

A detailed, colorful illustration of intestinal villi, showing the internal structure of the small intestine. The villi are depicted as finger-like projections, with a central blood vessel and a surrounding network of capillaries. The illustration is rendered in a style that combines scientific accuracy with artistic flair, using a palette of blues, greens, and reds. The villi are arranged in a way that suggests a continuous, flowing structure, with some villi appearing more prominent than others. The overall effect is one of a complex, interconnected biological system.
