First Nations In The Twenty First Century:

Twenty-First Century Perspectives on Indigenous Studies Birgit Däwes, Karsten Fitz, Sabine N. Meyer, 2015-04-24 In recent years the interdisciplinary fields of Native North American and Indigenous Studies have reflected at times even foreshadowed and initiated many of the influential theoretical discussions in the humanities after the transnational turn. Global trends of identity politics, performativity, cultural performance and ethics, comparative and revisionist historiography, ecological responsibility and education as well as issues of social justice have shaped and been shaped by discussions in Native American and Indigenous Studies. This volume brings together distinguished perspectives on these topics by the Native scholars and writers Gerald Vizenor, Anishinaabe Diane Glancy, Cherokee and Tomson Highway, Cree as well as non-Native authorities such as Chadwick Allen, Hartmut Lutz and Helmbrecht Breinig. Contributions look at various moments in the cultural history of Native North America from earthmounds via the Catholic appropriation of a Mohawk saint to the debates about Makah whaling rights as well as at a diverse spectrum of literary performative and visual works of art by John Ross, John Ridge, Elias Boudinot, Emily Pauline Johnson, Leslie Marmon Silko, Emma Lee Warrior, Louise Erdrich, N. Scott Momaday, Stephen Graham Jones and Gerald Vizenor among others. In doing so the selected contributions identify new and recurrent methodological challenges, outline future paths for scholarly inquiry and explore the intersections between Indigenous Studies and contemporary Literary and Cultural Studies at large. **Firekeepers of the Twenty-First Century** Cora Voyageur, 2008-03-28 A quiet revolution is occurring in Canada's First Nations communities with changes taking place on social, political and economic fronts and a significant redistribution of power. Changes to the Indian Act in 1951 paved the way for women to become officially involved in reserve politics and with governments responding to the demand of First Nations for self-government positions once held exclusively by men are now being filled by women. **International Theatre Festivals and Twenty-First-Century Interculturalism** Ric Knowles, 2021-12-16 Ric Knowles' study is a politically urgent, erudite intervention into the ecology of theatre and performance festivals in an international context. Since the 1990s there has been an exponential increase in the number and type of festivals taking place around the world. Events that used merely to be events are now festivalized, structured, marketed and promoted in ways that stress urban centres as tourist destinations and creative cities as targets of corporate enterprise. Ric Knowles examines the structure, content and impact of international festivals that draw upon and represent multiple cultures and the roles they play in one of the most urgent processes of our times: intercultural negotiation and exchange. Covering a vast geographical sweep and exploring festival models both new and ancient, the work sets compelling new standards of practice for post-pandemic festivals. **Australian Politics in the Twenty-First Century** Stewart Jackson, Joff Lelliott, Shannon Brincat, Josephine Bourne, Nick Economou, 2022-09-02 The global political environment in the twenty-first century is proving dynamic and challenging for Australian policymakers and political institutions. *Australian Politics in the Twenty-first Century* contextualises the Australian

political landscape through an institutional lens It examines the legislative and judicial bodies minor parties lobby groups the media and the citizenry providing historical and contemporary facts explaining political issues and examining new challenges The second edition has been updated to reflect the application of political theories in today s civic environment New spotlight boxes highlight issues including marriage equality COVID 19 and federalism the inclusion of First Nations peoples in the political system and gender equality in public policy Short answer reflection research and discussion questions encourage students to test and extend their knowledge of each topic and to clearly link theory to practice Written in an accessible and engaging style Australian Politics in the Twenty First Century is an invaluable introduction to the Australian political system

Friesen, 2021-03-03 Confederation may have established Canada s nationhood in 1867 but the relationships framing Canada s modern existence go back much further Employing a unique socio historical perspective Canadian Society in the Twenty First Century examines three formative relationships that have shaped the country Canada and Quebec Canada and the United States and Canada and Indigenous nations Now in its fourth edition this engaging text offers students an overview of Canadian society through a series of connections rather than a collection of statistics Trevor W Harrison and John W Friesen weave together complex aspects of the nation s economic political and socio cultural development They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades Reflecting the most current scholarship in the field this revised edition features new discussions on issues such as the current crisis of neo liberal globalization Canada s petroleum industry global warming the Wet suwet en dispute in 2020 and the COVID 19 pandemic Exploring the unique character of Canada today this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history

The Militarisation of Peacekeeping in the Twenty-First Century James Sloan, 2011-11-01 Since the end of the last century UN peacekeeping has undergone a fundamental and largely unexamined change Peacekeeping operations long expected to use force only in self defence and to act impartially are now increasingly relied upon by the Security Council as a means to maintain and restore security within a country The operations are established under Chapter VII of the UN Charter and some are empowered to use all necessary measures language traditionally reserved for enforcement operations Through a close examination of these twenty first century peacekeeping operations including operations in Sierra Leone the Democratic Republic of the Congo Liberia Cote d'Ivoire Haiti and the Darfur region of the Sudan the book shows that they are for the most part fundamentally ill suited to the enforcement type tasks being asked of them The operations which are under funded under equipped and whose troops are under trained frequently lurch from crisis to crisis There is scant evidence some 10 years on that matters are likely to improve The book argues that bestowing enforcement type functions on a peacekeeping operation is misconceived Such operations are likely to be unsuccessful in their enforcement type tasks thereby causing serious damage to the excellent reputation of UN peacekeeping and the UN more broadly In addition because such operations are more likely to be perceived as partial their ability to carry out traditional non forceful

peacekeeping tasks may be impeded Finally the Security Council's practice of charging peacekeeping operations with enforcement functions lessens the pressure on the Council to work to establish genuine enforcement operations ie operations that are considerably better suited to restoring peace and security Dr Sloan is able to show in knowledgeable detail not only what has changed over the years but also what has brought these changes about His analysis leads him to offer not only well informed insights but critical observations too This book is a pleasing combination of detailed scrutiny of topics already familiar provisional measures consent so called Chapter VI 2 action implied powers and a rigorous questioning as to their place in or indeed relevance at all to militarised peacekeeping The reader will find much new terrain traversed and plenty of out of the box thinking From the foreword by Dame Rosalyn Higgins

We Were Not The Savages, First Nations History, 4th ed. Daniel N. Paul, 2022-09-30T00:00:00Z The title of this book We Were Not the Savages speaks to the truth of what happened when Europeans invaded Mi kmaw lands in the 17th century Prior to the European invasion the

Mi kmaq lived healthy lives and for thousands of years had lived in harmony with nature in the land they called Mi kma ki. This book sets the record straight. When the Europeans arrived they were welcomed and sustained by the Mi kmaq. Over the next three centuries their language, their culture, their way of life were systematically ravaged by the newcomers to whom they had extended human kindness. The murderous savagery of British scalp proclamations, starvation, malnutrition, and Canada's Indian residential and day schools all but wiped out the Mi kmaq. Yet the Mi kmaq survived and today stand defending the land, the water, and nature's bounty from the European way of life which threatens the natural world we live in and need to survive. Since the first edition was published in 1993, Daniel Paul's ongoing research confronts the mainstream record of Canadian settler colonialism and reveals that the mistreatment of Indigenous Peoples is not confined to the past. In this 4th edition, the author shares his research which catalogues not only the historical tragedy but the ongoing attempts to silence the Mi kmaq and other Indigenous Peoples. Paul's work continues to give the Mi kmaq a voice that must be heard.

Manitou and God R. Murray Thomas, 2007-10-30. Manitou and God describes American Indian religions as they compare with principal features of Christian doctrine and practice. Thomas traces the development of sociopolitical and religious relations between American Indians and the European immigrants who over the centuries spread across the continent, captured Indian lands, and decimated Indian culture in general and religion in particular. He identifies the modern day status of American Indians and their religions, including the progress Indians have made toward improving their political power, socioeconomic condition, and cultural/religious recovery, and the difficulties they continue to face in their attempts to better their lot. Readers will gain a better sense of the give and take between these two cultures and the influence each has had on the other. In Algonquin Indian lore, Manitou is a supernatural power that permeates the world, a power that can assume the form of a deity referred to as The Great Manitou or The Great Spirit, creator of all things and giver of life. In that sense, Manitou can be considered the counterpart of the Christian God. From early times, the belief in Manitou extended from the Algonquins in Eastern Canada to other tribal nations, the Odawa, Ojibwa, Oglala, and even the Cheyenne in the Western plains. As European settlers made their way across the land, the confrontation between Christianity and Native American religions revealed itself in various ways. That confrontation continues to this day.

Imperial Sexism Denise M. Walsh, Associate Professor of Politics, 2025-10-03. In Imperial Sexism, Denise M. Walsh challenges the notion that gendered practices like the full face veil and polygyny are inherently at odds with women's rights. By centering the voices of the women most affected by these practices, Walsh reveals that the root problem is imperial sexism, a legacy of colonial era racism and sexism. By comparing three policy debates—the French burka ban, the legalization of polygyny in South Africa, and Canada's marrying out rule—Walsh demonstrates that a clash between culture and women's rights is never inevitable. Examines why this presumption endures and highlights the harm it causes. Ultimately, Imperial Sexism develops a framework to promote justice, reject colonial prejudice, and strengthen the indivisibility of human rights and pluralism.

Aikau, 2023-03-30 What would Indigenous resurgence look like if the parameters were not set with a focus on the state settlers or an achievement of reconciliation Indigenous Resurgence in an Age of Reconciliation explores the central concerns and challenges facing Indigenous nations in their resurgence efforts while also mapping the gaps and limitations of both reconciliation and resurgence frameworks The essays in this collection centre the work of Indigenous communities knowledge and strategies for resurgence and where appropriate reconciliation The book challenges narrow interpretations of indigeneity and resurgence asking readers to take up a critical analysis of how settler colonial and heteronormative framings have infiltrated our own ways of relating to our selves one another and to place The authors seek to re claim Indigenous relationships to the political and offer critical self reflection to ensure Indigenous resurgence efforts do not reproduce the very conditions and contexts from which liberation is sought Illuminating the interconnectivity between and across life in all its forms this important collection calls on readers to think expansively and critically about Indigenous resurgence in an age of reconciliation
