Partridge,2006 Entry includes attestations of the head word s or phrase s usage usually in the form of a quotation Annotation 2006 Book News Inc Portland OR booknews com **Better Left Unsaid** Nora Gilbert,2013-01-09 Better Left Unsaid is in the unseemly position of defending censorship from the central allegations that are traditionally leveled against it Taking two genres generally presumed to have been stymied by the censor s knife the Victorian novel and classical Hollywood film this book reveals the varied ways in which censorship for all its blustery self righteousness can actually be good for sex politics feminism and art As much as Victorianism is equated with such cultural impulses as repression and prudery few scholars have explored the Victorian novel as a censored commodity thanks in large part to the indirectness and intangibility of England s literary censorship process This indirection stands in sharp contrast to the explicit detailed formality of Hollywood s infamous Production Code of 1930 In comparing these two versions of censorship Nora Gilbert explores the paradoxical effects of prohibitive practices Rather than being ruined by censorship Victorian novels and Hays Code films were stirred and stimulated by the very forces meant to restrain them *The Ponzi Scheme Puzzle* Tamar Frankel,2012-08-13 Charles Ponzi perpetrated his infamous scheme almost a hundred years ago But his method of using new investments to pay existing investors and finance a highflying lifestyle is alive and well just as much money is lost in the United States today from Ponzi schemes as from shoplifting Somehow con artists are able to dazzle wealthy educated individuals and sophisticated institutions and convince them to hand over huge sums of money How In *The Ponzi Scheme Puzzle* renowned legal scholar Tamar Frankel explores these con artists fascinating power of persuasion and deception uncovering the subtle signals that mimic truth and honesty After years of close study of hundreds of cases Frankel explains the striking patterns that emerge and the common characteristics of the con artists and their victims She offers clear yet comprehensive descriptions of the various designs of Ponzi schemers attractive offers and flags the ways in which they mask their deception through specialized methods of advertising and selling She then constructs lucid profiles of the con artists and their victims exposing the core nature of the people at the heart of the schemes and showing how over time the lines between predator and prey are blurred There are indeed many lessons to learn from these stories and Frankel brings them to light through the insightful results of her research She shows how peoples attitudes are ambivalent and uncertain toward con artists perhaps because their behavior is so seemingly honest because they act like the social leaders with whom they are likely to mingle or perhaps because their actions are thought to shake up a complacent society Frankel concludes by offering a surprising solution on how to prevent charming dangerous con artists from perpetuating the enduring disastrous legacy of Charles Ponzi
