Fain, 2015-06-30 This thought provoking work examines the dehumanizing depictions of black males in the movies since 1910 analyzing images that were once imposed on black men and are now appropriated and manipulated by them Moving through cinematic history decade by decade since 1910 this important volume explores the appropriation exploitation and agency of black performers in Hollywood by looking at the black actors directors and producers who have shaped the image of African American males in film To determine how these archetypes differentiate African American males in the public s subconscious the book asks probing questions for example whether these images are a reflection of society s fears or realistic depictions of a pluralistic America Even as the work acknowledges the controversial history of black representation in film it also celebrates the success stories of blacks in the industry It shows how blacks in Hollywood manipulate degrading stereotypes gain control advance their careers and earn money while making social statements or bringing about changes in culture It discusses how social activist performers such as Paul Robeson Sidney Poitier Harry Belafonte and Spike Lee reflect political and social movements in their movies and it reviews the interactions between black actors and their white counterparts to analyze how black males express their heritage individual identity and social issues through film **Crash Cinema** Will

Godfrey, Jill Good, Mark Goodall, 2009-10-02 Crash Cinema Representation in Film is a collection of essays that emerged from Crash Cinema an annual symposium that is an integral part of the Bradford Film Festival at the National Media Museum UK The symposium was created by academics and curators who share the common aim of promoting the importance of film both as an academic study and for critical public appreciation Films can be enjoyed as entertainment they can educate and inform and they can excite and disturb Films are powerful pieces of culture The films that we now consume do more than simply amuse or horrify Cinema not only thrills us but also communicates to us about ourselves and in the twentieth and twenty first century moving images have become the dominant form of this communication Bombarded by images we inhabit a media intensive world in which every aspect of life is pervaded by visual signs In these circumstances it becomes increasingly significant to engage with the politics of representation Through this vital process we can acknowledge that all cultural forms whether in high art or the mass media are in the broadest sense political We can also appreciate that it is a complex agenda of interests that shapes specific ideological meanings Fulsomely equipped we can apply this essential tool to the exciting task of decoding the political social and cultural meanings articulated through the making promotion and consumption of film This book aims to offer an arena for the analysis of these representations Representations cannot depict the truth and the essays

in this book do not claim to search for the truth We ask whose truth is being represented how is it represented and why is it represented like that We also ask how do representations tell us something about the culture within which they are created Yet the essays in this volume are not stuck in the representational concerns of the past and try instead to uncover the power of cinema to shock and surprise whether that be through visceral impact subversive content experiments with identity or the exploration of the taboo Representation as defined by the eleven essays in this book is a fluid and dynamic approach to the study of film The study of film to which this book contributes some unique case studies is as popular as ever and has withstood growing challenge from the new media such as CG Animations the internet and computer console and online gaming This is because the pleasure of film is still the most humanistic and because the sophistication of the representations offered by cinematic expression remain ever more complex and pleasurable to decipher This book can therefore be read by any student academic writer or filmmaker hooked on these delights
