Minos and the Moderns Theodore Ziolkowski, 2008-07-17
Minos and the Moderns considers three mythological complexes that enjoyed a unique surge of interest in early twentieth century European art and literature Europa and the bull the minotaur and the labyrinth and Daedalus and Icarus All three are situated on the island of Crete and are linked by the figure of King Minos Drawing examples from fiction poetry drama painting sculpture opera and ballet Minos and the Moderns is the first book of its kind to treat the role of the Cretan myths in the modern imagination Beginning with the resurgence of Crete in the modern consciousness in 1900 following the excavations of Sir Arthur Evans Theodore Ziolkowski shows how the tale of Europa in poetry drama and art but also in cartoons advertising and currency was initially seized upon as a story of sexual awakening then as a vehicle for social and political satire and finally as a symbol of European unity In contrast the minotaur provided artists ranging from Picasso to Drenmatt with an image of the artist's sense of alienation while the labyrinth suggested to many writers the threatening sociopolitical world of the twentieth century Ziolkowski also considers the roles of such modern figures as Marx Nietzsche and Freud of travelers to Greece and Crete from Isadora Duncan to Henry Miller and of the theorists and writers including T S Eliot and Thomas Mann who hailed the use of myth in modern literature Minos and the Moderns concludes with a summary of the manners in which the economic aesthetic psychological and anthropological revisions enabled precisely these myths to be taken up as a mirror of modern consciousness The book will appeal to all readers interested in the classical tradition and its continuing relevance and especially to scholars of Classics and modern literatures

Owen,2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification *Literaturstreit* The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989 Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes motifs and techniques The volume strikes a balance between giving a general overview of poetry written in 1989 1996 and focusing on individual poets whose work is particularly compelling After identifying broad trends across a wide range of individual poems collections and anthologies single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein The concluding chapter addresses the issue of a separate GDR literature Finally an extensive structured bibliography is provided covering the poetry literary criticism and cultural history of the period *Greek and Roman Mythology, A to Z* Kathleen N.
