Hackling,Jörg Ramseger,Hsiao-Lan Sharon Chen,2016-10-24 This edited volume explores how primary school teachers create rich opportunities for science learning higher order thinking and reasoning and how the teaching of science in Australia Germany and Taiwan is culturally framed It draws from the international and cross cultural science education study EQUALPRIME

Exploring quality primary education in different cultures A cross national study of teaching and learning in primary science classrooms Video cases of Year 4 science teaching were gathered by research teams based at Edith Cowan University Deakin University the Freie Universit t Berlin the National Taiwan Normal University and the National Taipei University of Education Meetings of these research teams over a five year period at which data were shared analysed and interpreted have revealed significant new insights into the social and cultural framing of primary science teaching the complexities of conducting cross cultural video based research studies and the strategies and semiotic resources employed by teachers to engage students in reasoning and meaning making The book s purpose is to disseminate the new insights into quality science teaching and how it is framed in different cultures methodological advancements in the field of video based classroom research in cross cultural settings and implications for practice teacher education and research The chapters of this book address issues of contemporary relevance and theoretical significance embodiment discursive moves the social unit of learning and instruction inquiry and reasoning through representations Through all of these the EQUALPRIME team manages to connect the multiple cultural perspectives that characterise this research study The meta reflection chapters offer a different form of connection linking cultural and theoretical perspectives on reasoning quality teaching and video based research methodologies The final two chapters offer connective links to implications for practice in teacher education and in cross cultural comparative research into teaching and learning These multiple and extensive connections constitute one of the books most significant accomplishments The EQUALPRIME project as reported in this book provides an important empirical base that must be considered by any system seeking to promote sophisticated science learning and instructional practices in primary school classrooms By exploring the classroom realisation of aspirational science pedagogies the EQUALPRIME project also speaks to those involved in teacher education and to teachers I commend this book to the reader It offers important insights together with a model of effective collegial collaborative inter cultural research It will help us to move forward in important ways Professor David Clarke Melbourne University

PC Mag ,1982-11 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology [Advances in Mechanical Engineering](#) Alexander N. Evgrafov,2021-11-23 This book draws together the most interesting recent results to emerge in mechanical engineering in Russia providing a fascinating overview of the state of the art in the field in that country which will be of interest to a wide readership A broad range of topics and issues in modern engineering is discussed including dynamics of machines materials engineering structural strength and tribological behavior transport technologies machinery quality and innovations The book comprises selected papers presented at the 10th conference Modern Engineering Science and Education held at the Saint Petersburg State Polytechnic University in June 2021 with the support of the Russian Engineering Union The authors are experts in various fields of engineering and all of the papers have been
