*Bio-Based Materials and Waste for Energy Generation and Resource Management* Ram Naresh Bharagava, Lalit Goswami, Anamika Kushwaha, Chaudhery Mustansar Hussain, 2023-05-08 Bio-Based Materials and Wastes for Energy Generation and Resource Management is the fifth and final volume in the series Advanced Zero Waste Tools Present and Emerging Waste Management Practices. It addresses processes and practices for utilizing bio-based materials and wastes to support efforts to promote a more sustainable society and provide readers with a better understanding of the major mechanisms required to achieve zero waste in different fields. This book covers numerous mechanisms supported by scientific evidence and case studies as well as in-depth flowcharts and process diagrams to allow for readers to adopt these processes. Summarizing present and emerging zero waste tools on the scale of both experimental and theoretical models, Advanced Zero Waste Tools is the first step toward understanding the state of the art practices in making the zero waste goal a reality. In addition to environmental and engineering principles, it also covers economic, toxicologic, and regulatory issues, making it an important resource for researchers, engineers, and policymakers working toward environmental sustainability. Uses fundamental interdisciplinary and state-of-the-art coverage of zero waste research to provide an integrated approach to tools, methodology, and indicators for bio-based resource management. Presents strategies for treatment of biological waste to contribute to sustainable management and development. Includes numerous case studies to illustrate the management of biowaste for generation of economy and energy.
