

The background of the book cover is a vibrant, abstract illustration. It features a series of colorful, elongated shapes in shades of red, orange, yellow, and green, which resemble the hulls of kayakers or perhaps stylized flames. These shapes are set against a dark, textured background that looks like water or a night sky. The overall effect is dynamic and energetic.

Artificial Intelligence in Accounting Cory Ng, John Alarcon, 2020-12-08 Artificial Intelligence in Accounting Practical Applications was written with a simple goal to provide accountants with a foundational understanding of AI and its many business and accounting applications. It is meant to serve as a guide for identifying opportunities to implement AI initiatives to increase productivity and profitability. This book will help you answer questions about what AI is and how it is used in the accounting profession today. Offering practical guidance that you can leverage for your organization, this book provides an overview of essential AI concepts and technologies that accountants should know, such as machine learning, deep learning, and natural language processing. It also describes accounting-specific applications of robotic process automation and text mining. Illustrated with case studies and interviews with representatives from global professional services firms, this concise volume makes a significant contribution to examining the intersection of AI and the accounting profession. This innovative book also explores the challenges and ethical considerations of AI. It will be of great interest to accounting practitioners, researchers, educators, and students.

Principles of Management Peter Eichhorn, Ian Towers, 2018-01-10 This textbook presents an overview of how the activities of an organisation can be managed to satisfy the needs of stakeholders through the cost-effective, operationally efficient, and sustainable transformation of resources into outputs. Taking an interdisciplinary approach, the authors show the relationship between management and economics and within this framework present the key areas of management activity. The book explains the connections between these areas and provides tools and instruments for successful management. The book's approach and content is relevant for all kinds of organisation: private or public sector, service or manufacturing, non-profit, large or small. Each chapter provides cases to illustrate what has been discussed and some questions to test comprehension. Throughout the book is a continuing project in which the reader is put in the position of owning their own business and must think and make decisions about what the chapter has discussed. The book combines Anglo-American and German approaches to management and management studies, making it a valuable resource both for those who are studying management and
