**Arabic, Qur'ān, and Poetic License** Shady Hekmat Nasser, 2025-03-31 This book

examines the similarities between the Qur'an and ancient Arabic poetry analyzed through the framework of Arabic grammar prior to their standardization and subsequent development into distinct genres Of central relevance is the relationship between the Qur'an and Arabic poetry and how Muslim scholars defined this relationship based on a formulaic structural approach rather than a thematic and motif oriented one The book aims to reposition the so called non standard usages of Arabic vernaculars non canonical readings of the Qur'an and unusual grammatical structures in ancient poetry at the heart of the Arabic Islamic tradition The book deals with different theological legal and social controversies regarding the proper recitation of the Qur'an and its individuation from poetry and other verbal arts For the first time this study offers a comprehensive categorization of unusual grammatical structures in both the Qur'an and ancient Arabic poetry which Arab grammarians classified as poetic license The close affinity between the linguistic styles of the Qur'an and ancient Arabic poetry suggests that the Qur'an was a form of ancient Arabic poetry To individuate the Qur'an Muslim scholars put in place various theological and legal restrictions for its proper recitation the most important of which was tajwīd Qur'anic recitation The book will interest students and scholars of Qur'anic and Islamic studies as well as those researching Arabic poetry and grammar

**The Critical Qur'an** Robert Spencer, 2022-05-03 A unique resource for understanding the Islamic Holy Book As Islamic terrorism becomes a distressingly common feature of life in North America and Europe it has become increasingly important for non Muslims to be aware of the ideology that animates and motivates jihad violence and Sharia oppression of women and others an ideology that is rooted in Islam's holy book the Qur'an English speaking people however have found attempts to understand the Qur'an and Islam impeded by unclear densely worded translations and explanatory notes written by Islamic apologists attempting to conceal rather than reveal how Islamic jihadis use the texts and teachings of the Qur'an to justify violence and supremacism and to make recruits of peaceful Muslims The Critical Qur'an in contrast makes clear the passages that are used to incite violence Historian and Islamic scholar Robert Spencer elucidates the Qur'anic text with extensive references to the principal tafsir or commentaries that mainstream Muslims use today to understand the Qur'an showing how interpretations that sanction violence are unfortunately not outliers but central in Islamic theology The Critical Qur'an is the Islamic counterpart to numerous critical and skeptical editions of the Bible that have appeared over the last century and

more It is the one edition of Islam's book that doesn't shy away from elucidating why the holy book of Islam is so frequently quoted and referred to with reverence by people who commit and/or justify acts of violence It is a basic resource for everyone who wishes to understand the persistent phenomenon of Islamic terrorism and the peculiar provenance of this most provocative book

**The Second Canonization of the Qur'ān (324/936)** Shady Nasser, 2020-10-20 In *The Second Canonization of the Qur'an* Nasser studies the transmission and reception of the Qur'anic text and its variant readings through the work of Ibn Mujahid d. 324/936 the founder of the system of the Seven Eponymous Readings of the Qur'an The overarching project aims to track and study the scrupulous revisions the Qur'an underwent in its recited oral form through the 1,400-year journey towards a final static and systematized text For the very first time the book offers a complete and detailed documentation of all the variant readings of the Qur'an as recorded by Ibn Mujahid A comprehensive audio recording accompanies the book with more than 3,500 audio files of Qur'anic recitations of variant readings

**Believing Women in Islam** Asma Barlas, 2019-01-16 Does Islam call for the oppression of women? Non-Muslims point to the subjugation of women that occurs in many Muslim countries especially those that claim to be Islamic while many Muslims read the Qur'an in ways that seem to justify sexual oppression inequality and patriarchy Taking a wholly different view Asma Barlas develops a believer's reading of the Qur'an that demonstrates the radically egalitarian and antipatriarchal nature of its teachings Beginning with a historical analysis of religious authority and knowledge Barlas shows how Muslims came to read inequality and patriarchy into the Qur'an to justify existing religious and social structures and demonstrates that the patriarchal meanings ascribed to the Qur'an are a function of who has read it how and in what contexts She goes on to reread the Qur'an's position on a variety of issues in order to argue that its

teachings do not support patriarchy To the contrary Barlas convincingly asserts that the Qur'an affirms the complete equality of the sexes thereby offering an opportunity to theorize radical sexual equality from within the framework of its teachings This new view takes readers into the heart of Islamic teachings on women gender and patriarchy allowing them to understand Islam through its most sacred scripture rather than through Muslim cultural practices or Western media stereotypes For this revised edition of *Believing Women in Islam* Asma Barlas has written two new chapters Abraham's Sacrifice in the Qur'an and Secular Feminism and the Qur'an as well as a new preface an extended discussion of the Qur'an's wife beating verse and of men's presumed role as women's guardians and other updates throughout the book *Islam the Misunderstood Religion* Danial Zainal Abidin, 2007 It is surprising that Islam is gaining momentum in the West amidst negative media coverage The surge of new converts on hostile ground proves that Islam is a true religion that needs reckoning by the West On 7th October 2002 it was reported in St Petersburg Times that Every year about 20 000 people in the United States convert to Islam according to a study conducted by the Council on American Islamic Relations On 22nd February 2004 Nicholas Hellen and Christopher Morgan reported in The Sunday Times that More than 14 000 white Britons have converted to Islam after becoming disillusioned with western values according to the first authoritative study of the phenomenon Some of Britain's top landowners celebrities and the offspring of senior Establishment figures have embraced the strict tenets of the Muslim faith The intention of writing this book is not to create enmity or dissension but to convey the truth about Islam We pray to Allah that it will benefit everybody Muslims and non Muslims alike Dr Danial bin Zainal Abidin graduated from Alexandria University Egypt and is a licensed medical practitioner He is also the managing director of Danial Zainal Consultancy in Malaysia a panelist for several TV programs in Malaysia a columnist and author of 12 books

ISLAM: THE GREAT EXPOSÉ Mkoma Yi, 1900 Muslims boast to all and sundry that they are the followers of the true religion of Abraham but beneath the lofty claim are Muslim scholars leaders and apologists presumptuous efforts to conceal the religion's thriving pagan bedrock In an attempt to bridge over the vast chasm between paganism and monotheism Islam through unsubstantiated links to Ishmael audaciously placed Abraham Hagar and Ishmael in Mecca and then attributed Abrahamic legends to pagan beliefs practices and rituals Moreover Mohammed the prophet of Islam was unashamedly presented as a monotheist in the midst of pagan Mecca despite irrefutable evidence that proves he was habitual pagan Similarly brazen attempts to morph the pagan god Allah into the God of the Bible were made but to all intents and purposes in vain This book delves into the lofty claims of Islam and dispels common misconceptions about the religion Through meticulous analysis of Islamic scriptures the book presents evidence to support its assertions It also examines the uncensored history of the religion to expose its obscure beginnings shortcomings subsequent cover ups and outright deceptions Additionally Islamic scriptures have been successfully linked to the contemporary issues of the religion's violent coercion jihadism terrorism intolerance misogyny antisemitism and supremacism Intended for truth seekers this book is the

ultimate handbook for anyone in pursuit of knowledge and truths It stands as the first of its kind providing a nuanced analysis of the unsanitized scriptures of Islam ultimately revealing that it is far from what it claims to be By following the evidence of Islam's rise readers will undoubtedly uncover the thriving Arab pagan foundation upon which the religion was built

*The Living Qur'ān* Ali J. Hussain, 2023-06-06 This work aims to distill the findings of a wide variety of scholarly disciplines into a coherent narrative of the Qur'an's history from the first oral recitation to the four published Variants in active circulation today In the process of unraveling the complicated relationships between the oral Qur'an and the written Qur'an it becomes clear that there are in fact two histories of the Qur'an and that the overall history of the Qur'an cannot be appreciated without understanding the interactions between these two occasionally intertwined but often independent component histories Discrepancies between the four qur'anic Variants that are in active use today are indexed and analyzed While most scholarship views the Qur'an either in relation to its past and its possible origins or in relation to its contemporary status as a static fixed text this work adopts an organic developmental approach recognizing that the Qur'an is a living text that continues to evolve

*Tracing Language Movement in Africa* Ericka A. Albaugh, Kathryn M. de Luna, 2018-01-10 The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent with language maps only perpetuating this vision by drawing discrete language groups In reality however most people can communicate with most others within and across linguistic boundaries even if not in languages taught or learned in schools Many disciplines have looked carefully at language movement and change on the continent but their lack of interaction has prevented the emergence of a cohesive picture of African languages Tracing Language Movement in Africa gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa combining insights from history archaeology religion linguistics political science and philosophy The resulting volume illuminates commonalities and distinctions in these disciplines understanding of language change and movement in Africa The volume is empirical aiming to represent language more accurately on the continent as well as theoretical It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights

the themes that cut across all disciplines how scholars use data understand boundaries represent change and conceptualize power The volume is organized to reflect differing conceptions of language that arise from its discipline specific contributions that is tendencies to study changes that consolidate language or those that splinter it viewing languages as whole or in part Each contribution includes a short explanation of a discipline s theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non specialists followed by an illustrative empirical case study This volume will inspire multidisciplinary conversations around the study of language change in Africa opening new interdisciplinary dialogue and spurring scholars to adapt the questions data and method of other disciplines to the problems that animate their own fields      *The Perfect Guide to the Sciences of the Qurān* Suyūṭī,2011 Suitable for a specialist in
