Read Unisa Application For Second Semester 2019:

A Linguistic Approach to the Study of Dyslexia Gloria Cappelli, Sabrina Noccetti, 2022-08-19 This volume contributes to the growing body of research on developmental dyslexia focusing on the disorder's behavioural manifestations at different levels of the language system. It is organised into three sections that cover the three main vantage points from which the effects of dyslexia on communication can be observed: neuropsychology, linguistics, and the perspective of educators. Together, the chapters provide an insightful overview of the ways in which dyslexia impacts different components of language, including lexical and pragmatic abilities, and present data from experimental and applied research with suggestions for the application of research-based data in both innovative and traditional language teaching ways to rehabilitate reading dysfunctions, as well as teacher training. The book will be essential reading for researchers and students investigating dyslexia, as well as foreign language teachers and professionals who work on the rehabilitation of linguistic performance dysfunctions in people with dyslexia.

Contemporary Issues on Governance, Conflict and Security in Africa Adeoye O. Akinola, 2023-05-25 This edited volume reflects on some of the important discussions on the trends of governance, conflict, and security in Africa. It explores some of the emerging concerns and offers a holistic understanding of the remote and immediate causes of the conflict and how the neo-colonial African states have been structured in a manner that makes violent conflict inevitable. The book thereby provides an overview of Africa's security challenges and proffers some sustainable policy options for curtailing lawlessness and armed conflict on the continent. Literature is exhaustive about the nexus between governance, peace, and security; however, discourse on the impact of new conflict on governance has been scant. Understanding these new trends has become a necessity and precondition for sustainable development, as reflected in both the African Union AU Agenda 2063 and the United Nations UN Sustainable Development Goals (SDGs).
