Farhad Khosrokhavar Radicalization Through Religion I:

From Multiculturalism to Democratic Discrimination Alberto Spektorowski, Daphna Elfersy, 2020-12-10 The effect of Islam on Western Europe has been profound Spektorowski and Elfersy argue that it has transformed European democratic values by inspiring an ultra liberalism that now faces an ultra conservative backlash Questions of what to do about Muslim immigration how to deal with burqas how to deal with gender politics have all been influenced by western democracies grappling with ideas of inclusion and most recently exclusion This book examines those forces and ultimately sees not an unbridgeable gap but a future in which Islam and European democracies are compatible rich and evolving **Der**

Übermuslim Fethi Benslama, 2017-03-01 Warum radikalisiert sich Jugendliche die weder aus besonders schwierigen Verhältnissen stammen noch als ungewöhnlich religiös bekannt waren innerhalb kürzester Zeit zu gewaltbereiten Islamisten und wollen fortan in Syrien oder hierzulande in den Dschihad ziehen Warum gelingt es islamischen Fundamentalisten weltweit so leicht moderate Muslime unter Druck zu setzen weil sie nicht islamisch genug seien Fethi Benslama der 15 Jahre in der Pariser Vorstadt mit radikalisierten Jugendlichen gearbeitet hat zeigt in seinem wegweisenden Essay dass weder theologische noch soziologische Erklärungsansätze ausreichen sondern psychologisch gefragt werden muss welchen seelischen Gewinn die Einzelnen aus der islamistischen Radikalisierung ziehen Nur wenn wir begreifen welcher bis zur Tötung von anderen und sich selbst treibende Genuss die Täter motiviert lassen sich Gegenmittel finden Benslama demonstriert eindrucksvoll die Aufklärungskraft der Psychoanalyse und zeigt wie sich in den muslimischen Gemeinschaften das Ideal des Übermuslims etablieren konnte dem man bis zur völligen Aufopferung nachzueifern muss Er zeigt aber auch warum die bloße Deradikalisierung die zugrunde liegenden Probleme nicht beseitigen wird und schlägt andere Lösungsansätze zur Überwindung des Übermuslims vor überraschenderweise gibt ihm dafür gerade der Blick auf den von vielen als gescheitert betrachteten Arabischen Frühling Anlass zu einer optimistischen Perspektive **Research in the Social Scientific Study of Religion,**

Countering Violent Extremism and Terrorism Stéfanie von Hlatky, 2020-02-20 Since 9 11 counterterrorism has become a national and international priority Research on violent extremism and terrorism from homegrown threats to foreign fighters has adapted accordingly but has not always translated into policymaking Extremism can be traced to no single cause and yet governments and law enforcement agencies continue to spend millions on prevention efforts Contributors to this book identify persistent challenges for counterterrorism and countering violent extremism and provide analysis from a variety of academic and professional perspectives Countering Violent Extremism and Terrorism cautions against adopting a causal model to understand violent extremism and takes a critical look at how states have managed to cope with the global phenomenon of terrorism By drawing on the expertise of researchers and practitioners from government law enforcement and the military

contributors identify past failures and offer guidance on how to correct these mistakes With the collective goal of developing more effective strategies the authors dispel common myths discard counterproductive tactics and point to countries in which policies have functioned as intended As some terrorist organizations influence wanes others innovate and thrive further challenging a state apparatus that is slow to adapt to these mutating threats An essential and timely book *Countering Violent Extremism and Terrorism* seeks to change how governments and policymakers consider and respond to security threats

The Inglorious Years Daniel Cohen, 2021-05-18 The book describes how today's postindustrial society is transforming us all into sequences of data that can be manipulated by algorithms from anywhere on the planet As yesterday's assembly line was replaced by working online the leftist protests of the 1960s have given way to angry protests by the populist right The author demonstrates how the digital economy creates the same mix of promises and disappointments as the old industrial order and how it revives questions about society that are as relevant to us today as they were to the ancients (II) *liberal*

Europe: Islamophobia, Modernity and Radicalization Natalie Doyle, Irfan Ahmad, 2019-05-16 Europe sees itself as embodying the ideals of modernity especially in relation to democracy and the respect for human rights Faced on the one hand with the need for public recognition of a new population of Muslim identity and the threat of violent radicalization on the other Europe is falling prey to the politics of fear and is tempted to compromise on its professed ideals Reflecting on the manifestations and causes of the contemporary fear of Islam gaining ground in contemporary Europe as well as on the factors contributing to the radicalization of some Muslims *liberal Europe Islamophobia Modernity and Radicalization* offers a diversity of perspectives on both the challenges to social cohesion and the danger of Islamophobia encouraging a spiral of co radicalization Combining empirical studies of several European countries with a comparative account of India and Europe the book analyzes vital issues such as secularity homophobia de politicization neo nationalism the European unification project and more Spanning a variety of disciplinary approaches the volume offers novel insights into the complex landscape of identity politics in contemporary Europe to widen the scope of intellectual inquiry This book was originally published as a special issue of *Politics Religion Ideology* [Islamist Radicalisation in Europe](#) Daniela Pisoiu, 2012-01-25 This book examines the Islamist radicalisation process in Europe developing a new theoretical model based on an empirical study of the evolution of Islamist radicals in their social environment The approach of this book is to examine how and under what conditions people choose to radicalise It focuses on the experience of radicalisation from the perspective of those who have undergone it The study is based on trial and court material along with an extensive number of interviews collected from many different European countries and this biographical approach is used to address individuals and the details of their social environment Overall the explanatory framework departs from the existing deterministic paradigm with grievances as causes also present in some psychological models and argues that radicalisation is a process much like occupational choice a rational choice made with social and ideational significance It addresses critically the assumption that because the result of the

radicalisation process could be seen as abnormal the cause of it might be of a similar nature Parallels are drawn with other forms of extremism and European counter radicalisation policies are considered critically This book will be of great interest to students of terrorism studies and political violence political Islam social movements European politics and IR security studies in general

Perspectives on Countering Extremism Shashi Jayakumar, 2023-02-09 The study of violent extremism has seen a great deal of academic and practitioner focus on the processes of radicalization and strategies to counter and de radicalize extremists Comparatively little has been written on the subject of Diversion early upstream interventions aimed at deflecting individuals from a pathway of radicalization This volume addresses this gap in scholarship by analyzing the strategies being deployed worldwide aimed at diverting or deflecting individuals and communities from the path of radicalization Disengagement which is often necessary when one has already progressed past the at risk stage is also addressed given that social workers counselors and other practitioners do not necessarily find the distinction between the two a critical issue in practice What matters is which upstream approaches work and what shows promise amongst individuals and communities Case studies range across the Global North and South presented by both academics and practitioners Contributions address approaches that have proven useful strategies which should be given deeper scrutiny before being employed and what should be avoided

Islam and the Governing of Muslims in France Frank Peter, 2021-01-28 Will Islam be able to adapt to France s secularity and its strict separation of public and private spheres Can France accommodate Muslims In this book Frank Peter argues that the debate about Islam and Muslims is not simply caused by ignorance or Islamophobia Rather it is an integral part of how secularism is reasoned Islam and the Governing of Muslims in France shows that understanding religion as separate from other aspects of life such as politics economy and culture disregards the ways religion has operated and been managed in secular societies such as France This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to govern Islam in order to examine how Muslims engage with the secular regime and contribute to its transformation This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present It will influence the study of secularism as well as the study of Islam in the French Republic and reveal new connections between Islamic traditions and secular rationalities
