Contesting Gender Quotas A Typology Of Resistance:

Understanding the Populist Shift Gabriella Lazaridis, Giovanna Campani, 2016-11-10 During the European elections of 2014 one of the main issues raised by the media was the electoral performance of so called populist parties The electorate confirmed its deep dissatisfaction with mainstream political parties voting for far right parties in parliamentary elections in Northern Europe Austria Denmark Sweden Eastern Europe Hungary where the deeply anti Semitic Jobbik party gained votes and in France where the French National Front won about a quarter of the vote while in the Southern European countries battered by austerity policies it was the radical right and left in Greece Golden Dawn and Syriza and the radical left in Spain Podemos that obtained excellent scores This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern Finland Western Austria Denmark France the UK Southern Greece Italy and Central Eastern Europe Slovenia Bulgaria since the 1990s Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism this book will be of interest to students and scholars researching right wing politics as well as European politics more generally Party Institutionalization and Women's Representation in Democratic Brazil Kristin N. Wylie, 2018-08-02 Brazil's quality of democracy remains limited by enduring obstacles including the weakness of parties and underrepresentation of marginalized groups Party Institutionalization and Women's Representation in Democratic Brazil theorizes the connections across those problems explaining how weakly institutionalized and male dominant parties interact to undermine descriptive representation in Brazil This book draws on an original multilevel database of 27 653 legislative candidacies spanning six election cycles over 100 interviews and field observations from throughout Brazil Wylie demonstrates that more inclusive participation in candidate centered elections amidst raced gendered structural inequities relies on institutionalized parties with the capacity to support women and the will heralded by party leadership to do so The book illustrates how women leaders in Brazil's more institutionalized parties enable white and Afro descendant female aspirants to navigate the masculinized terrain of formal politics It enhances our understanding of how parties mediate electoral rules as well as institutional and party change in the context of weak but robustly gendered institutions **Women, Politics, and Democracy in Latin America** Tomáš Došek, Flavia Freidenberg, Mariana Caminotti, Betilde Muñoz-Pogossian, 2017-01-04 This book discusses the current tendencies in women's representation and their role in politics in Latin American countries from three different perspectives Firstly the authors examine cultural political partisan and organizational obstacles that women face in and outside institutions Secondly the book explores barriers in political reality such as gender legislation implementation public administration and international cooperation and proposes solutions supported by successful experiences emphasising the nonlinearity of the implementation process Thirdly the authors highlight the role of women in politics at the subnational level The book combines academic expertise in various disciplines with contributions from practitioners within national and international institutions to broaden

the reader's understanding of women in Latin American politics *Transforming Gender Citizenship* Éléonore Lépinard, Ruth Rubio-Marín, 2018-07-19 Gender quotas are a controversial policy measure. However, over the past twenty years, they have been widely adopted around the world and especially in Europe. They are now used in politics, corporate boards, state and local public administration, and even in civil society organizations. This book explores this unprecedented phenomenon, providing a unique comparative perspective on gender quotas' adoption across thirteen European countries. It also studies resistance to gender quotas by political parties and supreme courts. Providing up-to-date comprehensive data on gender quotas' regulations, *Transforming Gender Citizenship* proposes a typology of countries from those which have embraced gender quotas as a new way to promote gender equality in all spheres of social life to those who have consistently refused gender quotas as a tool for gender equality. Reflecting on divergences and commonalities across Europe, the authors analyze how gender quotas may transform dominant conceptions of citizenship and gender equality. **Law and Gender in Modern Ireland** Lynsey Black, Peter Dunne, 2019-02-21 *Law and Gender in Modern Ireland: Critique and Reform* is the first generalist text to tackle the intersection of law and gender in this jurisdiction for over two decades. As such, it could hardly have come at a more opportune moment. The topic of law and gender, perhaps more so than at any other time in Irish history, has assumed a dominant place in political and academic debate. Among scholars and policy makers alike, the regulation of gendered bodies and the legal status of sexual and gendered identities is now a highly visible fault line in public discourse. Debates over reproductive justice, exemplified by the recent referendum to remove the 8th Amendment, increased rights for lesbian, gay, bisexual and transgender persons, including the public sanctioned introduction of same sex marriage, and the historic mistreatment of women and young girls, have reshaped Irish public and political life and encouraged Irish society to re-examine long unchallenged gender norms. While many traditional flashpoints remain, such as abortion and prostitution, sex work, there are also new questions, including surrogacy and the gendered experience of asylum frameworks, which have emerged. As policy makers seek to enact reforms, they face a population with increasingly polarised perceptions of gender and a legal structure ill-equipped for modern realities. This edited volume directly addresses modern Irish debates on law and gender. Providing an overview of the existing rules and standards, as well as exploring possible options for reform, the collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change. While the edited collection applies a doctrinal methodology to explain current statutes, case law, and administrative practices, the contributors also invoke critical gender, queer, and race perspectives to identify and problematise existing and potential challenges. This edited collection is essential reading for all who are interested in law, gender, and processes of social change in modern Ireland. **Critical Perspectives on Gender Equality Policies and Practices for Staff in Higher Education** Sarah Barnard, Gail Crimmins, 2022-09-13 **Beyond the Boomerang** Christopher L. Pallas, Elizabeth A. Bloodgood, 2022-03-15 The types of actors involved in transnational advocacy have diversified. Northern

NGOs have lost power and influence and been restricted in their access to southern states Southern NGOs have developed a capacity to undertake advocacy on their own and often built closer relationships with their own governments International institutions have become more open to southern NGOs and more skeptical of southern NGOs claims to speak for southern populations The result is that the boomerang theory although still useful no longer provides the broad explanation for advocacy A wealth of recent articles many by contributors to this volume showed a growing scholarly recognition of the need for new theory Beyond the Boomerang offers cutting edge scholarship and synthesizes a new theoretical framework to develop a coherent integrated picture of the current dynamics in global advocacy
