Human Past Chris Scarre

Gabriel Hallevy

Human Past Chris Scarre:

The Human Past Christopher Scarre, 2018 A comprehensive and indispensable guide to world prehistory now completely updated

The Human Past Christopher Scarre, 2009 The Human Past has established itself as the most authoritative introduction to social cultural and economic developments in human prehistory

The Human Past Chris Scarre, 2024-01-15 With the most diverse author team to date the Fifth Edition brings new specialists new research and new perspectives to the field connecting our present to the past in a more equitable and representative way Careful reconsideration of each chapter's level of detail resulted in a book that is 13% briefer but which remains a comprehensive authority on world prehistory with each chapter written by leading experts on that region

The Story of Food in the Human Past Robyn E. Cutright, 2021-01-26 A sweeping overview of how and what humans have eaten in their long history as a species The Story of Food in the Human Past How What We Ate Made Us Who We Are uses case studies from recent archaeological research to tell the story of food in human prehistory Beginning with the earliest members of our genus Robyn E Cutright investigates the role of food in shaping who we are as humans during the emergence of modern Homo sapiens and through major transitions in human prehistory such as the development of agriculture and the emergence of complex societies This fascinating study begins with a discussion of how food shaped humans in evolutionary terms by examining what makes human eating unique the use of fire to cook and the origins of cuisine as culture and adaptation through the example of Neandertals The second part of the book describes how cuisine was reshaped when humans domesticated plants and animals and examines how food expressed ancient social structures and identities such as gender class and ethnicity Cutright shows how food took on special meaning in feasts and religious rituals and also pays attention to the daily preparation and consumption of food as central to human society Cutright synthesizes recent paleoanthropological and archaeological research on ancient diet and cuisine and complements her research on daily diet culinary practice and special purpose mortuary and celebratory meals in the Andes with comparative case studies from around the world to offer readers a holistic view of what humans ate in the past and what that reveals about who we are

Big History David Christian, 2018-07-23 Der Big Bang war der heilige Augenblick der Weltgeschichte Der Rest ist Abkühlung Und die hatte Folgen Atome und Sterne entstanden die Erde und wir Eingebettet in die Geschichte des Universums ist auch die Geschichte der Menschheit David Christian erzählt die Historie der Welt anhand von acht Schwellenmomenten von der Entstehung des Lebens bis zur Fotosynthese von der Sprache bis zum menschengemachten Klimawandel Sein Buch ist eine brillante Synthese der Erkenntnisse aus Astronomie Biologie Chemie und Physik Und eine atemberaubende moderne Ursprungsgeschichte die mit einem Ausblick auf die Zukunft endet in der wir endlich die Verantwortung für den Planeten Erde übernehmen müssen

The Human Past Essentials Christopher Scarre, Tammy Stone, 2021 This textbook provides an archaeological overview of human prehistory throughout the world

Anthropology Raymond Scupin, Christopher R. DeCorse, 2019-12-20 Now with

SAGE Publishing Using state of the art research Anthropology A Global Perspective introduces students to the four core subfields of anthropology and applied anthropology Integrating material from each subfield this comprehensive text is founded on four essential themes the diversity of human societies the similarities that tie all humans together the interconnections between the sciences and humanities and a new theme addressing psychological essentialism Authors Raymond Scupin and Christopher R DeCorse demonstrate how anthropologists use research techniques and methods to help solve practical problems and show students how anthropology is relevant to improving human societies This supportive textbook is grounded in the belief that an enhanced global awareness is essential for people preparing to take their place in the fast paced interconnected world of the twenty first century The extensively revised Ninth Edition includes a new chapter on gender and sexuality features a dramatically new look with new photos and figures and has been updated to reflect the most recent findings in the field This title is accompanied by a complete teaching and learning package

The Birth of the Anthropocene Jeremy Davies, 2016-05-24 The world faces an environmental crisis unprecedented in human history Carbon dioxide levels have reached heights not seen for three million years and the greatest mass extinction since the time of the dinosaurs appears to be underway Such far reaching changes suggest something remarkable the beginning of a new geological epoch It has been called the Anthropocene The Birth of the Anthropocene shows how this epochal transformation puts the deep history of the planet at the heart of contemporary environmental politics By opening a window onto geological time the idea of the Anthropocene changes our understanding of present day environmental destruction and injustice Linking new developments in earth science to the insights of world historians Jeremy Davies shows that as the Anthropocene epoch begins politics and geology have become inextricably entwined

Agriculture , *Prehistory* Colin Renfrew, 2008-08-19 In Prehistory the award winning archaeologist and renowned scholar Colin Renfrew covers human existence before the advent of written records which is to say the overwhelming majority of our time here on earth But Renfrew also opens up to discussion and even debate the term prehistory itself giving an incisive concise and lively survey of the past and how scholars and scientists labor to bring it to light Renfrew begins by looking at prehistory as a discipline particularly how developments of the past century and a half advances in archaeology and geology Darwin s ideas of evolution discoveries of artifacts and fossil evidence of our human ancestors and even more enlightened museum and collection curatorship have fueled continuous growth in our knowledge of prehistory He details how breakthroughs such as radiocarbon dating and DNA analysis have helped us to define humankind s past how things have changed much more clearly than was possible just a half century ago Answers for why things have changed however continue to elude us so Renfrew discusses some of the issues and challenges past and present that confront the study of prehistory and its investigators In the book s second part Renfrew shifts the narrative focus offering a summary of human prehistory from early hominids to the rise of literate civilization that is refreshingly free from conventional wisdom and grand unified theories The author s own case studies encompass a vast

geographical and chronological range the Orkney Islands the Balkans the Indus Valley Peru Ireland and China and help to explain the formation and development of agriculture and centralized societies He concludes with a fascinating chapter on early writing systems From Prehistory to History In this invaluable brief account of human development prior to the last four millennia Colin Renfrew delivers a meticulously researched and passionately argued chronicle about our life on earth and our ongoing quest to understand it

World Prehistory Brian M. Fagan, Nadia Durrani, 2016-09-13 This popular introductory textbook provides an overview of more than 3 million years of human prehistory Written in an accessible and jargon free style this engaging volume tells the story of humanity from our beginnings in tropical Africa up to the advent of the world's first urban civilizations A truly global account *World Prehistory* surveys the latest advances in the study of human origins and describes the great diaspora of modern humans in the millennia which followed as they settled Europe Asia and the Americas Later chapters consider seminal milestones in prehistory the origins of food production the colonization of the offshore Pacific and the development of the first more complex human societies based for the most part on agriculture and stock raising Finally Fagan and Durrani examine the prevailing theories regarding early state organized societies and the often flamboyant usually volatile pre industrial civilizations which developed in the Old World and the Americas Fully updated to reflect new research controversies and theoretical debates this unique book continues to be an ideal resource for the beginner first approaching archaeology Drawing on the experience of two established writers in the field *World Prehistory* is a respected classic which acquaints students with the fascinations of human prehistory

Why Did Ancient Civilizations Fail? Scott A J Johnson, 2016-09-19 Ideas abound as to why certain complex societies collapsed in the past including environmental change subsistence failure fluctuating social structure and lack of adaptability *Why Did Ancient Civilizations Fail* evaluates the current theories in this important topic and discusses why they offer only partial explanations of the failure of past civilizations This engaging book offers a new theory of collapse that of social hubris Through an examination of Mesopotamian Egyptian Roman Maya Inca and Aztec societies Johnson persuasively argues that hubris blinded many ancient peoples to evidence that would have allowed them to adapt and he further considers how this has implications for contemporary societies Comprehensive and well written this volume serves as an ideal text for undergraduate courses on ancient complex societies as well as appealing to the scholar interested in societal collapse

Scenes from Prehistoric Life Francis Pryor, 2021-08-05 An invigorating journey through Britain's prehistoric landscape and an insight into the lives of its inhabitants Highly compelling *Spectator Books of the Year* An evocative foray into the prehistoric past BBC Countryfile Magazine Vividly relating what life was like in pre Roman Britain *Choice Magazine* Makes life in Britain BC often sound rather more appealing than the frenetic and anxious 21st century *Daily Mail* In *Scenes from Prehistoric Life* the distinguished archaeologist Francis Pryor paints a vivid picture of British and Irish prehistory from the Old Stone Age about one million years ago to the arrival of the Romans in AD 43 in a sequence of fifteen profiles of ancient landscapes Whether writing about

the early human family who trod the estuarine muds of Happisburgh in Norfolk c 900 000 BC the craftsmen who built a wooden trackway in the Somerset Levels early in the fourth millennium BC or the Iron Age denizens of Britain's first towns Pryor uses excavations and surveys to uncover the daily routines of our ancient ancestors By revealing how our prehistoric forebears coped with both simple practical problems and more existential challenges Francis Pryor offers remarkable insights into the long and unrecorded centuries of our early history and a convincing well attested and movingly human portrait of prehistoric life as it was really lived

Migrations DK,2022-05-27 Discover how the migration of peoples has shaped the modern world This beautifully illustrated ebook details the movement of people and cultures around the world from the early migrations of Homo erectus out of Africa 50 000 years ago to modern refugee movements and migrations Through striking photographs evocative illustrations and intimate first hand accounts Migrations explores famous and infamous movements in history from the Middle Passage and Trail of Tears to the California Gold Rush and the Windrush generation While many traditional world histories focus on mainly European exploration and discovery Migrations explores the story of each continent and focuses on cultures rather than conquest Migrations highlights the human story and the positives what has survived not just what was destroyed Migrations is a history ebook with a fresh perspective focusing on a topic ever more relevant in the modern world Where did we come from Why do people leave their homes What brought us all together

Introducing Archaeology, Third Edition Robert J. Muckle, Stacey L. Camp, 2020-11-03 Situating archaeology in academic social and political contexts the third edition emphasizes the ethics and the scholarship of women and includes considerable focus on the archaeology of recent and contemporary times

The Right to Be Punished Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing

People of the Earth Brian Fagan, Nadia Durrani, 2023-06-21 People of the Earth is a narrative account of the prehistory of humankind from our origins over 6 million years ago to the first pre industrial states beginning about 5 000 years ago This is a global prehistory which covers prehistoric times in every corner of the world in a jargon free

style for newcomers to archaeology Many world histories begin with the first pre industrial states This book starts at the beginning of human history and summarizes the latest research into such major topics as human origins the emergence and spread of modern humans the first farming and the origins of civilization People of the Earth is unique in its even balance of the human past its readily accessible style and its flowing narrative that carries the reader through the long sweep of our past The book is highly illustrated and features boxes and sidebars describing key dating methods and important archaeological sites This classic world prehistory sets the standard for books on the subject and is the most widely used such textbook in the world It is aimed at introductory students in archaeology and anthropology taking survey courses on the prehistoric past as well as more advanced readers It will also appeal to students of human responses to climatic and environmental change

The Origins of Religion in the Paleolithic Gregory J. Wightman, 2014-12-18 How did religion emerge and why What are the links between behavior environment and religiosity Diving millions of years into the past to a time when human ancestors began grappling with issues of safety worth identity loss power and meaning in complex and difficult environments Gregory J Wightman explores the significance of goal directed action and the rise of material culture for the advent of religiosity and ritual The book opens by tackling questions of cognitive evolution and group psychology and how these ideas can integrate with archaeological evidence such as stone tools shell beads and graves In turn it focuses on how human ancestors engaged with their environments how those engagements became routine and how eventually certain routines took on a recognizably ritualistic flavor Wightman also critically examines the very real constraints on drawing inferences about prehistoric belief systems solely from limited material residues Nevertheless Wightman argues that symbolic objects are not merely illustrative of religion but also constitutive of it in the continual dance between brain and behavior between internal and external environments lie the seeds of ritual and religion Weaving together insights from archaeology anthropology cognitive and cultural neuroscience history and philosophy of religions and evolutionary social and developmental psychology Wightman provides an intricate evidence based understanding of religion s earliest origins

Encyclopedia of Pestilence, Pandemics, and Plagues Joseph P. Byrne, 2008-09-30 Editor Joseph P Byrne together with an advisory board of specialists and over 100 scholars research scientists and medical practitioners from 13 countries has produced a uniquely interdisciplinary treatment of the ways in which diseases pestilence and plagues have affected human life From the Athenian flu pandemic to the Black Death to AIDS this extensive two volume set offers a sociocultural historical and medical look at infectious diseases and their place in human history from Neolithic times to the present Nearly 300 entries cover individual diseases such as HIV AIDS malaria Ebola and SARS major epidemics such as the Black Death 16th century syphilis cholera in the nineteenth century and the Spanish Flu of 1918 19 environmental factors such as ecology travel poverty wealth slavery and war and historical and cultural effects of disease such as the relationship of Romanticism to Tuberculosis the closing of London theaters during plague epidemics and the effect of venereal disease on social reform

Primary source sidebars over 70 illustrations a glossary and an extensive print and nonprint bibliography round out the work

Teaching Big History Richard B. Simon, Mojgan Behmand, Thomas Burke, 2015 Big History is a new field on a grand scale it tells the story of the universe over time through a diverse range of disciplines that spans cosmology physics chemistry astronomy geology evolutionary biology anthropology and archaeology thereby reconciling traditional human history with environmental geography and natural history Weaving the myriad threads of evidence based human knowledge into a master narrative that stretches from the beginning of the universe to the present the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them Teaching Big History is a powerful analytic and pedagogical resource and serves as a comprehensive guide for teaching Big History as well for sharing ideas about the subject and planning a curriculum around it Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History The book includes teaching materials examples and detailed sample exercises This book is also an engaging first hand account of how a group of professors built an entire Big History general education curriculum for first year students demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike
