**Arab Culture and the Novel** Muhammad Siddiq, 2007-06-11 This book explores the complex relationship between the novel and identity in modern Arab culture against a backdrop of contemporary Egypt It uses the example of the Egyptian novel to interrogate the root causes religious social political and psychological of the lingering identity crisis that has afflicted Arab culture for at least two centuries

The Twilight of the Gothic? Joseph Crawford, 2014-05-15 This book explores the history of the paranormal romance genre from its origins in the revisionist horror fiction of the 1970s via its emergence as a minor sub genre of romantic fiction in the early 1990s to its contemporary expansion in recent years into an often controversial genre of mainstream fiction Tracing the genre from its roots in older Gothic fiction written by and for women it explores the interconnected histories of Gothic and romantic fiction from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy Twilight True Blood and The Vampire Diaries in the present day In doing so it investigates the extent to which the post Twilight paranormal romance really does represent a break from older traditions of Gothic fiction and just what it is about the genre that has made it so extraordinarily divisive captivating millions of readers whilst simultaneously infuriating and repelling so many others

**The Cambridge Introduction to the Novel** Marina MacKay, 2010-11-25 Beginning its life as the sensational entertainment of the eighteenth century the novel has become the major literary genre of modern times Drawing on hundreds of examples of famous novels from all over the world Marina MacKay explores the essential aspects of the novel and its history where novels came from and why we read them how we think about their styles and techniques their people plots places and politics Between the main chapters are longer readings of individual works from Don Quixote to Midnight's Children A glossary of key terms and a guide to further reading are included making this an ideal accompaniment to introductory courses on the novel

A Theory of Narrative Alojzija Zupan Sosič, 2022-09-08 Relying on the structure and methodology of classical and postclassical narratology this book explores the phenomena of story and narrative narrator focalization character time and space as well as the beginning and the ending of a narrative It upgrades the theory of the unreliable narrator and introduces three new categories that have until now been exclusively used to refer to unreliable narrators namely commentators interpreters and evaluators

**The Physiology of the Novel** Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked and soothed by authors newly aware of

the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century The Physiology of the Novel challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling

*American Literary Realism and the Failed Promise of Contract* Brook Thomas,2023-04-28 In *American Literary Realism and the Failed Promise of Contract* the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era s literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society s inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract s promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain s *Adventures of Huckleberry Finn* and James s *The American* evoke moments where relationships of status could theoretically transform into equitable contractual interactions However these fictional moments of promise often falter reflecting contract s inability to establish a truly egalitarian social order The rise of corporate capitalism further complicated contract s promise as corporations fostered a form of economic structure that subordinated individual agency reinforcing rather than alleviating social inequities The text also considers how these issues resonate today especially as contractual ideals influence contemporary notions of social justice While the promise of contract continues to appeal to a vision of equal opportunity the persistent influence of race class and gender hierarchies complicates its realization The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions challenging readers to reimagine a society where individuals might genuinely be free and equal not just in theory but in practice In doing so this book presents realism not as an endorsement of the status quo but as a field of critical inquiry urging us to address the unresolved questions about equity that persist in American society This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

**Rethinking Translation** Lawrence Venuti,2018-10-25 Originally published in 1992 *Rethinking Translation* makes the translator s activity more visible by using critical theory It examines the selection of the foreign text and the implementation of translation strategies the reception of the translated text and the theories of translation offered by philosophers critics and translators themselves The book constitutes a rethinking

that is both philosophical and political taking into account social and ideological dimensions as well as questions of language and subjectivity Covering a number of genres and national literatures this collection of essays demonstrates the power wielded by translators in the formation of literary canons and cultural identities and recognises the appropriative and imperialist movements in every act of translation

**Lifting the Sentence** Robert Fraser, 2000 Art politics and dissent provides a counter history to conventional accounts of American art Close historical examinations of particular events in Los Angeles and New York in the 1960s are interwoven with discussion of the location of these events normally marginalised or overlooked in the history of cultural politics in the United States during the postwar period This book is based on detailed and new research from a range of sources including the alternative press such as the Los Angeles Free Press public and private archives interviews and oral histories Interdisciplinary in approach it adds substantially to recent innovative research and teaching approaches in art history and other related disciplines Provides essential case studies for taught courses scholarly debate and general cross disciplinary readership

**4E Cognition and Eighteenth-Century Fiction** Karin Kukkonen, 2019-01-16 When the novel broke into cultural prominence in the eighteenth century it became notorious for the gripping immersive style of its narratives In this book Karin Kukkonen explores this phenomenon through the embodied style in Eliza Haywood s flamboyant amatory fiction Charlotte Lennox s work as a cultural broker between Britain and France Sarah Fielding s experimental novels and Frances Burney s practice of life writing and fiction writing Four female authors who are often written out of the history of the genre are here foregrounded in a critical account that emphasizes the importance of engaging readers minds and bodies and which invites us to revisit our understanding of the rise of the modern novel Kukkonen s innovative theoretical approach is based on the approach of 4E cognition which views thinking as profoundly embodied and embedded in social and material contexts extending into technologies and material devices such as a pen and enactive in the inherent links between perceiving the world and moving around in it 4E Cognition and Eighteenth Century Fiction investigates the eighteenth century novel through each of these trajectories and shows how language explores its embodied dimension by increasing the descriptions of inner perception or the bodily gestures around spoken dialogue The embodied dimension is then related to the media ecologies of letter writing book learning and theatricality As the novel feeds off and into these social and material contexts it comes into its own as a lifeworld technology that might not answer to standards of nineteenth century realism but that feels real because it is integrated into the lifeworld and embodied experiences 4E cognition answers one of the central challenges to cognitive literary studies how to integrate historical and cultural contexts into cognitive approaches

**Capabilities** Mike Goode,2020-10-02 Romantic Capabilities discusses the relationship between popular new media uses of literary texts Devising and modelling an original critical methodology that bridges historicist literary criticism and reception studies with media studies and formalism this volume contends that how a literary text behaves when it encounters new

media reveals medial capabilities of the text that can transform how we understand its significance for the original historical context for which it was created Following an introductory theoretical chapter that explains the book's unconventional approach to the archive Romantic Capabilities analyzes significant popular media behaviors exhibited by three major Romantic British literary corpuses the viral circulation of William Blake's pictures and proverbs across contemporary media the gravitation of Victorian panorama painters and 3D photographers to Walter Scott's historical fictions and the ongoing popular practice of writing fanfiction set in the worlds of Jane Austen's novels and their imaginary country estates The result is a book that reveals Blake to be an important early theorist of viral media and the law Scott's novels to be studies in vision that helped give rise to modern immersive media and Austenian realism to be a mode of ecological design whose project fanfiction grasps and extends It offers insight into the politics of virality the dependence of immersion on a sense of frame and the extent to which eighteenth century landscape gardening anticipated Deleuzian ideas of the virtual by granting existence to reality's as yet unrealized capabilities

**Transformations, Ideology, and the Real in Defoe's Robinson Crusoe and Other Narratives** Maximillian E. Novak, 2014-10-24 This book explores significant problems in the fiction of Daniel Defoe Maximillian E Novak investigates a number of elements in Defoe's work by probing his interest in rendering of reality what Defoe called the Thing itself Novak examines Defoe's interest in the relationship between prose fiction and painting as well as the various ways in which Defoe's works were read by contemporaries and by those novelists who attempted to imitate and comment upon his Life and Strange Surprising Adventures of Robinson Crusoe decades after its publication In this book Novak attempts to consider the uniqueness and imaginativeness of various aspects of Defoe's writings including his way of evoking the seeming inability of language to describe a vivid scene or moments of overwhelming emotion his attraction to the fiction of islands and utopias his gradual development of the concepts surrounding Crusoe's cave his fascination with the horrors of cannibalism and some of the ways he attempted to defend his work and serious fiction in general Most of all Transformations Ideology and the Real in Defoe's Robinson Crusoe and Other Narratives establishes the complexity and originality of Defoe as a writer of fiction

**The Art of Being** Yi-Ping Ong, 2018-12-10 The Art of Being is a powerful account of how the literary form of the novel reorients philosophy toward the meaning of existence Yi Ping Ong shows that for Kierkegaard Sartre and Beauvoir the form of the novel in its classic phase yields the conditions for reconceptualizing the nature of self knowledge freedom and the world Their discovery gives rise to a radically new poetics of the nineteenth and twentieth century realist novel For the existentialists a paradox lies at the heart of the novel As a work of art the novel exists as a given totality At the same time the capacity of the novel to compel belief in the free and independent existence of its characters depends on the absence of any perspective from which their lives may be viewed as a consummated whole At stake in the poetics of the novel are the conditions under which knowledge of existence is possible Ong's reframing of foundational debates in novel theory takes us beyond old dichotomies of mind and world

interiority and totality and form and mimesis It illuminates existential dimensions of novelistic realism overlooked by empirical and sociological approaches Bringing together philosophy novel theory and intellectual history with groundbreaking readings of Tolstoy Eliot Austen James Flaubert and Zola *The Art of Being* reveals how the novel engages in its very form with philosophically rich notions of self knowledge freedom authority world and the unfinished character of human life     Technologies of the Novel Nicholas D. Paige, 2020-11-19 The first quantitative history of the novel's evolution written with the tools and perspectives provided by the digital humanities
