reporting and regulation is a vast subject area of huge global importance with interest rising significantly in the light of the ongoing global financial crisis. The authors begin with a broad overview of the subject of accounting setting the stage for a discussion on the theoretical and practical issues and debates regarding financial reporting which are expanded on in the second part of the book. This includes how to define the reporting entity, recognition and measurement of the elements of financial statements, fair values in financial reporting and the costs and benefits of disclosure. The third part assesses the interest, need and theories behind the accounting reporting and regulation industry while parts four and five look at the institutional, social and economic aspects with issues such as accounting for environmental management and accounting regulation and financial reporting in Islamic countries, both issues of ever increasing importance. This authoritative Companion presents a broad overview of the state of these disciplines today and will provide a comprehensive reference source for students and academics involved in accounting regulation and reporting.

Kultur und Sprache im Geschäftsbericht Robert Reck, 2015-12-24 Robert Reck untersucht kulturbedingte Unterschiede im Gebrauch von Englisch als lingua franca des Geschäftsberichts und beschreibt die Grundlagen der kulturellen Prägung verbaler Accounting-Informationen. Er arbeitet die intellektuellen Stile als sprachprägende Determinanten heraus und zeigt explorativ anhand eines internationalen Datensatzes, dass sprachliche Unterschiede sowohl in Komplexität als auch im Gebrauch bestimmter Wortarten nachweisbar sind. Sprachliche Differenzen zwischen IFRS und US GAAP-Berichten werden eruiert. Anhand einer Übersetzungsstudie mit dem Untersuchungsgegenstand Risikobericht und Anhang weist der Autor nach, dass muttersprachliche Charakteristika auf die englische Übersetzung tradiert werden können.
