Collecting and Conserving Net Art Annet Dekker, 2018-05-08 *Collecting and Conserving Net Art* explores the qualities and characteristics of net art and its influence on conservation practices By addressing and answering some of the challenges facing net art and providing an exploration of its intersection with conservation the book casts a new light on net art conservation curating and museum studies Viewing net art as a process rather than as a fixed object the book considers how this is influenced by and executed through other systems and users Arguing that these processes and networks are imbued with ambiguity the book suggests that this is strategically used to create suspense obfuscate existing systems and disrupt power structures The rapid obsolescence of hard and software the existence of many net artworks within restricted platforms and the fact that artworks often act as assemblages that change or mutate make net art a challenging case for conservation Taking the performative and interpretive roles conservators play into account the book demonstrates how practitioners can make more informed decisions when responding to critically analysing or working with net art particularly software based processes *Collecting and Conserving Net Art* is intended for researchers academics and postgraduate students especially those engaged in the study of museum studies conservation and heritage studies curatorial studies digital art and art history The book should also be interesting to professionals who are involved in the conservation and curation of digital arts performance media and software

*Would You Baptize an Extraterrestrial?* Guy Consolmagno, SJ, Paul Mueller, SJ, 2014-10-07 Witty and thought provoking two Vatican astronomers shed provocative light on some of the strange places where religion and science meet Imagine if a Martian showed up all big ears and big nose like a child's drawing and he asked to be baptized How would you react Pope Francis May 2014 Pope Francis posed that question without insisting on an answer to provoke deeper reflection about inclusiveness and diversity in the Church But it's not the first time that question has been asked Brother Guy Consolmagno and Father Paul Mueller hear questions like that all the time They're scientists at the Vatican Observatory the official astronomical research institute of the Catholic Church In *Would You Baptize an Extraterrestrial* they explore a variety of questions at the crossroads of faith and reason How do you reconcile the The Big Bang with Genesis Was the Star of Bethlehem just a pious religious story or an actual description of astronomical events What really went down between Galileo and the Catholic Church and why do the effects of that confrontation still reverberate to this day Will the Universe come to an end And could you really baptize an extraterrestrial With disarming humor Brother Guy and Father Paul explore these questions and more over the course of six days of dialogue *Would You Baptize an Extraterrestrial* will make you laugh make you think and make you reflect more deeply on science faith and the nature of the universe

**Boys will be Boys, and Other Myths** Will Moore, 2022-07-28 Throughout history we have exalted and theologised about men like Adam or David to the point where we have become oblivious to the fact that they are far from perfect role models for Christian manhood Failing to read scripture properly we have used it to shape a distorted understanding of masculinity Stretching from issues of violence emotional and sexual abuse the desire for power homophobia and the suppression of emotions Will Moore draws from scholarship personal stories and popular culture to offer an honest and accessible insight into the toxic myths which frame how we read scripture Only when we expose these myths he argues can we start to see the authentic men staring straight back at us from the pages of our bibles and be able to reshape the way in which we produce Christian men today tackling the violence that is being done by men to themselves and others *New Beginnings* Terry Dingle, 2019-04-26 Commander York was awry at her country home in Audrain Road Missouri Waiting on her faith she picked up the cello and started to play looking out at a bay window in the live room where Washington DC lies She thought about the accident that happened in USS Three Moon over Mars NCC 101 The Starbase United Earth fleet joined the United Star conference one year ago USS New York was around Earth **The Phantom Image** Patrick R. Crowley, 2019-12-10 Drawing from a rich corpus of art works including sarcophagi tomb paintings and floor mosaics Patrick R Crowley investigates how something as insubstantial as a ghost could be made visible through the material grit of stone and paint In this fresh and wide ranging study he uses the figure of the ghost to offer a new understanding of the status of the image in Roman art and visual culture Tracing the shifting practices and debates in antiquity about the nature of vision and representation Crowley shows how images of ghosts make visible structures of beholding and strategies of depiction Yet the figure of the ghost simultaneously contributes to a broader conceptual history that accounts for how modalities of belief emerged and developed in antiquity Neither illustrations of ancient beliefs in ghosts nor depictions of afterlife these images show us something about the visual event of seeing itself The Phantom Image offers essential insight into ancient art visual culture and the history of the image
