Proceedings of the 2025 5th International Conference on Enterprise Management and Economic Development (ICEMED 2025) Prasad Siba Borah, Norhayati Zakuan, Nazimah Hussin, Azlina Binti Md Yassin, 2025-08-14. This is an open access book. 2025 5th International Conference on Enterprise Management and Economic Development ICEMED 2025 will be held in Dali, China from May 30 to June 1, 2025. Enterprise management is the general term for a series of functions such as organizing, planning, commanding, supervising, and regulating the production and operation activities of enterprises. Relative to economic growth, economic development is the core concept of development economics. Economic development refers to the high quality development of the economy, including quality and quantity, rather than merely the growth of quantity. Enterprise management covers economics, management, business management, financial management, human resource management, and other aspects and is a comprehensive interdisciplinary science that spans natural science, engineering science, technical science, and humanities and social science. Enterprise management comes into being with the development of modern socialized mass production. The use of modern management means and methods to manage enterprises ensures the survival and development of enterprises and plays a positive role in promoting economic development. ICEMED 2025 will bring together experts and scholars from relevant fields to discuss the relationship between enterprise management and economic development. Reasonable enterprise management is an important way to promote the economic development of enterprises. Scientific and reasonable use of industrial and commercial enterprise management knowledge can reasonably carry out effective macro control on the enterprise economy and ensure the stable progress and development of the enterprise economy.
