Fictions of Home Martin Mühlheim,2018-04-23 This study aims to counter right wing discourses of belonging It discusses key theoretical concepts for the study of home focusing in particular on Marxist feminist postcolonial and psychoanalytic contributions The book also maintains that postmodern celebrations of nomadism and exile tend to be incapable of providing an alternative to conservative xenophobic appropriations of home In detailed readings of one film and six novels a view is developed according to which home as a spatio temporal imaginary is rooted in our species being and as such constitutes the inevitable starting point for any progressive politics

Literature and Understanding Jon Phelan,2020-10-08 Literature and Understanding investigates the cognitive gain from literature by focussing on a reader s close analysis of a literary text It examines the meaning of literature outlines the most prominent positions in the literary cognitivism debate explores the practice of close reading from a philosophical perspective provides a fresh account of what we mean by understanding and in so doing opens up a new area of research in the philosophy of literature This book provides a different reply to the challenge that we can t learn anything worthwhile from reading literary fiction It makes the innovative case that reading literary fiction as literature rather than as fiction stimulates five relevant senses of understanding The book uses examples of irony metaphor play with perspective and ambiguity to illustrate this contention Before arguing that these five senses of understanding bridge the gap between our understanding of a literary text and our understanding of the world beyond that text The book will be of great interest for researchers scholars and post graduate students in the fields of aesthetics literary theory literature in education and pedagogy

Reading Literature and Chronic Pain Josie Billington,2025-05-15 This valuable and insightful study into chronic pain and its treatment advances a striking analysis of the complex phenomenon of chronic pain also attesting to the importance of the medical humanities in addressing urgent questions that medical science alone cannot resolve The primary purpose of this book is twofold First to demonstrate empirically against a conceptual background drawn from multiple disciplines and knowledge bases historical medical neurobiological psychological socio anthropological how an apparently soft intervention such as literary reading can effectively combat symptoms of a condition as intractable as chronic pain Second to explore what this evidence tells us about pain as a lived experience as well as a condition in urgent need of new treatment options and about literature and the reading of fiction and poetry as therapeutic influences in contemporary health and healthcare most particularly in alleviating the often severe mental health difficulties with which chronic pain is almost universally associated Based on unique empirical research with people who are living with chronic pain this book is the first of its kind to demonstrate the value of literature and literary reading both as a discourse for understanding and finding pain and as an intervention in its treatment

How to Write Like Tolstoy Richard Cohen,2016-05-17 A thought provoking journey inside the minds of the world s most accomplished storytellers from Shakespeare to Stephen King NAMED ONE OF THE BEST

BOOKS OF THE YEAR BY THE SPECTATOR Richard Cohen's book acted as a tonic to me. It didn't make me more Russian but it fired up my imagination. I have never annotated a book so fiercely. Hilary Mantel: There are three rules for writing a novel. Somerset Maugham is said to have said: Unfortunately no one knows what they are. How then to bring characters to life? Find a voice, kill your darlings or run. That most challenging of literary gauntlets: writing a sex scene. What made Nabokov choose the name Lolita? Why did Fitzgerald use first-person narration in *The Great Gatsby*? How did Kerouac, who raged against revision, finally come to revise *On the Road*? Veteran editor and author Richard Cohen takes us on an engrossing journey into the lives and minds of the world's greatest writers from Honoré de Balzac and George Eliot to Virginia Woolf and Zadie Smith, with a few mischievous detours to visit Tolstoy along the way. In a scintillating tour d'horizon, Cohen lays bare the tricks, motivations and techniques of the literary greats, revealing their obsessions and flaws and how we can learn from them along the way.

Literature Robert Eaglestone, 2019-07-23 Facts alone are wanted in life, exclaims Mr Gradgrind at the beginning of *Dickens' Hard Times*. Literature is not about facts alone and despite two and a half thousand years of arguments, no one can agree on what it is or how to study it. But argues Robert Eaglestone, it is precisely the open-ended nature of literature that makes it such a rewarding and useful subject. Eaglestone shows that studying literature can change who you are, turning you from a reader into a critic, someone attuned to the ways we make meaning in our world. Literature is a living conversation which provides endless opportunities to rethink and reinterpret our societies and ourselves. With examples ranging from Sappho to Skyrim, this book shows how literature offers freer and deeper ways of thinking and being. **Machen - Erhalten - Verwalten** Burckhard Dücker, 2016-05-02 Erst durch das Zusammenspiel mit verschiedenen Akteuren und Institutionen können literarische Texte zu ihrer Entfaltung gelangen. Literarischen Texten wird durch eine Vielzahl von Akteuren und Institutionen ein Ort in der Literaturgeschichte zugewiesen. Texte werden geschrieben, gemacht, zumeist in Verlagen veröffentlicht, wissenschaftlich ediert, interpretiert, in Medien kritisiert, in Bibliotheken und Archiven gesammelt, in Literaturmuseen ausgestellt und restauriert, bersetzt, als Lerngegenstände eingesetzt. Autoren werden mit Literaturpreisen ausgezeichnet. Einige dieser sozialen Praktiken stellt der Band vor und fragt nach Möglichkeiten einer performativen Literaturgeschichte, die neben den literarischen Texten auch die für deren Herstellung, Erhaltung, Vermittlung und Tradition grundsätzlich notwendigen Praktiken berücksichtigt. **Cognitive principles, critical practice: Reading literature at university** Susanne Reichl, 2009-09-16 This enquiry into the principles and practice of reading literature brings together insights from cognitive studies, literary theory, empirical literature studies, learning and teaching research, and higher education research. Reading is conceptualised as an active process of meaning-making that is determined by subjective as well as contextual factors and guided by a sense of purpose. This sense of purpose, part of a professional and conscious approach to reading, is the central element in the model of reading that this study proposes. As well as a conceptual aim, this model also has pedagogical power and serves as the basis for a number of critical and creative exercises geared towards

developing literary reading strategies and strategic reading competences in general These activities demonstrate how the main tenets of the study can be put into practice within the context of a particular institution of higher education **English**

Style Daniel Hartley,2016-09-27 This book develops a Marxist theory of literary style The first part explains why Raymond Williams Terry Eagleton and Fredric Jameson came to see style as central to political criticism It delineates the historical and conceptual preconditions for the emergence of a politics of style and uncovers an underground current of stylistics within the Marxist tradition from Marx to Barthes The second part sets out precisely what each thinker has written on style and demonstrates how this came to figure in their overall intellectual and political projects focusing above all on a detailed reconstruction of Williams s best known concept the structure of feeling Finally the third part sets out an independent theory of style and makes an ambitious attempt to establish it as a foundational element of a new Marxist poetics **John 4:1-42**

Ridiculous Critics Philip Smallwood, Min Wild, 2014-09-16 Ridiculous Critics is an anthology of eighteenth century writings on the figure of the literary critic and on the critic's mixed and complex role The collection assembles critical texts and satirical images chronologically to suggest a vision of the history of eighteenth century literary criticism Including comic vicious heartfelt and absurd passages from critics poets novelists and literary commentators celebrated and obscure the writings range through poetry fiction drama and periodical writing The anthology also includes two original essays discussing and illustrating the irrepressible spirit of critical ridicule in the period and commending its value and effect The first offers an evaluation of the merciless and sometimes shockingly venomous satirical attacks on critical habits and personalities of the eighteenth century The editors argue that such attacks are reflexive in the sense that criticism becomes increasingly supple and able to observe and examine its own irresponsible ingenuities from within The volume's concluding essay supplies an analysis of modern modes of criticism and critical history and suggests applications across time We propose that humor's vital force was once an important part of living criticism The eighteenth century mockery of critics casts light on a neglected common thread in the history of criticism and its recent manifestations it prompts questions about the relative absence of comedy from the stories we presently tell about critics dead or alive The passages invite laughter both with the critics and at their expense and suggest the place that ridicule might have had since the eighteenth century in the making of judgments and in the pricking of critical pretension For this reason they indicate the role that laughter may still have in criticism today and provide an encouraging precedent for its future

Being Played: Gadamer and Philosophy's Hidden Dynamic Jeremy Sampson, 2019-09-02 Are we being played Is our understanding of the traditionally fixed and static concepts of philosophy based on an oversimplification This book explores some of the theories of the self since Descartes together with the rationalism and the empiricism that sustain these ideas and draws some startling conclusions using Gadamer's philosophical study of play as its starting point Gadamer's ludic theory Sampson argues reveals a dynamic of play that exists at the deepest level of philosophy It is this dynamic that could provide a solution in relation to the Gadamer Habermas hermeneutics debate and the Gadamer Derrida relativism debate together with a theory of totality Sampson shows how ludic theory can be a game changer in understanding the relationship between philosophy and literature exploring the dynamic between the fictive and non fictive worlds These worlds are characterized simultaneously by sameness univocity of Being and difference equivocality of Being The book questions Heidegger's idea that the univocity of Being is universal instead maintaining that the relationship between the univocity of Being and equivocality of Being is real and that ontological mediation is required to present them as a unified whole Using the works of Shakespeare Beckett and Wilde Sampson contends that such a mediation termed the ludicity of Being takes place between literature and its audience This literary example has profound implications not only for literature and its attendant theories but also for philosophy in particular ontology and hermeneutics
