Educational Innovation in Economics and Business V L. Borghans,2000 The Information and Communication Technology revolution results in profound changes to the heart of business and economics Changes in the workplace new communication technology new organizational structures and new production technologies force business educators to renew their focus on the curricula of business schools There is no doubt these changes influence business education and instructional technology But change will go far beyond the mere introduction of technology in the classroom Alliances between the corporate world and business education are no longer fictitious but are necessary to establish stronger bonds between educational systems and the workplace The fifth volume in the series Educational Innovation in Economics and Business contains a unique selection of articles addressing various issues on how business education should adapt to changing needs of the corporate world It is meant for educators in corporate training centers and for teachers in further and higher education

Educational Innovation in Economics and Business V Lex Borghans,Wim H. Gijssels, Richard G. Milder, John E. Stinson,2005-12-17 The workplace is changing drastically these days As a consequence of the Information and Communication Technology ICT revolution new economic activities emerge the production process changes people use different communication tools and organizational structures are adjusted All these changes relate to the heart of business and economics and there is no doubt that they will also influence education in these areas Of course ICT provides new technologies to facilitate learning but a changing workplace also requires a renewed focus within the curriculum of economics and business education If ICT is leading to profound change in the workplace is innovation then only a matter of introducing more technology in education Unfortunately this is not necessarily true The translation of changes in the workplace into an improved curriculum requires serious analysis of the essence of the changes at the work place and the way technology may enable student learning For example relevant knowledge is changing faster and faster Does this mean that we have to adopt the curriculum faster and faster Perhaps not as students will have a labor market career of 30 or 40 years Focusing on today s knowledge even if it is very up to date loses more and more value if the life cycle of knowledge becomes shorter Increased speed of change also implies a decrease in the value of knowing all these things Essentials of Business Economics Dwivedi D.N.,2009-11-01 There Has Been A Rapidly Growing Demand For Professional Managerial Manpower

Over The Past Two Decades As A Result Of Which Most Indian Universities And Management Institutes Had To Introduce Degree And Diploma Courses Right At The Undergraduate Level With Business Economics As A Separate Paper To Meet The Requirement Of The Students Who Take On Economics For Business For The First Time The Subject Matter Needs To Be Within Their Comprehension Level That At The Same Time Lays A Strong Foundation This Book Meets This Requirement By Presenting A Short Simpler And Restructured Version Of The Author S Popular Book Managerial Economics The Book Is As Per The Model Syllabus Of Business Economics Recommended By The Ugc For Bba Students With Additional Topics For The Sake Of Completeness And To Cover The Syllabi Of A Large Number Of Universities The Book Also Caters To Bbe B Com And Pgdbm Courses Run By The Indian Universities And Management Institutes The Book Differs From The Author S Managerial Economics In Its Scope Of The Subject Matter And The Level Of Analytical Treatment Inasmuch As Here Only The Microeconomic Aspects Of Managerial Economics Are Covered
