Inside a badly damaged copy of Straparola's 16th century work *Piacevoli Notti* acquired in a Florentine antique shop in 2010 an inscription is found attributing ownership to a certain Angelica Baldachini. The discovery sets in motion a series of inquiries deploying knowledge about calligraphy, orthography, linguistics, dialectology and the socio-psychology of writing to reveal the person behind the name. Focusing as much on the possible owner as upon the thing owned, Angelica's Book examines the genesis of the *Piacevoli Notti* and its many editions, including the one in question. The intertwined stories of the book and its owner are set against the backdrop of a Renaissance world still imperfectly understood in which literature and reading were subject to regimes of control and the new information throws aspects of this world into further relief, especially in regard to women's involvement with reading books and knowledge. The inquiry yields unexpected insights concerning the logic of accidental discovery, the nature of evidence and the mission of the humanities in a time of global crisis. *Angelica's Book and the World of Reading in Late Renaissance Italy* is a thought-provoking read for any scholar of early modern Europe and its culture.
