future under significant fiscal stress any new transit funding mechanism is to be welcomed Value capture VC is one such mechanism which involves the identification and capture of a public infrastructure led increase in property value This book reviews four major VC mechanisms joint development projects special assessment districts impact fees and tax increment financing all of which are used to fund transit in the United States Through the study of prominent examples of these VC mechanisms from across the US this book evaluates their performance focusing on aspects such as equity revenue generating potential stakeholder support and the legal and policy environment It also conducts a comparative assessment of VC mechanisms to help policy makers and practitioners to choose one or a combination of VC mechanisms Although the book focuses on the US the use of the VC mechanisms and the urgent need for additional revenue to fund public transportation are world wide concerns Therefore an overview of the VC mechanisms in use internationally is also provided

Civil Society and Financial Regulation Lisa Kastner, 2017-10-12 Coalitions of consumer groups NGOs and trade unions have traditionally been considered politically weak compared to well organized and resourceful financial sector groups which dominate or capture financial regulatory decisions However following the 2008 financial crisis civil society groups have been seen to exert much more influence with politicians successfully implementing financial reform in spite of industry opposition Drawing on literature from social movement research and regulatory politics this book shows how diffuse interests were represented in financial regulatory overhauls in both the United States US and the European Union EU Four cases of reform in the post crisis regulatory context are analyzed the creation of a new Consumer Financial Protection Bureau in the US the introduction of new consumer protection regulations through EU directives the failure of attempts to introduce a financial transaction tax in the US and the agreement of 11 EU member states to introduce such a tax It shows how building coalitions with important elite allies outside and inside government helped traditionally weak interest groups transcend a lack of material resources to influence and shape regulatory policy By engaging with a less well known side of the debate it explains how business power was curbed and diverse interests translated into financial regulatory policy

Encyclopedia of Survey Research Methods Paul J. Lavrakas, 2008-09-12 In conjunction with top survey researchers around the world and with Nielsen Media Research serving as the corporate sponsor the Encyclopedia of Survey Research Methods presents state of the art information and methodological examples from the field of survey research Although there are other how to guides and references texts on survey research none is as comprehensive as this Encyclopedia and none presents the material in such a focused and approachable manner With more than 600 entries this resource uses a Total Survey Error perspective that considers all aspects of possible survey error from a cost benefit standpoint      **The Cashless Revolution** Martin Chorzempa, 2022-10-04 Financial Times Best Books of 2022 Economics The startling picture of how China's revolution in finance and technology is changing both Wall Street and the way individuals manage their personal finances The future of finance the way Wall Street operates and how individuals manage their money is on the verge of upheaval And the force underlying the change comes from China where finance and technology are being merged into a system with consequences that resonate far beyond China's border The changes of this global revolution in finance and technology fintech will be as powerful as those wrought in social media retailing and advertising by giants such as Amazon Facebook Google and Twitter which have overturned how we shop and communicate China reinvented money with lightning speed transforming a backward antiquated cash based finance system into one centered on super apps created by technology giants Alibaba and Tencent More powerful than anything available outside of China they allow their billion users to pay

borrow invest buy goods and services travel chat and far more all fused together in one mobile phone application Think Facebook Google Twitter Goldman Sachs Amazon J P Morgan Chase all rolled into one app We in the West need to understand China's cashless revolution for reasons ranging from the macroeconomic to issues of personal liberty The cutting edge of finance is now in China forcing major financial firms in the United States and the West to figure out how not to be left behind China's cashless revolution is also a harbinger of our future if we let the genie out of the bottle and allow big tech to become big finance As money goes digital and central banks around the world consider launching digital currencies we may have both immense convenience and a frightening concentration of power that could violate our privacy stifle competition increase financial risk and give big firms or the government more control over our financial lives And once this genie is out of the bottle the struggle to put it back in may be impossible
