Forex Trading Strategies Logan Trade,2020 Do you know what Forex Trading is Do you want to learn how to earn money with Forex Trading If yes then keep reading Foreign exchange most commonly known as Forex refers to the buying and selling of currencies to make a profit off the fluctuations in their value Forex can also be simply described as the process of exchanging currencies There are many reasons as to why you would exchange your currency for another It may be for commercial reasons trading reasons or tourism purposes However the main reason why currencies are exchanged is to make a profit out of it As different currencies get converted every day some currencies experience price movements in an extremely volatile manner While this volatility increases the risks of conducting forex trade traders are highly attracted to it as it also brings about a greater chance of earning high profits Forex is unique because it has no central marketplace where the exchange takes place There is not one centralized exchange center but rather the trade is conducted in an electronic manner over the counter OTC This means that all forex transactions are carried out through computer networks and electronic trading platforms interconnecting all forex traders around the world The forex market actively operates 24 hours a day 365 days a year Currencies in foreign exchange are traded across all the time zones in the major financial centers in the world Such a trading system means that when the trading day in the US ends a forex trader based in the US can begin a new trading day on the Hong Kong or Tokyo market for example This is what causes the price quotes of the forex market to change constantly In some way Forex Trading Strategies are similar to those adopted by traders on the stock market A trader will have to critically think about where the value of a given currency stands and where it is heading to The biggest difference however lies in the fact that with Forex it is very easy to trade down or up For instance if you think that the value of a currency will increase you proceed to buy it On the other hand if you feel that it will depreciate you will sell it Today's globalized market is vast making it easy to find a buyer or a seller Are you interested This book will help you understand the following topics What is Forex trading Who can trade on the Forex market Different existing trading styles What is Fundamental Analysis What is Technical Analysis And much more Are you curious and eager to start What are you waiting for Buy the book now and start learning all about FOREX TRADING **Forex Trading for Beginners** Matthew Aziz,2021-02-12 Get this book with 55% discount LAST DAYS Discover how you can generate passive income and make
