**Collecting and Conserving Net Art** Annet Dekker, 2018-05-08 Collecting and Conserving Net Art explores the qualities and characteristics of net art and its influence on conservation practices By addressing and answering some of the challenges facing net art and providing an exploration of its intersection with conservation the book casts a new light on net art conservation curating and museum studies Viewing net art as a process rather than as a fixed object the book considers how this is influenced by and executed through other systems and users Arguing that these processes and networks are imbued with ambiguity the book suggests that this is strategically used to create suspense obfuscate existing systems and disrupt power structures The rapid obsolescence of hard and software the existence of many net artworks within restricted platforms and the fact that artworks often act as assemblages that change or mutate make net art a challenging case for conservation Taking the performative and interpretive roles conservators play into account the book demonstrates how practitioners can make more informed decisions when responding to critically analysing or working with net art particularly software based processes Collecting and Conserving Net Art is intended for researchers academics and postgraduate students especially those engaged in the study of museum studies conservation and heritage studies curatorial studies digital art and art history The book should also be interesting to professionals who are involved in the conservation and curation of digital arts performance media and software

**Would You Baptize an Extraterrestrial?** Guy Consolmagno, SJ, Paul Mueller, SJ, 2014-10-07 Witty and thought provoking two Vatican astronomers shed provocative light on some of the strange places where religion and science meet Imagine if a Martian showed up all big ears and big nose like a child's drawing and he asked to be baptized How would you react Pope Francis May 2014 Pope Francis posed that question without insisting on an answer to provoke deeper reflection about inclusiveness and diversity in the Church But it's not the first time that question has been asked Brother Guy Consolmagno and Father Paul Mueller hear questions like that all the time They're scientists at the Vatican Observatory the official astronomical research institute of the Catholic Church In Would You Baptize an Extraterrestrial they explore a variety of questions at the crossroads of faith and reason How do you reconcile the The Big Bang with Genesis Was the Star of Bethlehem just a pious religious story or an actual description of astronomical events What really went down between Galileo and the Catholic Church and why do the effects of that confrontation still reverberate to this day Will the Universe come to an end And could you really baptize an extraterrestrial With disarming humor Brother Guy and Father Paul explore these questions and more over the course of six days of dialogue Would You Baptize an Extraterrestrial will make you laugh make you think and make you reflect more deeply on science faith and the nature of the universe

Coutts, 2019-03-08 After buying a farm in Nebraska the old Coopers s place as a safe house Alexandra soon realized it was not the rapid hideaway she believed it would be The year was 1880 It was a time in American history of Indian unrest and transcontinental transportation and progress Fortunately for her she was skilled in the task of blending into this era as a human to keep her true identity a secret While on Earth she would fish and hunt and tend to the animals on her farm Then she would return to her home planet Kaupner somewhere east of Pluto once it was safe But her perfect plan took an
