Cost Containment And Efficiency In National Health Systems A Global Comparison:

Cost Containment and Efficiency in National Health Systems John Rapoport, Philip Jacobs, Egon Jonsson, 2008-12-03
Written by a local health economics expert each of the eight chapters in this timely handbook and ready reference describes the national healthcare system of a different industrialized country In each case the 4 5 specific policies with the highest impact on that respective country over the past 20 30 years are identified In addition the economic characteristics of each policy are described and where possible its success evaluated discussing the current policy agenda A final chapter summarizes and synthesizes the major points of the analysis While the main focus is on economics this guide is written in non technical language for an audience of health policy decision makers or students of health policy making it an invaluable contribution to the current debate surrounding the control of rising healthcare related costs in the developed world The Economics of Public Health Care Reform in Advanced and Emerging Economies Mr. David Coady, Mr. Benedict J.

Clements, Mr. Sanjeev Gupta, 2012-04-13 Using cross country analysis and case studies this book provides new insights and potential policy responses for the key fiscal policy challenges that both advanced and emerging economies will be facing

Deber, Catherine Mah, 2014-04-09 Covering a wide range of issues the 22 cases included in Case Studies in Canadian Health Policy and Management constitute an exceptional resource for bringing real life policy questions into the classroom Based on actual events the cases have been developed with input from mid career professionals with strong field experience and extensively tested in Raisa B Deber's graduate case study seminar at the University of Toronto Each case features both a substantive health policy issue and a selection of key concepts and methods appropriate to examining public policy public health and health care management issues In each case the authors provide a summary of the case and the related policy issues a description of events suggested questions for discussion supporting information and both works cited and further reading Suitable for graduate and undergraduate classrooms in programs in a variety of fields Case Studies in Canadian Health Policy and Management is an exceptional educational resource This second edition features all new cases as well as adding an introductory chapter that provides a framework and tools for health policy analysis in Canada **Foreign**

Remedies: What the Experience of Other Nations Can Tell Us about Next Steps in Reforming U.S. Health Care

David A. Rochefort, 2012-04-23 The Patient Protection and Affordable Care Act marked a watershed in U S health policy but controversy over its passage rages on and much uncertainty surrounds the law's transformation from blueprint into operational program How can the experience of other nations help us to reconcile the competing goals of universal coverage cost control and high quality care Following an analysis of the 2010 statute this book surveys developments in different parts

of the globe to identify important lessons in health politics policy design and program implementation A concluding chapter examines the issue of resistance to foreign remedies within the process of U S health reform Bending the Cost Curve in Health Care Gregory P. Marchildon, Livio Di Matteo, 2015-01-01 Through Canadian and international perspectives Bending the Cost Curve in Health Care explores the management of growing health costs in an extraordinarily complex arena The book moves beyond previous debates agreeing that while efficiencies and better value for money may yet be found more fundamental reforms to the management and delivery of health services are essential prerequisites to bending the cost curve in the long run While there is considerable controversy over direction and details of change there also remains the challenge of getting agreement on the values or principles that would guide the reshaping of the policies the structures and the regulatory environment of health care in Canada Leading experts from around the world representing a range of disciplines and professional backgrounds come together to organize and define the problems faced by policy makers Case studies from the United States the United Kingdom Australia the Nordic countries and industrialized Asian countries such as Taiwan offer useful reform experiences for provincial governments in Canada Finally common Canadian cost factors such as pharmaceuticals and technology and paying the health workforce are explored This book is the first volume in The Johnson Shoyama Series on Public Policy published by the University of Toronto Press in association with the Johnson Shoyama Graduate School of Public Policy an interdisciplinary centre for research teaching and executive training with campuses at the Universities of Regina and Saskatchewan *A Disease-based Comparison of Health Systems What is Best and at what Cost?* OECD, 2003-05-14 This book combines a collection of essays by leading experts from several OECD countries with papers discussing the results of the OECD Ageing Related Diseases study *Comparative Health Systems* Johnson, Carleen Stoskopf, Leiyu Shi, 2017-03-02 The Second Edition of Comparative Health Systems A Global Perspective offers new perspectives in health administration public health and public policy that address evidence based approaches to health system improvement systems thinking at the policy level integrated information management macro and micro innovation and systems sustainability Part I offers introduces foundational concepts including health and disease and policy and economics Two new chapters explore innovation and sustainability and the role and contributions of non governmental organizations In Part II the health systems of 19 countries are each examined in their own chapter that carefully explores the country s geography and culture the history of its health system followed by a detailed evaluation of cost quality access and innovation Tod aus Verzweiflung Anne Case, Angus Deaton, 2022-02-10 Der American Dream ist im Niedergang begriffen F r die wei e Arbeiterklasse ist das heutige Amerika zu einem Land der zerr tteten Familien und der mangelnden Perspektiven geworden W hrend College Absolventen immer ges nder und wohlhabender werden sterben Erwachsene ohne Abschluss immer h ufiger an Alkohol Drogen und Suizid ein Tod aus Verzweiflung Die wachsende Macht der Konzerne und ein skrupelloser Gesundheitssektor sind nur zwei der Gr nde Der Kapitalismus der in zwei Jahrhunderten unz hliche Menschen

aus der Armut befreite zuerst nun das Leben der amerikanischen Arbeiter Die renommierten Konomen Anne Case und Angus Deaton legen diese Misere in ihrem Buch schonungslos offen Drohen auch uns amerikanische Verhältnisse Die Autoren geben brandaktuelle Antworten *The World Health Report 2000* World Health Organization,2000 Includes table of health system attainment and performance in all member states 191 ranked by eight measures **Public Ends, Private Means** Alexander S. Preker,2007-01-01 Great progress has been made in recent years in securing better access and financial protection against the cost of illness through collective financing of health care Managing scarce resources effectively and efficiently is an important part of this story Experience has shown that without strategic policies and focused spending the poor are likely to get left out The use of purchasing to enhance public sector performance is well documented in other sectors Extension to the health sector of lessons from this experience is now successfully implemented in many developing countries Public **OECD Economic Surveys: New Zealand 2009** OECD,2009-04-15 The global crisis is hitting New Zealand at a time when difficult domestic adjustment is underway Its economy is among the most indebted in the OECD Falling asset prices and a slump in credit demand mean that a process of debt reduction has *Policy Tools for Allocative Efficiency of Health Services* Xingzhu Liu,2003 This study is a result of trying to answer for the WHO the question Are there any policy tools that have been shown to improve the allocative efficiency of health care provision It does not simply tell policy makers which tools to take up but rather how to determine which ones are more likely to be feasible and effective given particular circumstances of political and administrative capacity knowledge on the part of both providers and consumers and other factors which affect whether a policy tool can be used and with what outcome **Comparative Health Policy** Robert H. Blank,Viola Burau,Ellen Kuhlmann,2017-10-11 A broad ranging introduction to the provision funding and governance of health care across a variety of systems This revised fifth edition incorporates additional material on low middle income countries as well as broadened coverage relating to healthcare outside of hospitals and the ever increasing diversity of the healthcare workforce today **Understanding Health Services** Nick Black,Reinhold Gruen,2005-08-01 No single discipline can provide a full account of how and why health care is the way it is This book provides you with a series of conceptual frameworks which help to unravel the apparent complexity that confronts the inexperienced observer It demonstrates the need for contributions from medicine sociology economics history and epidemiology **Paying for Performance in Health Care Implications for Health System Performance and Accountability** OECD,World Health Organization,2014-10-06 This report examines recent activation policies in the United Kingdom aimed at moving people back into work It offers insight into how countries can improve the effectiveness of their employment services and also control spending on benefits Health Systems Performance Assessment Christopher J. L. Murray,David B. Evans,2003-11-06 The World Health Report 2000 has generated considerable media attention controversy in some countries and debate in academic journals This volume brings together in one place the substance of many of these key

debates and reports methodological advances and new empiricism reflecting the evolution of the WHO approach since the year 2000 Specifically the volume presents many differing regional and technical perspectives on key issues major new methodological developments and a quantum increase in the empirical basis for cross country performance assessment It also gives the full report of the Scientific Peer Review Group s exhaustive assessment of these new approaches *The Dictionary of Health Economics, Second Edition* Anthony J. Culyer, 2010-01-01 Another masterpiece in health economics from a doyen in the field this expanded and updated dictionary will undoubtedly become a standard reference work for scholars practitioners and others working in this area The definitions are concise the coverage is comprehensive the cross referencing is excellent and the subject and name indexes greatly assist navigation of this substantial tome You will want to keep this one within arm s reach Jim Butler Australia National University Health economics and health service research as well as health care policy delivery and finance rely on a dizzying array of terms drawn from a diverse set of disciplines including but not limited to economics epidemiology risk science and statistics Moreover the health and health care systems are replete with acronyms and specialized institutions The Dictionary of Health Economics provides the most comprehensive set of definitions and explanations of these terms available It is a fantastic resource for anyone working in any health related field Michael Chernew Harvard Medical School US This dictionary is unique What other dictionary borders on being an enjoyable read Its breadth is quite astonishing It is also very clearly a health economics dictionary and will allow those in mainstream economics in the other social sciences and in health sciences and health care to understand and be better able to communicate with health economists It will also be a most useful addition to the bookshelves of health economists like myself Gavin Mooney University of Sydney Australia This book is a welcome addition for graduate students or professionals interested in the taxonomy of health care David Cutler Harvard University US Health economics is at the crossroads of medicine economics statistics insurance and the law This often makes for difficult reading But help is now available thanks to this amazingly comprehensive Dictionary of Health Economics I for one ran into several entries that I did not or did not fully understand but the very clear explanations changed that within a few moments This Dictionary is a true service to the scientific community Peter Zweifel University of Zurich Switzerland The Dictionary provides a comprehensive overview and authoritative yet accessible explanation of important terms and concepts from the increasingly important field of health economics This excellent work will enable many entering this field students and professionals alike to quickly yet thoroughly grasp the meaning of the health economics jargon facilitating study and multi disciplinary co operation Anthony Culyer is sharing his impressive knowledge in this field in a clear and user friendly fashion hopefully to the benefit of many readers Werner Brouwer Erasmus University Rotterdam the Netherlands An essential book to steer the student away from a minefield of inaccurate and woolly definitions and an important resource of the practitioner of health economics A book that offers the reader accuracy and rigour in the definitions it provides of key terms in health economics alongside ready access

John Brazier University of Sheffield UK This second edition of Culyer s authoritative Dictionary of Health Economics brings the material up to date and adds large amounts of new information Some definitions have been revised There are over 700 new entries The Dictionary now also contains extensive references to the literature to identify original source material or to provide illustrations of the headword in use The bibliography comprises some 1 000 items In view of the huge growth in cost effectiveness studies and the continuing variability in their quality an appendix lists 100 high quality cost effectiveness studies from all parts of the world There are now many more entries and references relating to the developing world New and separate subject and name indices provide supplementary means of searching the material and identifying individuals who have contributed significantly to the oeuvre
