Diccionario comentado de términos financieros ingleses de uso frecuente en español Miguel Castelo Montero,2003 La internacionalización del mundo financiero es una realidad y la liberalización de los sistemas financieros han producido una mayor flexibilización de contratación en los mercados internacionales Este diccionario ofrece un compendio explicativo de la

extensa serie de términos de la lengua inglesa que se usan con frecuencia en español dentro del ámbito de la terminología de los mercados financieros. El autor ha tratado de aproximarse al tema desde una perspectiva real. Las voces y expresiones aquí registradas son conocidas y usadas regularmente por todos aquellos que de una manera directa o indirecta se mueven en el mundo económico y financiero. Resulta interesante el tratamiento lingüístico de la etimología más próxima que se da al término para conocer con mayor rigor y exactitud el por qué se usa y su vinculación con la jerga ya que recordemos la terminología financiera está basada la mayoría de las veces en el habla cotidiana. Esta obra puede ser útil para los filólogos traductores, economistas y abogados ya que los foros de la filología moderna han incorporado a sus planteamientos tradicionales los estudios que se ocupan del uso de los idiomas en contextos especializados. En este diccionario se recogen ejemplos reales tomados de la prensa económica española actual de las dos variedades más comunes del inglés británico y el americano, aunque más bien podríamos hablar de inglés internacional ya que la globalización de los mercados ha hecho que desaparezcan algunos rasgos diferenciales.

Feast Days Ian MacKenzie, 2018-03-13. Intelligent and deeply felt, *Feast Days* follows a young wife who relocates with her financier husband to São Paulo, a South American megacity that impresses and unsettles, conceals and erupts. Here in her new home she reckons with the twenty-first century as she encounters crime protests, refugees, gentrification and the collision of art and commerce while confronting the crisis slowly building inside her own marriage. In stylish prose and with piercing wit, Ian MacKenzie tells the story of Emma, a young woman who has moved from New York to Brazil just as massive demonstrations against the government are breaking out across the country amid growing economic inequality. Emma has come to Brazil for her husband's career with no job prospects of her own, a weak grasp of the language and a deep ambivalence about having a child. Her early days in São Paulo are listless but privileged; she dines at high-end restaurants, tutors wealthy Brazilians in English and observes the city she now calls home. But when Emma volunteers at a local church to assist refugees and grows more deeply connected to the people she meets in the course of her days, she finds herself unable to resist the tug of São Paulo's political and social unrest. As the country moves seemingly closer to a breaking point, so does Emma's marriage, as she and her husband can no longer ignore the silent tectonic shifts beneath the surface of their relationship. *Feast Days* is a sharply observed story of expatriate life as well as a meditation on the hidden costs of modern living and how easily our belief systems can collapse around us. Devastating, funny and wise, it's among the best novels I know about the fate of American innocence abroad.

Intercultural Negotiations Ian MacKenzie, 2013-12-16. Intercultural communication is a daily occurrence for most people as a result of transnational population flows and globalized media. The contributions to this volume propose reconceptualizations of orthodox accounts of intercultural communication based on supposed national cultural characteristics. They approach the

subject from a variety of angles including intercultural communication training the role of power in intercultural negotiations the linguistic situation in Europe and the conflict between nationalist and transnational discourses in literature The articles consider the need for a revision of the notions of culture and communication given multicultural and multilingual environments such as universities the use of English as a lingua franca in Europe how collaborative discourse can reshape power relations the importance of social intelligence in intercultural communication cultural and linguistic influences on conceptual metaphors and their translation and the way Irish and Galician women poets negotiate competing ideologies such as nationalism feminism Celticism and Catholicism This book was published as a special issue of the European Journal of English Studies *Canada and the Cost of World War II* Robert Broughton Bryce,2005 How Canada helped Britain finance the war effort **Financial English** Ian MacKenzie,2002 *Around the Sacred Fire* J. Treat,2016-04-30 Around the Sacred Fire is a compelling cultural history of intertribal activism centered on the Indian Ecumenical Conference an influential movement among native people in Canada and the U S during the Red Power era Founded in 1969 the Conference began as an attempt at organizing grassroots spiritual leaders who were concerned about the conflict between tribal and Christian traditions throughout Indian country By the mid seventies thousands of people were gathering each summer in the foothills of the Rockies where they participated in weeklong encampments promoting spiritual revitalization and religious self determination Most historical overviews of native affairs in the sixties and seventies emphasize the prominence of the American Indian Movement and the impact of highly publicized confrontations such as the Northwest Coast fish ins the Alcatraz occupation and events at Wounded Knee The Indian Ecumenical Conference played a central role in stimulating cultural revival among native people partly because Conference leaders strategized for social change in ways that differed from the militant groups Drawing on archival records published accounts oral histories and field research James Treat has written the first comprehensive study of this important but overlooked effort at postcolonial interreligious dialogue

Macdonald and novelist Thomas Raddall were all instrumental in forming tourism history. The authors argue that Longfellow's 1847 poem *Evangeline* on the brutal British expulsion of Acadians from Nova Scotia became a template a new kind of profit making history that exalted whiteness and excluded ethnic minorities women and working class movements. A remarkable look at the intersection of politics leisure and the presentation of public history *In the Province of History* is a revealing account of how a region has both used and distorted its own past.
