Introduction to International Relations Jill Steans, Lloyd Pettiford, Thomas Diez, 2005 Introduction to International Relations allows students to develop the theoretical framework they need to understand and engage with international relations

An Introduction to International Relations Theory Jill Steans, Lloyd Pettiford, Thomas Diez, Imad El-Anis, 2013-09-13 This long awaited new edition has been fully updated and revised by the original authors as well as two new members of the author team Based on many years of active research and teaching it takes the discipline's most difficult aspects and makes them accessible and interesting Each chapter builds up an understanding of the different ways of looking at the world The clarity of presentation allows students to rapidly develop a theoretical framework and to apply this knowledge widely as a way of understanding both more advanced theoretical texts and events in world politics Suitable for first and second year undergraduates studying international relations and international relations theory

The Crisis of Socialist Modernity Marie-Janine Calic, Dietmar Neutatz, Julia Obertreis, 2011-09-14 In the 1970s industry in the West had reached its limits precipitating a major discussion about how to solve the crisis But what was going on in Eastern Europe parallel to this development Were any similar trends being registered The authors of this volume pursue the answers to these questions by studying the politics economics social and cultural movements of that time in the multiethnic countries of Yugoslavia and the Soviet Union It becomes clear that these two countries were themselves in the midst of a latent crisis resulting from the global developments around them and from their own internal conflicts The symptoms of this crisis were well known in expert circles but not registered fully by either the political leaders or the citizens at large

World Politics Jeffrey Haynes, Peter Hough, Shahin Malik, Lloyd Pettiford, 2013-09-13 From the war on terror to the global financial crisis traditional concepts of world politics are being challenged on a daily basis In these uncertain times the study of international relations and the forces that shape them have never been more important Written specifically for students who are approaching this subject for the first time World Politics is the most accessible coherent and up to date account of the field available It covers the historical backdrop to today's political situations the complex interactions of states and non state actors the role of political economy human security in all its forms and the ways in which culture religion and identity influence events World Politics takes a new approach that challenges traditional interpretations and will equip students with the knowledge and the confidence needed to tackle the big issues

Regions and Powers Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation

regional patterns of security have become more prominent in international politics The authors combine an operational theory of regional security with an empirical application across the whole of the international system Individual chapters cover Africa the Balkans CIS Europe East Asia EU Europe the Middle East North America South America and South Asia The main focus is on the post Cold War period but the history of each regional security complex is traced back to its beginnings By relating the regional dynamics of security to current debates about the global power structure the authors unfold a distinctive interpretation of post Cold War international security avoiding both the extreme oversimplifications of the unipolar view and the extreme deterritorialisations of many globalist visions of a new world disorder Their framework brings out the radical diversity of security dynamics in different parts of the world

A New A-Z of International Relations

Theory Chris Farrands, Imad El-Anis, Roy Smith, 2015-07-10 International Relations is the multi disciplinary and heterogeneous study which goes to the heart of relations between states and international organisations embracing international politics economics political economy diplomatic and international history It seeks to explain the mainsprings of global politics which is a prime field for historians and especially for political scientists and IR theory and provides the essential intellectual underpinning of the discipline This book features over 250 alphabetical entries covering the most important and the latest cutting edge theory from anarchy to world systems theory Entries include scholars writers concepts principal debates argumentation theories leading schools of thought states international bodies conflicts and war treaties and alliances The coverage is global and comprehensive with substantial cross referencing and the extensive index serves as a major reference tool enabling readers to pick up additional important subjects from the main alphabetical entries Clear and concise writing cuts through even the most opaque theoretical subjects and the result is an essential reference guide for students of International Relations politics and history and will guide both specialists and general readers through the fast changing complexities of global politics

Maritime Security of India Dr. Suresh R, 2014-02-01 This book focuses on various aspects of maritime security of India Starting with the changing dimensions of national security it addresses the issues such as non traditional threats to security the threat posed by non state actors the causes of insecurity and also the imperatives of tackling the human security challenges The need for a comprehensive change in India's security policy is well exposed and certain policy prescriptions are also given The oceans are generally meant for better inaction among nations especially in the era of accelerated pace of globalization With regard to the coastal security of India the role of coastal community is significant The needs for inculcating awareness among the coastal community on coastal security matters as well as infrastructure development along the coastal area are also emphasized It is very important to look into the basic problems of coastal people as they face many human security challenges When we look into the coastal security a convergence of the national security concerns and human security concerns is visible The overall development of the coastal area would lead to better human security and better human security would result in enlisting the support of the coastal community to ensure

national security programme especially the coastal security In short coastal security is not only about protecting the coastal terrain and territorial waters from direct attacks by the state actors or non state actors but also safeguarding the interests of all stake holders

Political Loyalty and the Nation-State Andrew Linklater, Michael Waller, 2004-06 Examines the weakening of the state's ability to order political allegiances of its subjects Is it possible to invest political principles with loyalty and can political loyalty become merely a matter of choice and personal responsibility

China and India Chris Ogden, 2017-09-05 China and India are becoming increasingly influential powerful and prominent countries but what kind of states do their leaders and people wish them to become Will they act and behave like major Western entities or like something altogether different hence changing the very nature of international affairs And as the Asian twenty first century takes shape how will these dynamics affect the wider geopolitical landscape and the balance of power In this in depth study Chris Ogden evaluates the prospective impact of China and India upon the definition and nature of great power in the contemporary world Whilst many contend that they will rise in a similar way to current and previous great powers namely via traditional material economic and military measures Ogden explores the extent to which domestic political and cultural values as well as historical identities and perceptions are also central driving forces behind their common status ambitions and worldviews In so doing he offers a new and comprehensive analysis of these two countries past contemporary and future global significance in particular their shared status as the world's first such post imperial great powers

Colossus Niall Ferguson, 2012-10-25 Is America the new world empire Presidents from Lincoln to Bush may have denied it but as Niall Ferguson's brilliant and provocative book shows the US is in many ways the greatest imperial power of all time What's more it always has been an empire expanding westwards throughout the nineteenth century and rising to global dominance in the twentieth But is today's American colossus really equipped to play Atlas bearing the weight of the world on its shoulders The United States Ferguson reveals is an empire running on empty weakened by chronic deficits of money manpower and political will When the New Rome falls he warns its collapse may come from within One of the timeliest and most topical books to have appeared in recent years Literary Review Yet another tour de force from a writer who displays all his usual gifts of forceful polemic unconventional intelligence and elegant prose guaranteed to spark fierce debate Irish Times A bravura exploration of why Americans are not cut out to be imperialists but nonetheless have an empire Vigorous substantive and worrying Timothy Garton Ash

Normative Power Europe R. Whitman, 2011-06-21 The notion of Normative Power Europe NPE is that the EU is an ideational actor characterised by common principles and acting to diffuse norms within international relations Contributors assess the impact of NPE and offer new perspectives for the future exploration of one of the most widely used ideas in the study of the EU in the last decade

The Politics of Fiscal Federalism Adam Harmes, 2019-05-13 What does federalism have to do with the political struggle between conservatives and progressives over economic policy How do economic theories of fiscal federalism influence European North American and global forms of

governance In the first comprehensive account of the left right politics of multilevel governance across federal regional and global levels Adam Harmes identifies both free market and interventionist political projects related to fiscal federalism Harmes argues that these political projects and the interests that promote them explain a diverse range of phenomena across national contexts across levels of governance and over time This includes the left right dynamics of US and Canadian federalism the free market origins of British euroscepticism and the Brexit vote the complex politics behind the NAFTA renegotiations and the emergence of both populist and progressive challenges to global free trade A highly accessible outline of fiscal federalism theory The Politics of Fiscal Federalism also expands upon the broader value and policy differences between neoliberal classical liberal and Keynesian welfare economics on issues such as the role of the state subnational and global trade economic nationalism and monetary integration This original and innovative work demonstrates that a political economy approach is essential to the study of federalism and why federalism and multilevel governance is a critical area of study for political economists

Re-Orienting the Fundamentals Georg Wiessala,2016-04-08 Offering an investigation of the ways in which matters of human rights give shape to the European Union s interaction with Asia this volume argues for the consideration of selected social constructivist perspectives with regard to the Asia EU dialogue It puts into context the function of ideas identities values norms and human rights Through a number of country specific and regional case studies the text examines both the enabling and the inhibitory potential of human rights in the Union s relations with Asian interlocutors The book proposes a more inclusive holistic understanding of the significance and potential of the human rights discourse in East West contacts It is aimed at a wide readership from the disciplines of politics international relations Asian studies law and human rights

Connecting South-South Communities Muhammed Haron,2019-01-03 In addition to offering a comprehensive overview and fair insight over more than twenty five years into the relations between two South Middle Powers namely South Africa and Malaysia this book also discusses them within their respective regional structures and evaluates their respective diplomatic and commercial connections It also explores issues that have generally be neglected by International Relations specialists and in this regard it gives attention to cultural contacts that bring to the fore the critical role of non state actors in international affairs Since the ideas espoused by South Africa and Malaysia s political leaders are rooted in their specific national and broad regional philosophies the study also unpacks the notions of the African ways vis vis the Asian ways in maintaining and sustaining state to state relations within the two regions This book which uses Critical Theory as an appropriate framework that takes full cognisance of various developments in International Relations will be of interest to scholars and researchers in both the Social Sciences and the Humanities

Unnatural States Peter Ian Lomas,2017-09-08 Unnatural States is a radical critique of international theory in particular of the assumption of state agency that states act in the world in their own right Peter Lomas argues that since the universal states system is inequitable and rigid and not all states are democracies anyway this assumption is unreal and to adopt it means reinforcing an unjust

status quo Looking at the concepts of state nation and agency Lomas sees populations struggling to find an agreed model of the state owing to inherited material differences and unsurprisingly among theorists of the nation only controversy and a great confusion of terms Meanwhile the functional incarnations of the state agent are caricatures the mandarin state the lawyer state the landlord state the heir to history state and the patriot state Yet recent developments in international theory constructivism scientific realism postmodernism sacrifice state agency only at the price of an unhelpful abstraction The states system is dysfunctional and obsolete Lomas contends and international theory must be recast with morality as central to inspire and to guide historic change He focuses in his conclusion on prescriptions for change led by four moral concerns human rights weapons of mass destruction relations between rich and poor societies and the environment I begin this book writes Lomas with the commonest commonplace of international theory to expose it as a meaningless cliché In the masterly hands of Hobbes it was elaborated into a shock formula for organized society a reading of history as civilization's failure Kant sought to rescue morality from Hobbes and create the structures of modernity but Kant's influence is coming to an end In the Cold War politicians disagreeing over another philosopher almost brought the world to an end Hence the challenges of our time These are primary and profound Philosophers have done much to define the modern world The point of international theory is to change it

The Everyday Artefacts of World Politics Caitlin Hamilton, 2021-09-23 This book examines everyday artefacts of world politics the things that everyday people make that tell stories about how the world works The author argues that people engage in a unique form of multimodal storytelling about the world their place in the world and the world they want to live in through the artefacts that they make Introducing a novel approach to artefactual analysis the book explores textiles jewellery and pottery and urges scholars of global politics to take these artefacts seriously Based on original research this book is inherently interdisciplinary drawing on concepts and approaches from across the humanities and social sciences including archaeology history sociology world politics anthropology and material studies It will therefore be of interest to a wide range of readers

Gender and Power Relations in Nigeria Ronke I. Ako-Nai, 2013-03-08 Globally women are oppressed and this book introduces the perspective of African women and especially that of Nigerian women This book looks at the major themes that drive the women's empowerment programs in Nigeria Feminists in Nigeria are shaped by the institutions values ideologies and since the 1970s the UN and its agencies have added an international dimension The chapters while taking us through a theoretical overview of Nigerian women's empowerment also shows how institutions values religion and culture can challenge feminist political philosophy a philosophy that tends to universalize women's problems and their solutions

Security and Development in Southern Africa Nana Poku, 2001-04-30 With the end of white dominated South Africa many observers have argued for a positive transformation of the whole of Southern Africa based upon market integration and increased cooperation among the states of the region Poku and the contributors to this collection re-examine this optimistic scenario and they point to the problems of translating good intentions into actual

policies In reality the economic imbalance between South Africa and its neighbors poses severe problems for the region Far from finding a stronger ally in regional reconstruction and development the countries in the region are finding that for many in South Africa they simply do not matter that much The analysis points to greater polarization which may imply greater marginalization of the poorer countries in the region Moreover a major widening of the gap between the richer South Africa and some or all of the weaker economies may lead to increased tensions and breakdown of regional relations even to a situation detrimental to economic development in the region A provocative analysis by some of the leading politico economic thinkers of the region the volume will be of great use to scholars researchers and policy makers involved with Southern African development
