Using Qualitative Methods, *The Development of Vocational Stewardship among Indonesian Christian Professionals* Sutrisna Harjanto, 2018-07-31 Christian professionals through their daily work have important roles in God's mission. However, little empirical research has been done to understand their journey to connect their daily work with God's. If the church of Jesus Christ is to have the transformational impact that the world needs, then we must better understand our vocations from a biblical and missional perspective. In this thorough study, Dr. Sutrisna Harjanto explores the formational elements of the integration of faith, work, and mission among Indonesian Christian professionals. From detailed semi-structured interviews with twenty-eight participants, this study provides deeper insight into the development of vocational stewardship and the role of empowering relationships and communities. Through careful analysis and evaluation, the resulting book is an educational perspective on the theology of work and mission, beneficial for those in positions to equip and support Christian professionals as they work to fulfil God's mission through daily work.

Black Greek-Letter Organizations 2.0 Matthew W. Hughey, Gregory S. Parks, 2011-02-18 At the turn of the twentieth century, black fraternities and sororities, also known as Black Greek Letter Organizations (BGLOs), were an integral part of what W. E. B. Du Bois called the talented tenth. This was the top ten percent of the black community that would serve as a cadre of educated, upper-class, motivated individuals who acquired the professional credentials, skills, and capital to assist the race to attain socioeconomic parity. Today, however, BGLOs struggle to find their place and direction in a world drastically different from the one that witnessed their genesis. In recent years, there has been a growing body of scholarship on BGLOs. This collection of essays seeks to push those who think about BGLOs to engage in more critically and empirically based analysis. This book also seeks to move BGLO members and those who work with them beyond conclusions based on hunches, conventional wisdom, intuition, and personal experience. In addition to a rich range of scholars, this volume includes a kind of call and response feature between scholars and prominent members of the BGLO community.
