Psychology And Alchemy Carl Jung Wordpress:

The Archetype of the Number and its Reflections in Contemporary Cosmology Alain Negre, **Strange Attractor** Graham St John, 2025-10-07 An intellectual biography of one of the most celebrated and yet least understood figures of the late twentieth century Terence McKenna A stand up philosopher who made a unique contribution to science humanism and the hidden arts Terence McKenna 1946 2000 was the twentieth century s psychedelic Renaissance man Perfecting his rugged philosophy on the role of psychedelics in evolution consciousness and time McKenna was a riotous charmer who stalked the shadows but also sought the iridescence More than twenty years since his untimely passing McKenna has an enduring magnetism across the virtual pop stream in pervasive digitization and within social media networks In Strange Attractor the first biography of this enigmatic figure Graham St John detects the signal behind the noise This book is an engaging chronicle of the life works and legacy of this brazen adventurer of the inner and outer dimensions whose weird intelligence has affected multitudes and whose spirit continues to haunt the present It draws on original documents and letters features fifty two rare photographs and artworks and shares previously untold stories from over eighty people Neither glorifying nor disparaging its subject Strange Attractor will appeal to those interested in the evolution of a psychedelic intellectual and to those for whom McKenna s wisdom endures Разбитое зеркало. Как обрести целостность Джеймс Холлис, 2024-10-10 **Dispelling Wetiko** Paul Levy, 2013-01-15 The mind virus behind human self destruction has a name wetiko See it clearly and it starts to lose power You see it everywhere smart people making destructive choices Companies poisoning their own customers Nations pouring trillions into war while their people suffer Social media built to connect us driving us apart We re the one species that knowingly degrades its own habitat at scale Why do we keep acting against our own survival From Indigenous North American traditions comes the term wetiko a life eating compulsion that turns us against one another and the living world Whether you approach it as metaphor psychology or spirituality the effects are real and they propagate through what we don t see In Dispelling Wetiko Paul Levy brings this insight into dialogue with Jungian psychology framing wetiko as a mind parasite that exploits our blind spots Drawing on teachings shared in public sources depth psychology and his own harrowing encounters Levy describes wetiko as ME disease Malignant Egophrenia a pathological self centering that mistakes the ego for the whole Like a vampire that can t see its reflection it hides in the very way we perceive reality The crucial insight the moment we recognize wetiko it begins to lose power The cure isn t waging war on evil or waiting for others to wake up it starts by noticing how our attention and reactions feed the very patterns we oppose and then withdrawing that food Dispelling Wetiko offers a clear diagnosis and a practical path back to sanity personally and collectively C. G. Jung and the Alchemical Imagination Stanton Marlan, 2020-12-29 Winner of the 2021 American Board Academy of Psychoanalysis Annual Book Prize for Best Theoretical Book in Psychoanalysis Stanton Marlan brings together writings which span the course of his career examining Jungian psychology and the alchemical imagination

as an opening to the mysteries of psyche and soul Several chapters describe a telos that aims at the mysterious goal of the Philosophers Stone a move replete with classical and postmodern ideas catalysed by prompts from the unconscious dreams images fantasies and paradoxical conundrums Psyche and matter are seen with regards to soul light and darkness in terms of illumination and order and chaos as linked in the image of chaosmos Marlan explores the richness of the alchemical ideas of Carl Jung James Hillman and others and their value for a revisioning of psychology In doing so this volume challenges any tendency to literalism and essentialism and contributes to an integration between Jung s classical vision of a psychology of alchemy and Hillman s Alchemical Psychology C G Jung and the Alchemical Imagination will be a valuable resource for academics scholars and students of Jungian and post Jungian studies Jungian analysis and psychotherapy It will also be of great interest to Jungian psychologists and Jungian analysts in practice and in training
