Forex Trading Jim Brown, 2015-09-15 Jim's FOREX books are consistently ranked BEST SELLERS on Amazon and there is a very good reason for this. At no extra cost or on costs Jim shares with his readers His custom indicators for the MT4 MetaTrader platform as a download at the end of the book AND anyone who has received these indicators will also receive the MT5 version of his files when they have been programmed. An invitation to join his Facebook Group which has new as well as experienced Forex Traders contributing. Daily interaction in his Facebook Group. He calls his trades live shares his results AND records a weekly trade analysis video. His contact details if you require further clarification. Jim from Queensland Australia is a full time Forex Trader currently residing in Vietnam. His knowledge of currency trading extends over a 14 year period and has evolved from the old fashioned manual charting when he first started in 2002 to trading on multiple screens and entering the arena of automated trading. During this time he has developed and shared many trading systems for free and assisted many new traders through various blogs and forum participation. This book is for those of you who are just starting to consider trading Forex but don't know where to start given the abundance of information on the internet. It is a good first book to read to gain an understanding of the very basics. As an added Bonus Jim offers one of his Trading Systems as well as the indicators without any further on costs. Check out his YouTube vids chat with him on Facebook he's an approachable guy who is passionate about trading. Here Is an outline of what is included: What is Forex Advantages of Trading Forex When the Forex market is open Forex pairs Where we trade Forex Choosing a Broker Important information for US based traders Lot size and equivalent pip value Information on risk News and fundamental analysis Technical analysis Risk reward ratio Types of orders How many pips is enough Trading psychology Day trading or longer term trading Keeping a journal or diary Jim's other books MT4 High Probability Forex Trading Method Trading Forex with Divergence on MT4 What people are saying I was a bit skeptical prior to ordering this as it is only 72 pages in length. However the author covered concepts and principles in very direct and easy to understand manner. I have read other authors that would have no doubt used three times the verbiage and none of the clarity possessed by Jim Brown. All in all I am very pleased with my purchase. Darrell R Allen Buy Forex for Dummies or something similar for a detailed background of Forex then buy this book. It is well written and to the point. I recently paid 40 for a system which did not do much but generate daily emails promoting many more expensive systems. Jim's free system is easy to implement and follow and it works. Also there is no upselling. I felt that he wants people to succeed. I also bought his other book which includes another free system. Both will be valuable to new Forex traders like myself. Terrence E Winnie This book using an easy language explains all things needed to start trading Forex. The included bonus system is also very easy to understand. The system gave me for example 125 pips trading EURUSD on 16 th June. Amazon Customer *Forex Trading - The Basics Explained in Simple Terms* Jim Brown, 2016-05-19 My knowledge of

**The Basics of The Forex Markets** Steven Drummond, 2015-04-11 The basics of the Forex markets e book video tutorials and website content was put together by myself to teach regular people how to trade the markets I am not a banker I am not an x Wall street guy and I have never traded in large institutions with thousands to spend on their training programmes I am just like you I used to be an employee working as a chef for 17 years covering 60 70 hours a week split shifts weekends and all of the holidays I stumbled across Forex trading and knew that is my way out It was not easy It took me over a year before I got any real education on Forex it looked so easy at the start But once I had blown 2 accounts by this point it was time to get educated or quit I didn't want to quit because I saw the opportunity Forex trading can offer so I persevered and never stopped learning to this day I make it my mission to always educate myself further every day I will learn something new and it is not just about Forex I learn about business real estate investing and sales marketing You should make that one of your missions to always educate yourself it is the only way to get on in life Anyway it took me a while to realise that the markets are a little bit harder to read than initially perceived with all of the news events manipulation and uncertainty It took many more months of learning and practice to become consistent in my trading but persevere and you can get there So if you are like me like many others out there trying to learn on their own I have been there I have struggled on dealt with all of the emotions of being a retail trader no boss to give you a hard time if your trading performance does not meet up with the institutions demands You have to learn to be your own boss research your trading performance kick your butt if you deviate from the plan and push yourself to the next level I am self taught and you are going to do the same so why not learn from somebody that has walked down the road you are about to embark on but I'll help you shorten your learning curve We all know what opportunities Forex trading can bring every benefit is unique to you It is up to you how these rewards will manifest into your life you must put in some effort to see any rewards Success is the pay off in exchange for the amount of time and effort devoted to a task it is said that you will need to devote 10 000 hours of practice before becoming a master of your endeavor I remember my first Forex training course it was 900 and it only covered the basics it was O K at the time but there was so much more I had to learn I later subscribed with another guy for 650 one off fee and a recurring 90 monthly subscription charge to trade with him twice a week I did this for one and a half years That is my two main ones but I have done a trading psychology course and many many more Looking back thinking that the amount of money I have actually paid for fragments of information is kind of sickening I am a firm believer of that you should pay for your education and pay well when you can because you have to be cautious about the free information out there but we want information for a reasonable price have it all in one place and have life time updates on new trading techniques So this is

what I propose Learn from somebody that came from the bottom and had nobody to help but his eagerness and drive If you become one of my loyal members I will teach you about the basics of the Forex markets with lifetime updates This is my website Forex trading and teaching is my life In exchange for a small one off fee for the time and effort devoted to building the tactical trader boot camp website I will devote to giving you everything you need to know getting started in Forex trading it will give you the insights into Forex trading I won t teach you every single thing I do not use every single indicator I will not explain every single indicator trading patterns or trading algorithms I will simply teach you what you need to know and give you the tools you need to become your own success story I cut out all of the fluff no B S and as long as you can put up with my Scottish accent I think we will be just fine So become a member of the boot camp and start learning today *Forex Trading Strategies* Logan Trade,2020 Do you know what Forex Trading is Do you want to learn how to earn money with Forex Trading If yes then keep reading Foreign exchange most commonly known as Forex refers to the buying and selling of currencies to make a profit off the fluctuations in their value Forex can also be simply described as the process of exchanging currencies There are many reasons as to why you would exchange your currency for another It may be for commercial reasons trading reasons or tourism purposes However the main reason why currencies are exchanged is to make a profit out of it As different currencies get converted every day some currencies experience price movements in an extremely volatile manner While this volatility increases the risks of conducting forex trade traders are highly attracted to it as it also brings about a greater chance of earning high profits Forex is unique because it has no central marketplace where the exchange takes place There is not one centralized exchange center but rather the trade is conducted in an electronic manner over the counter OTC This means that all forex transactions are carried out through computer networks and electronic trading platforms interconnecting all forex traders around the world The forex market actively operates 24 hours a day 365 days a year Currencies in foreign exchange are traded across all the time zones in the major financial centers in the world Such a trading system means that when the trading day in the US ends a forex trader based in the US can begin a new trading day on the Hong Kong or Tokyo market for example This is what causes the price quotes of the forex market to change constantly In some way Forex Trading Strategies are similar to those adopted by traders on the stock market A trader will have to critically think about where the value of a given currency stands and where it is heading to The biggest difference however lies in the fact that with Forex it is very easy to trade down or up For instance if you think that the value of a currency will increase you proceed to buy it On the other hand if you feel that it will depreciate you will sell it Today s globalized market is vast making it easy to find a buyer or a seller Are you interested This book will help you understand the following topics What is Forex trading Who can trade on the Forex market Different existing trading styles What is Fundamental Analysis What is Technical Analysis And much more Are you curious and eager to start What are you waiting for Buy the book now and start learning all about FOREX TRADING [Forex Trading Book for Beginners;forex Basics Explained in Simple Terms](#) Michael S
