**'Black but Human'** Carmen Fracchia,2019-10-16 *Black but Human* is the first study to focus on the visual representations of African slaves and ex slaves in Spain during the Hapsburg dynasty The Afro Hispanic proverb Black but Human is the main thread of the six chapters and serves as a lens through which to explore the ways in which a certain visual representation of slavery both embodies and reproduces hegemonic visions of enslaved and liberated Africans and at

the same time provides material for critical and emancipatory practices by Afro Hispanics themselves The African presence in the Iberian Peninsula between the late fifteenth century and the end of the seventeenth century was as a result of the institutionalization of the local and transatlantic slave trades In addition to the Moors Berbers and Turks born as slaves there were approximately two million enslaved people in the kingdoms of Castile Arag n and Portugal The Black but Human topos that emerges from the African work songs and poems written by Afro Hispanics encodes the multi layered processes through which a black emancipatory subject emerges and a black nation forges a collective resistance It is visually articulated by Afro Hispanic and Spanish artists in religious paintings and in the genres of self portraiture and portraiture This extraordinary imagery coexists with the stereotypical representations of African slaves and ex slaves by Spanish sculptors engravers jewellers and painters mainly in the religious visual form and by European draftsmen and miniaturists in their landscape drawings and sketches for costume books

Household Servants and Slaves Diane

Wolfthal, 2022-04-12. The first book length study of household servants and slaves exploring a visual history over 400 years and four continents. The first book length study of both images of ordinary household workers and their material culture. *Household Servants and Slaves: A Visual History 1300-1700* covers four hundred years and four continents, facilitating a better understanding of the changes in service that occurred as Europe developed a monetary economy, global trade and colonialism. Diane Wolfthal presents new interpretations of artists including the Limbourg brothers, Albrecht Dürer, Paolo Veronese and Diego Velázquez, but also explores numerous long neglected objects including independent portraits of ordinary servants, servant dolls and their miniature cleaning utensils and dummy boards, candlesticks and tablestands in the form of servants and slaves. Wolfthal analyzes the intersection of class, race and gender while also interrogating the ideology of service, investigating both the material conditions of household workers' lives and the immaterial qualities with which they were associated. If images repeatedly relegated servants to the background, then this book does the reverse: it foregrounds these figures in order to better understand the ideological and aesthetic functions that they served.
