

FIRST THINGS FIRST

To Live, to Love, to Learn, to Leave a Legacy

STEPHEN R. COVEY, A. ROGER & REBECCA MERRILL

MAIN IDEA

Putting first things first is a new approach to time management.

The new system focuses on doing what is important rather than what is urgent. It stresses effectiveness rather than simple efficiency as the key to using time management systems to improve the quality of life. In turn, true effectiveness is based on a principle-centred approach - that is, on principles which have been revered throughout history and which have been shown to enhance the quality of a person's life over the experience of many years and many generations.

Putting first things first is not a quick-fix shortcut to business success. Rather, it stresses living a meaningful life rather than a purely efficient life. It is based on the premise that the deepest motivations felt by every person are to live, to love, to learn, and then to leave a legacy for future generations. The key lies in escaping the tyranny of the clock and following your internal compass.

1. THE CLOCK AND THE COMPASS

Time management systems have typically worked on the principle of increasing efficiency - that is, of increasing the amount of tasks that are accomplished each day. However, for most people, being able to do more in the same time is not the major concern. The real issue is doing the right things - tasks that will add value to the quality-of-life.

Therefore, a new time management system is needed which not only aligns with the clock (efficiency) but also aligns with the compass of effectiveness. That is, a new system is required which allows people to spend more of their time efficiently doing those things that will add to the quality of their lives.

By closing the gap between the way people spend their time and what is most deeply important to them, quality of life can be greatly improved and enhanced.

2. THE MAIN THING IS TO SHIFT THE FOCUS FROM "URGENCY" TO "IMPORTANCE"

Spend 30 minutes a week aligning the clock with your own personal compass.

In other words, have a regular weekly planning session in which you plan ahead the activities of the coming week. This simple process will ensure the things which you consider to be most important are not lost in the daily hustle-bustle of accomplishing the activities which are urgent.

The weekly planning session should follow this sequence:

3. THE SYNERGY OF INTERDEPENDENCE

The real advantage of the 4th generation time management system is that it provides a way for any organization to make a transition from typical to high-performance through the establishment of interdependent business associations.

The concept of interdependency is unique to the 4th generation time management system. It proposes that communicating and dealing with other people is at the very core of effective time management, and that by taking into account the uniqueness and capacity of every individual, an organization can move ahead more effectively than individuals could ever do on their own.

Interdependence applies not only to unifying the efforts of everyone within the organization, but also to the creation of beneficial strategic alliances between one organization and another.

	Urgent	Non Urgent
Important		X
Not Important		

4. PRINCIPLE-CENTRED LIVING

When you have aligned your time management system with the correct principles, the quality-of-life you can enjoy while working towards your ultimate destination is very high. In fact, the journey and the destination become one and the same.

Everyday Theology (Cultural Exegesis) Kevin J. Vanhoozer, Charles A. Anderson, Michael J. Sleasman, 2007-03-01
Everyday theology is the reflective and practical task of living each day as faithful disciples of Jesus Christ. In other words, theology is not just for Sundays and it's not just for professional theologians. Everyday Theology teaches all Christians how to get the theological lay of the land. It enables them to become more conscious of the culture they inhabit every day so that they can understand how it affects them and how they can affect it. If theology is the ministry of the Word to the world, everyday theologians need to know something about that world. And Everyday Theology shows them how to understand their culture, make an impact on it. Engaging and full of fresh young voices, this book is the first in the new Cultural Exegesis series.

Your Life in Rhythm Bruce B. Miller, 2011-01-20
Your Life in Rhythm offers a realistic solution to our crazy, overly busy, stressed lives. Miller exposes the myth of living a balanced life and offers rhythmic living as a new paradigm for relieving guilt and stress while accomplishing more of what matters most in life. Rhythmic living details six practical strategies for living a more fulfilling life. Instead of managing time, Miller suggests that we flow with life, living in tune with the natural rhythms of nature. By applying the rhythm strategies, we can reduce stress, frustration and guilt while increasing fulfillment and inner peace. The point is not to balance all of our responsibilities at one time but to focus attention on what matters most at different times. Although this sounds easy enough, the six strategies he outlines are crucial to helping the reader to achieve this goal. Miller helps us to understand the stages and seasons of life we all experience over a lifetime. This new understanding, when applied, will solve time management problems and help readers to let go of misplaced priorities and relieve their overbooked lifestyle. The rhythm solution, in short, brings freedom. In a nutshell, it helps readers think through their overbooked lifestyle. Presents a new way of thinking about life management. Helps readers to let go of misplaced priorities. Helps readers understand the seasons of life and adjust their expectations. Presents rhythm solution process for common time management issues.
