004 Since the 1970s a brutal transference of resources from the poor to the rich has taken place here in Argentina This book looks at the politics which led to mass poverty and unemployment and describes the rich and varied social responses to economic meltdown and political crisis

*Dangerous Decisions* E. Mumford, 2007-08-28 In a world where technology is continually advancing and problems are becoming more and more complex established practices for decision making and problem solving are no longer effective In this new book however Enid

Mumford draws on her wealth of experience in management business schools and working with the police and other professional problem solvers to show us how to tackle complex problems efficiently With drugs and cyber crime as her main examples Professor Mumford shows how these topical yet apparently permanent problems could be approached She does this by looking at how the criminals themselves have overcome legal obstacles and other problems to make the drug trafficking industry the second largest in the world today and the relative newcomer electronic fraud a multi billion dollar problem already These crimes which in themselves lead to more crime from petty theft to support a drug habit to international money laundering are incredibly complex and yet the book shows us that there is not only a way forward with these issues but a way to approach all complex problems with efficiency and competency wherever they occur in our lives

**The Countryside** Corinne Fowler, 2024-06-11 Ten walks through idyllic scenery reveal the countryside's forgotten links to transatlantic slavery and colonialism a work of accessible history that will transform our understanding of British landscapes and heritage The green fields rugged highlands and rolling hills of England Scotland and Wales are commonly associated with adventure romance and seclusion as well as literary figures like Jane Austen and William Wordsworth But in reality many of these rural places with their country houses lakes and shorelines were profoundly changed by British colonial activity Even hamlets and villages were affected by distant colonial events Taking ten country walks author Corinne Fowler explores the unique colonial dimensions of British agriculture copper mining landownership wool making coastal trade and factory work in cotton mills One route shows the links between English country houses and Indian colonization Another explores banking history in Southern England and its link to slavery on Louisianan plantations Other walks uncover the historical impact of sugar profits on the Scottish isles and 18th century tobacco imports on an English coastal port The history of these countryside locations and the people who lived and worked in them is closely bound up with colonial rule in far away continents Accompanying the author on her walks are a fascinating group of people artists musicians and writers with strong attachments to the landscapes featured in this book and family links to former British colonies like Barbados and Senegal These companions illuminate the meaning of colonial history in local settings Crucially this is not just a history book but a compassionate reflection on the way we respond to sensitive shared histories which link people across cultures generations and political divides
