The Truth of Life Hubert Severe, 2021-06-02 This book is a connection letter I wrote to all different races and nations I would like you to read all of them I wrote this book to share my knowledge with everyone in the world and if I said something that you didn't like I'm willing to apologize for it We are human beings and we make mistakes and I don't want to use it as an excuse to do bad things to others Now it is time for us to work together to build a better world for our next generation to come This book has many questions that need to be answered We all have our own opinions and our own way doing things But sometimes we need to share with others where others don't have to guess why we do things that we do We have a wonderful world I just need wonderful people to go along with it Let us run away from anything that can hurt us our family and our country Right now we let wickedness take over our hearts Let us start from the end of the world and walk through the middle of it and ask the Lord to forgive us for all the things we have done Let us feel each other's pain and feelings Let us help each other out from the darkness of life When one makes it and shows others how to do it life will be amazing You know what is right You just need to do things right and our lives will turn around to be wonderful These are some sentences that can help us out **The Political Crisis and Christian Ethics** Ronald H. Stone, 2023-09-26 The Political Crisis and

Christian Ethics addresses themes in political philosophy in the context of a crisis in democracy after the denial of the 2020 election by the Republican candidate for president The refusal to accept the results of the election divided the electorate and drove the president's followers to fail in their attempted coup attempt in January of 2020 Democracy is defended in Reinhold Niebuhr's writing on politics and in Barack Obama's use of the theologian's thought It is developed further in the political theory of Paul Tillich The themes of just peacemaking are reviewed in Paul Tillich's critique of John Foster Dulles work and in the author's critique of just peacemaking in the work of Glen Stassen Domestically the issues of race inequality ecology and healthcare are addressed from the perspective of prophetic realism The book concludes in terms of Alfred North Whitehead's philosophy of education and religion and a vision of the good president In summary The Political Crisis and Christian Ethics

is a volume of American Christian political theory in a period of overcoming the trauma of 2016 with Christian ethics and political philosophy

Genovese, 2011-12-31 This brief thought provoking text evaluates the performance of recent presidents from Johnson to Bush finding that overall each has failed to live up to public expectations Written by one of the top presidency scholars today The Presidential Dilemma reflects on the idea that as our country's problems grow our politicians seem to shrink Arguing that American presidents of the last 40 years have largely failed to meet the needs expectations and responsibilities placed upon them the book discusses how presidents might better maximize their opportunities for leadership and suggests a distinctive theory of presidential politics presidents facing a system of multiple veto points seek to maximize power and influence The third edition of Genovese's stimulating book is thoroughly updated to reflect presidential development in recent years and a new introduction brings his arguments current As he demonstrates the emergence of democracy as a new social and political paradigm undermined traditional authority and legitimacy Subjects no longer automatically follow now citizens must be persuaded They may give to a leader their authority and power or not As Genovese notes in a world of mass consumerism those wishing to lead have precious little to offer by way of inducement Genovese's goal is to examine the reasons why the performance of recent presidents has been underwhelming discuss how they might maximize their opportunities for leadership and ask a key question Can presidents be

both powerful and accountable The book follows a clear format and tries to show why America's officeholders have so rarely been leaders and how presidents can become leaders instead of mere officeholders
