**The Politics and Law of Democratic Transition** Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people's will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law

**Outrage** Paul Rollier, Kathinka Frøystad, Arild Engelsen Ruud, 2019 Whether spurred by religious images or academic history books hardly a day goes by in South Asia without an incident or court case occurring as a result of hurt religious feelings The sharp rise in blasphemy accusations over the past few decades calls for an investigation into why offence politics has become so pronounced and why it is observable across religious and political differences Outrage offers an interdisciplinary study of this growing trend Bringing together

researchers in Anthropology Religious Studies Languages South Asia Studies and History all with rich experience in the variegated ways in which religion and politics intersect in this region the volume presents a fine grained analysis that navigates and unpacks the religious sensitivities and political concerns under discussion Each chapter focuses on a recent case or context of alleged blasphemy or desecration in India Pakistan Bangladesh and Myanmar collectively exploring common denominators across national and religious differences Among the common features are the rapid introduction of social media and smartphones the possible political gains of initiating blasphemy accusations and the growing self assertion of marginal communities These features are turning South Asia into a veritable flash point for offence controversies in the world today and will be of interest to researchers exploring the intersection of religion and politics in South Asia and beyond
