## Chapter 1 Managerial Accounting and Cost Concepts

---

### Questions

**1-1** The three major types of product costs in a manufacturing company are direct materials, direct labor, and manufacturing overhead.

**1-2**

- a. Direct materials are an integral part of a finished product and their costs can be conveniently traced to it.
- b. Indirect materials are generally small items of material such as glue and nails. They may be an integral part of a finished product but their costs can be traced to the product only at great cost or inconvenience.
- c. Direct labor consists of labor costs that can be easily traced to particular products. Direct labor is also called "touch labor."
- d. Indirect labor consists of the labor costs of janitors, supervisors, materials handlers, and other factory workers that cannot be conveniently traced to particular products. These labor costs are incurred to support production, but the workers involved do not directly work on the product.

e. Manufacturing overhead includes all manufacturing costs except direct materials and direct labor. Consequently, manufacturing overhead includes indirect materials and indirect labor as well as other manufacturing costs.

**1-3** A product cost is any cost involved in purchasing or manufacturing goods. In the case of manufactured goods, these costs consist of direct materials, direct labor, and manufacturing overhead. A period cost is a cost that is taken directly to the income statement as an expense in the period in which it is incurred.

David Ellerman,2021-02-17 This book argues for the abolition of the employment system in favor of workplace democracy and thus escapes the usual capitalism versus socialism binary choice by reframing the basic issue as the employment contract not private property or a market economy The author repositions the political and economic debate in the lineage of abolitionism against the owning of other people which in its modern version of neo abolitionism would also abolish the renting or hiring employing or leasing of other people The overall argument is based on three recovered theories each one of which is sufficient to yield the neo abolitionist conclusion These three rights based theories are developed throughout the book The three theories are 1 inalienable rights theory 2 the natural rights or labor theory of property and 3 democratic theory as based on a democratic constitution that only delegates governance rights versus a non democratic constitution that alienates governance rights The book therefore is a must read for everybody interested in a better understanding of the political economy workplace democracy rights based theories and the employment system      **Management Accounting,**
