*Remembering Who I Am* Mabel Campbell, 2020-08-30 We are more than our bodies our careers and the identities we have taken from birth We are souls having a human experience We live in a world where our focus is outward towards wealth status and relying on others for our happiness We strive to have it all Yet often we remain unfulfilled and unhappy Fulfilment requires an answer to three questions Who am I Why am I here and What is my purpose We are on this planet for a reason We invest time and money into our health our livelihood and our relationships and in doing so we may neglect the part of ourselves that may have the answers and understanding of ourselves our soul The soul is our most untapped resource our connection to this part of our being is the gateway to discovering who we are and why we are here and what we're meant to do in this life Going inward gives us the space we need to connect to our soul This book gives a personal journey of the author's experience of how and what she used to connect deeply and heal herself bringing in clarity joy inner peace and

freedom Remembering who she is has given her the space to co create a life she loves and to embrace her creativity in writing and publishing this book The author provides you with an invitation to embark on your own personal journey and to remembering who you are And if you choose to do so it will provide the author a humbling experience of being of service to others and the universe

Proud explores the phases and movements of the Moon along with its ancient and mysterious features its craters maria rilles tunnels and domes He examines several of NASA s Apollo missions showing not that NASA faked the Moon expeditions but that they concealed what the astronauts found there He explains the many holes in the commonly accepted Giant Impact theory of the Moon s origins and reveals the evidence for a hollow artificial Moon placed in orbit eons ago to observe Earth Examining the deep influence of the Moon on the collective mind of humanity Proud looks at what the Qabbalah the tarot and other occult traditions say about the Moon and interprets G I Gurdjieff s teachings that we are food for the Moon He investigates the Moon as a gateway to another realm as the Purgatory of Christianity and as the home of an alien intelligence who controls and exploits humanity Examining the Moon from both scientific and esoteric perspectives Proud shows the Moon is not a cold dead rock but a rich fascinating world just as alive as Earth

Geoengineering Mark M. **Suspicious Minds** Rob Brotherton,2015-11-19 A first class book Sunday Times We re all conspiracy theorists Some of us just hide it better than others Conspiracy theorists do not wear tin foil hats

for the most part They are not just a few kooks lurking on the paranoid fringes of society with bizarre ideas about shape shifting reptilian aliens running society in secret They walk among us They are us Everyone loves a good conspiracy Yet conspiracy theories are not a recent invention And they are not always a harmless curiosity In *Suspicious Minds* Rob Brotherton explores the history and consequences of conspiracism and delves into the research that offers insights into why so many of us are drawn to implausible unproven and unproveable conspiracy theories They resonate with some of our brain s built in quirks and foibles and tap into some of our deepest desires fears and assumptions about the world The fascinating and often surprising psychology of conspiracy theories tells us a lot not just why we are drawn to theories about sinister schemes but about how our minds are wired and indeed why we believe anything at all Conspiracy theories are not some psychological aberration they re a predictable product of how brains work This book will tell you why and what it means Of course just because your brain s biased doesn t always mean you re wrong Sometimes conspiracies are real Sometimes paranoia is prudent      [Who Am I?
