The Maternal Tug: Ambivalence, I identity, and Agency Adams Sarah LaChance, 2020-02-01 While the existence of maternal ambivalence has been evident for centuries it has only recently been recognized as central to the lived experience of mothering This accessible yet intellectually rigorous interdisciplinary collection demonstrates its presence and meaning in relation to numerous topics such as pregnancy birth Caesarean sections sleep self estrangement helicopter parenting poverty environmental degradation depression anxiety queer mothering disability neglect filicide and war rape Its authors deny the assumption that mothers who experience ambivalence are bad evil unnatural or insane Moreover historical records and cross cultural narratives indicate that maternal ambivalence appears in a wide range of circumstances but that it becomes unmanageable in circumstances of inequity deprivation and violence From this premise the authors in this collection raise

imperative ethical social and political questions suggesting possibilities for vital cultural transformations These candid explorations demand we rethink our basic assumptions about how mothering is experienced in everyday life Heidegger and the Lived Experience of Being a University Educator Joshua Spier, 2018-02-09 This book explores the lived meanings of being a university educator from an existential perspective The book enriches our understanding of educators experiences in light of Martin Heidegger s early philosophy and vice versa opening our understanding of Heidegger s philosophy through educators experiences Also drawing on the philosophical insights of Hans Georg Gadamer the book situates the purposes and experiences of the educator in historical and contemporary contexts In doing so the author reveals that being a university educator is essentially characterised by conversation and time Inspired by the author s own experiences of teaching community development and sociology within a youth work specific bachelor degree the book invites educators to apply existential philosophy as a tool to reflect upon their own experiences and to reconnect with the question of what it means to be an educator in their shared world of practice This thoughtful volume is sure to resonate with the experiences of readers who educate within a university context **A Companion to Simone de Beauvoir** Laura Hengehold, Nancy

elsewhere Rodgers captures the lives of gay men who are situated in varied contexts and who all despite their different situations possess self beliefs that are shaped by wider historical traditions and evolving social change Rodgers argues that the nuances and particulars of self beliefs are significantly affected by wider historical traditions and evolving social and political changes Through his reconstruction Rodgers provides practitioners of applied psychological and therapeutic disciplines with an in depth picture of how historical context and social justice successes have interacted with gay men s self beliefs with a particular focus on how prosocial resistances against prejudice have incrementally eroded historical standards of gay stigma Perspectives on Midwifery and Parenthood Rita Borg Xuereb,Julie Jomeen,2023-01-01 The book

Spirituality and Childbirth Susan Crowther, Jenny Hall, 2017-09-13

Highlighting aspects of birth often taken for granted, ignored or left silenced, this book questions the art and meaning of childbirth. Addressing spirituality in and around the start of life from a variety of thought-provoking perspectives, it examines the apparent paradox of impersonal biomedical/technocratic systems operating alongside the meaningful experiences encountered by those involved. Themes covered include: Notions of holism and spirituality; culture, religion and spirituality; Childbirth significance at societal level; Spiritual care in maternity care provision; Birth environment: mood, space and place; Spiritual experience of all those involved, including health professionals; Spiritual experience when birth is complex and challenging; When birth and death are juxtaposed. Although there is considerable literature on spirituality at the end of life, this is the only book that draws together a global and multidisciplinary selection of academic researchers and practitioners to reflect on spirituality at the start of life. Each chapter explores the relevant theoretical background and makes links to practice using case studies from research and practice. The chapters conclude by discussing how spiritual care is and should be provided in this context, what practice approaches are beneficial, cross-cultural perspectives and future directions for research. It is an important read for all those interested in childbirth, maternity care, social science, perspectives on health and illness and spirituality.
